FOREST LORE OF THE MAORIBy *Elsdon Best*

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977.

\$17.95

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more importantly of his attitude to what was a major part of his environment. It will be of more general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic material for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.
