This report was intended to provide basic data which up till now has been lacking. The publication also aims to place information about the incidence of illegitimacy in New Zealand within an international context. Of particular interest to sociologists, economists, researchers and social workers. (Social Welfare Department.)

**FOREST LORE OF THE MAORI**By *Elsdon Best*DOMINION MUSEUM BULLETIN No. 14  
421 p. 1977. \$17.95

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more importantly of his attitude to what was a major part of his environment. It will be of more general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic material for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.

The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made.
