

INSECT PESTS

MINISTRY OF AGRICULTURE AND FISHERIES BULLETIN 413

By G. A. H. Helson, M.Sc.(HONS), M.N.Z.I.A.S.

195 p. \$2

This book provides information on identification, life history, and control of pests and their effects on agriculture, horticulture, and public health. To be able to control insect-pest populations requires an understanding of their anatomy, time taken from egg to adult, how they feed and grow, their habits, the life stage causing damage, their food, and where they live.

INTRODUCTION AND LIBERATION OF THE OPOSSUM INTO NEW ZEALAND*By L. T. Pracy*

28 p. with fold-out map. 1974. \$1.20

Introduction of the opossum to New Zealand from Australia was about 1840. This publication is a summary of collected data and records on the liberation points and other information, in the hope of obtaining a better understanding of the opossum, such as pattern spread, distribution, and the effect on the habitat. (New Zealand Forest Service.)

JOURNAL OF ENSIGN BEST*Edited by Nancy M. Taylor*

Although intended as a personal record for his family, Ensign Best's journal is a delightful account of his sojourn in Australia, Norfolk Island, and New Zealand. A random selection from the journal yields descriptions of hunting trips and picnics in New South Wales, viceregal balls in Sydney, a bachelor's party on Norfolk Island, pig hunting in the Wairarapa, the first race meeting in New Zealand, sailing on Auckland Harbour, the death and burial of Governor Hobson, and an expedition from Auckland to Taupo.

THE MAORI AS HE WAS*By Elsdon Best*

295 p. Reprint. 1974. \$6.50

Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

MAORI AGRICULTURE*By Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 9

315 p. 1976. \$13.50

The only comprehensive study of Maori agriculture available, this bulletin adds a further volume to the series of Elsdon Best's works which the Government Printer undertook to reprint preserving the original text and bulletin numbers. I recommend this book and the series as a whole; to collectors, archaeologists, and to those studying the prehistoric economy of the Maori people. (Government Printer.)

THE MAORI CANOE*By Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 7

451 p. 1976. \$17.50

A reprinted edition without textual alterations and retaining the old Dominion Museum number. Another example of Elsdon Best's dedicated effort to preserve Maori culture. The material presented on canoes, their materials, types, methods of construction, and associated artifacts make interesting reading for the layman as well as for scholars of the Maori. (Government Printer.)
