Poultry Entitlement Levy—Determination of Nature and Incidence (Notice No. 2163, Ag. 20210)

Pursuant to regulation 75b of the Egg Marketing Authority Regulations 1953, as inserted by regulation 15 of the Egg Marketing Authority Regulations 1953, Amendment No. 15, the Egg Marketing Authority, with the approval of the Minister of Agriculture, gives notice of the nature and incidence of the entitlement levy which it has determined, as follows:

Assessment of Levy—

(a) From 1 July 1978 every entitlement holder shall pay to the Authority a variable entitlement levy in respect of each laying bird authorised to be kept pursuant to his or its entitlement licence. Such levy shall be payable for each "statistical period" that licensed distributors are authorised by the Authority, pursuant to regulation 65 (2) of the Egg Marketing Authority Regulations 1953, to deduct levies on eggs ("floor downpayments") from the proceeds of eggs consigned to them for sale. Such amounts deducted shall be paid in the manner and at the times set out below. The rate of variable entitlement levy for each "statistical period" shall be 20 times the rate of "floor downpayment" per dozen eggs for that period divided by 12. For this purpose "statistical period" means any one of 12 periods, each of either 4 or 5 weeks, into which each year is divided by the Authority for statistical and accounting purposes.

(b) The manner of assessing levies payable set out in (a) above shall have continuing effect until any variation thereof shall have been determined and approved, in the manner provided for in regulation 75b (2) provided that the total amount of variable entitlement levy imposed shall not exceed $3.50 in relation to each bird authorised to be kept under an entitlement licence.

Payment of Levy—

(c) Levies assessed and payable as above shall be debited in the books of the Authority to the accounts of the entitlement holders concerned. In the case of entitlement holders who are egg floor suppliers, payment shall be made by deduction from each such entitlement holder's account sales by the licensed egg distributors to whom the eggs are consigned for sale. Such amounts deducted shall be forwarded by those distributors to the Authority at the same time as payment is made to the entitlement holder for eggs received. Any levy which is not received by the Authority by way of deduction from the account sales is to be paid by the entitlement holder direct to the Authority by the 20th of the month following the month levied. Where the entitlement holders do not supply any eggs to a licensed distributor payment is to be made direct by each such entitlement holder to the Authority by the 20th of the month following the month levied.

(d) An entitlement levy charged to an entitlement holder shall be in lieu of, and replace, any levies payable to the Authority and authorised (pursuant to regulations 65 (2) of the Egg Marketing Authority Regulations 1953) to be deducted from the proceeds of eggs consigned to a licensed distributor for sale.

G. G. KERMODE, General Manager.

Dated at Wellington this 11th day of June 1979.

dated at Invercargill this 6th day of June 1979.

R. H. INDER, Deputy Registrar.

NEW ZEALAND WOOL BOARD

The Adjusted Weighted Average Sale Price for the auction sale of wool held on 14 June 1979, at Napier, was 231.59 cents per kilogram. As this price is above the Government Supplementary Minimum Wool Price of 205 cents per kilogram (greasy average basis) no supplement is payable.

There is likewise no retention applicable as the A.W.A.S.P. is less than the Trigger Price of 250 cents per kilogram set by the Minister of Agriculture for the 1978–79 wool season.

A. J. N. ARTHUR, Levies Administration Manager.

Westland Savings Bank

Notes to the Financial Statements for the Year Ended 31 March 1979

Statement of Accounting Policies:

1. General Accounting Policies—The general accounting principles recognised as appropriate for the measurement and reporting of results and financial position under the historic cost method of accounting have been adopted on a basis consistent with the previous year.

2. Recognition of Income—Income earned is recorded on an accrual basis. Interest on personal loans is calculated according to “rule of 78.”

3. Valuation of Investments—Investments are valued at cost. Both New Zealand Government and Local Authority Securities are normally held to maturity and their value on redemption approximates cost.

4. Fixed Assets and Depreciation—Fixed assets are valued at cost less accumulated depreciation. Depreciation has been charged using the straight-line method based on the economic life of the assets.

5. Taxation—Taxation provisions are assessed on accounting profits. Where income is taxable in a future tax period the provision is shown as deferred taxation.

Capital Commitments:

Reefton Premises Development $150,000.

Commitments:

Mortgages approved but not yet uplifted $531,968.

Report of the Auditors

We report that we have audited the books and accounts of the Westland Savings Bank for the year ended 31 March 1979, and have obtained all the information and explanations we have required. In our opinion, the accompanying profit and loss account, balance sheet, and notes, presents fairly the financial position of the bank at 31 March 1979, and the results of the year ended on that date, determined in accordance with the historical cost basis of accounting.

Marshall and Heaphy, Chartered Accountants.

### GENERAL PUBLICATIONS

**ART IN SCHOOLS—The New Zealand Experience**

*Department of Education*

Illustrated, coloured and black and white plates. 320 p. 1978. $14.25

The books set out to show that art is a useful part of education, that art can join in with other subjects, or can stand on its own, and that it can draw in all sorts of people—children, teachers with or without specialist training, and parents.

Outlines the programmes, projects and many different activities that have been carried out in various schools throughout New Zealand. Projects have been selected which best illustrate the topic under discussion; in no way do they represent the full range of art education, nor the finest work being done.

**ABOUT NEW ZEALAND**

**DIRECTIONS FOR EDUCATIONAL DEVELOPMENT**

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975.

$2.50

This report marks the culmination of the activities of the Educational Development Advisory Council which has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention.

Education is seen as a lifelong activity, and emphasis is thereby placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close co-operation and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed. Together with ways in which continuing education could be provided for the whole population.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and community, at for instance, school committee and district level.
