Designation of High Priority Activities

For the purposes of section 2a (1) (e) of the Commerce Act 1975, and in relation to the economic policy of the Government as transmitted thereunder to the Commerce Commission on 29 December 1977, and for the purposes of regulations 3 (4) of the Stabilisation of Prices Regulations 1974*, the Secretary of Trade and Industry and the Secretary to the Treasury hereby designate the manufacture or supply of the following classes or descriptions of goods or services, by the persons named hereunder, to be High Priority Activities:
Approvals Given to Forms of Entry Permits by Ministers of Immigration

The following approvals are hereby published for general information:

DEPARTMENT OF LABOUR

MEMORANDUM for:
The Minister of Immigration,
Parliament Buildings,
Wellington.

As a preliminary to introducing a system of stamping entry permits in passports instead of issuing permits in document form as at present, the Immigration Restriction Regulations 1930 were amended in 1962 (1962/22 Amendment No. 8) to provide that any form of entry permit approved by the Minister of Immigration would seem to be a prescribed form for the purposes of Part 1 of the Immigration Restriction Amendment Act 1920. In a few months' time when instructions to overseas posts and to Collectors of Customs have been rewritten, a system of stamping passports will be introduced universally. At the present time, however, British subjects wholly of European origin are given a permanent entry stamp in their passports in order to comply technically with the 1961 amendment to the Act providing that all persons other than New Zealand citizens be subject to entry permit requirements. From 1 February this year Fiji visitors, as a part of the new procedure by which applications will be decided in Fiji, will receive temporary permits stamped in their passports. I would therefore recommend that in terms of Regulation 2 of Amendment No. 8 (1962/22) to the Immigration Restriction Regulations 1930, you approve of entry permits in the following form for endorsement in passports, subject to the provisions of the Immigration Restriction Act 1908 and its amendments.

FISHING METHODS AND DEVICES OF THE MAORI

By Elsdon Best

National Museum Bulletin No. 12

264 p.

$15.95

Another in the series of the Best publications, it has been reprinted without revision so that the basic studies may be accessible in the original style.

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. The detailed fishing methods outlined are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances, and fishing lore.

FOREST LORE OF THE MAORI

By Elsdon Best

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977. $17.95

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economies and perhaps more importantly of his attitude to what was a major part of his environment. It will be of more general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic material for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.

STATEMENT OF ACCOUNTING POLICIES

The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of profits on an historical basis have been followed.
Particular accounting policies used which significantly affect the measurement of the Bank's profit and its financial position, are set out below:

(a) Depreciation—Fixed assets are being depreciated on a straight line basis at rates which will write off the cost over the estimated useful lives to estimated residual values. The principal write off periods are:

- Buildings: 40-100 years.
- Computer and office calculating equipment: 10 years.
- Furniture and fittings: 10-15 years.
- Other fixed assets: 3-15 years.

(b) Personal loan interest—Interest on personal loans is appropriated over the term of the loan, using the "Rule of 78" method.

(c) Taxation—Taxation charged against net profit includes both current and deferred tax. Deferred taxation arises from timing differences related to:

- (i) Interest accrued on investments.
- (ii) Depreciation charges.

(d) Valuation of investments—Investments are recorded at cost. Both New Zealand Government and local authority securities are normally held to maturity and their value on redemption approximates cost.
