Exchange Rates

In terms of section 25 (2) of the Reserve Bank of New Zealand Act 1964, the Reserve Bank today released the following exchange rates which are effective from 2 August 1979. These rates do not apply to transactions for settlement after the expiration of 2 business days (forward transactions) or to transactions in which instruments are purchased which do not entitle the buyer to foreign currency balances in the foreign centre until the instruments have been delivered at the foreign centre. In the latter case foreign centre rates may be deducted from the telegraphic transfer rate to compensate the purchaser for his loss during the transit period.

NOTES TO THE ACCOUNTS

(A) Statement of Accounting Policies—The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of results on an historical cost basis, consistent with previous years, have been used in the preparation of the financial accounts.

The following particular principles have been applied:

1. Depreciation—Straight-line depreciation has been applied to the Bank's E.D.P. equipment to write it off over the period of its expected useful life. All other assets have been depreciated at the rates allowable by the Inland Revenue Department. The difference between these rates, and the straight-line method, is not considered to be material.

2. Government Stock—It is the Bank's policy to amortise discounts and premiums on Government stock securities over the term of the investment on a straight-line basis and to show the value of the stock in the balance sheet at its cost price adjusted by the amortised discount to date. The market value of the Bank's Government stock holding is $24,382,356.

3. Personal Loans—The Bank's policy is to add total interest due to the loan when advanced, and interest is brought in revenue on the basis of the "Rule of 78".

4. Taxation—(a) The provision for Income Tax charged in the profit and loss account is the calculated tax liability in respect of the accounting profit after adjusting for permanent differences.

(b) The provision for deferred taxation arises from timing differences relating to income accrued into the accounts but not received as at balance date.

(B) Shares—Northern Trustee Computerbank Ltd.—These shares have been shown in the accounts according to the standard accounting practice adopted by the New Zealand Society of Accountants for an associate company.

SOUTHLAND SAVINGS BANK

NOTES TO THE ACCOUNTS

Statement of Accounting Policies—The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of results on an historical cost basis have been adopted in the preparation of the financial statements.

The particular accounting principles which the Bank considers appropriate for the measurement of profit and financial position are detailed below:

1. Revenue—(a) Interest accrued on investments has been taken into account.

(b) Personal Loans—The "Rule of 78" has been used in determining interest accrued.

2. Depreciation—Calculation has been made on the basis of Inland Revenue Department rates. First year depreciation has been claimed where applicable. Straight line basis for calculation of depreciation has not been adopted as it is considered the difference in the amount of depreciation would not be material.

3. New Zealand Government Stock—In accordance with established policy New Zealand Government stock has been shown at face value. Prior to 1 April 1975, certain parcels of New Zealand Government stock were purchased at a discount.

4. Taxation—No provision has been made for "deferred taxation".

5. During the year repairs and maintenance costs of extraordinary amount were incurred in conjunction with the remodelling and extending of Invercargill Branch and Head Office premises and also Strathaven Sub-branch premises. These amounts which total $527,593 have been certified as expenditure of a revenue nature by the Bank's architects. This expenditure has accordingly been charged to revenue and has the tendency to distort any comparison of the financial result of the year ended 31 March 1979 with that of any previous year.

**SHADOW OF THE LAND**

By Ian Wards

The title for this book was provided by Nopera Panakareko, a Kaitaia chief of much influence, who, in May 1840, believed that only the "shadow of the land" had gone to Queen Victoria whilst the substance remained with the Maoris. More than a year later he revised this opinion convinced that only the "shadow" would be the Maori portion.

The author examines the British acquisition of New Zealand, the Maoris trust in the Treaty of Waitangi and their confidence that its terms would be honoured and explains it was only by accident that the Maoris were guaranteed the possession of their lands and ancient privileges.

It is under these circumstances that the book considers the use of military force in New Zealand, analyses the arguments surrounding the provision of troops and concludes that, beyond any reasonable doubt there was never an attempt to govern by "moral suasion".

New Zealand followed the normal nineteenth century British pattern of territorial acquisition.

The book is an essential introduction to the Maori wars of a later date.
