(Books 1 to 7 in this series now out of print)

THE PLANNING AND CONTROL OF GOVERNMENT EXPENDITURES

(PLANNING, PROGRAMMING, AND BUDGETING SYSTEM)

76 p. \$2.50

Records some of the improvements in management systems that have been made within the Government in recent years to help Ministers, members of Parliament, and public servants deal with the problem of planning and controlling expenditure. (The Treasury.)

PLANTS IN NEW ZEALAND POISONOUS TO MAN

By Jose Stewart. Revised by H. E. Connor

39 p. 1975. \$2.25

This revised edition of Mrs Stewart's book, which was first published in 1964, is a handy colourful guide to the 50 or more plants in New Zealand known or suspected to be toxic to man. The plants are listed in alphabetical order by their common names and each entry has a colour photograph identifying the poisonous part of the plant. The botanical name, a general description of the plant, the toxin, and the symptoms of poisoning are also given. Plants that are toxic if eaten, and touch irritants are dealt with in separate sections. A general instruction on what to do if poisoning occurs or is suspected is featured prominently at the beginning of the book for ready access in emergency. The material in the booklet is useful, succinct, and attractively presented. Although it has wide appeal generally, it is particularly valuable to parents of the young and curious.

PREVENTING FROST DAMAGE TO FRUIT TREES

By E. W. Hewett (Plant Diseases Division)

INFORMATION SERIES No. 86

55 p. eighteen Illustrations, 9 tables. \$1.45

A number of factors, both climatic and cultural, affect the development, longevity, and severity of the frosts. An understanding of these factors is essential in selecting and operating methods of preventing frost damage.

POISONOUS PLANTS IN NEW ZEALAND

By H. E. Connor

DSIR BULLETIN 99 (Botany Division)

247 p. 16 colour plates. Line drawings by Nancy M. Adams. 1977. second revised edition. \$9.75

This enlarged and revised edition of the book, first published 25 years ago describes and illustrates the plants in New Zealand that are poisonous.

Details are given on the frequency of poisoning, the toxins and the clinical signs that result when these plants are eaten or touched.

Invaluable for veterinarians, hospital casualty officers, botanists, farm advisers, farmers, and parents. Well illustrated. Includes glossary, references, and index.

POLICIES FOR REGIONAL DEVELOPMENT IN NEW ZEALAND

Edited by G. A. Town

124 p. \$3.50

In this book, the authors discuss the criteria which they feel should determine any sound policies in the field of regional planning and development. Although many different points of view are presented, there is unanimity that economic considerations alone should not dictate future policy. Essentially, it is for New Zealanders to consider all the relevant factors and decide what pattern of development they wish to see emerge. This book is intended as a constructive contribution to the public debate currently under way. Series No. 17. (New Zealand Institute of Public Administration.)

A REFRESHER COURSE IN CALCULATIONS

TRAINING GUIDE No. 3, SECOND EDITION 1975

62 p. 85c

This refresher course is intended to help those who are required to use calculations on the job, or who are about to undertake various study courses. It includes multiplication and division, fractions, decimals, proportion, averages, percentages, and also the metric system. (Industrial Training Service, Department of Labour.)
