DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975.

\$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention. Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, as for instance, school committee and district level.

ECONOMICS OF THE NEW ZEALAND MAORI

By Raymond Firth

519 p. 1972.

\$8.75

The Maori people are honourably known far outside the confines of their New Zealand home. Acknowledged to be one of the finest of the native races within the British Commonwealth they have long been celebrated for their splendid physical appearance, their proud bearing, their aristocratic spirit, their fluent oratory and above all for their prowess in war. This book contains an account of the social and economic organisation of the Maori people before the organisation was transformed by contact with Western civilisation. It is a major scientific contribution to economic anthropology and has now become a standard work.
