Fruit/vegetable in brine or syrup	various	Any	Consent	Any	No	No	..	No	No	No	
Fungi; edible, dried—											
Cultivated mushrooms	<i>Agaricus bisporus</i>	HC	Consent	Any	No	No	..	No	No	No	
Ear fungus	<i>Auricularia</i>										
Marasmius	<i>Marasmius oreades</i>										
Morel	<i>Morchella</i>										
Padi-straw mushrooms	<i>Volvariella volvacea</i>										
Shiitake	<i>Lentinus edodes</i>										
Truffle	<i>Tuber</i>										
Ginger, crystallized in brine or syrup	<i>Zingiber</i>	HC	Consent	Any	No	No	..	No	No	No	
Ginseng; dried tubers, seed	<i>Panax</i>	HC	Consent	Any	No	No	..	No	No	No	
Hops, dried	<i>Humulus</i>	IMPORT NORMALLY PROHIBITED									
Juniper, berry, dried	<i>Juniperus</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Kumquat, dried	<i>Fortunella</i>	HC, P	Consent	Any	No	No	..	No	No	No	
			or								
Litchi, dried	<i>Litchi/</i>	HC, P	Consent	Any	No	No	..	A	No	No	
Longan, dried	<i>Nephelium</i>										
Lychee, dried											
Loquat, dried	<i>Eriobotrya</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Mango; dried, peel	<i>Mangifera</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Nectarine, dried	<i>Prunus</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Pawpaw, dried	<i>Carica</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Peach, dried	<i>Prunus</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Pear, dried	<i>Pyrus</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Pineapple; dried, sliced	<i>Ananas</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Plum, dried	<i>Prunus</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Pollen	Various	HC	Consent	Any	No	No	..	No	No	No	
Prune	<i>Prunus</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Raisin	<i>Vitis</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Sago, flour	<i>Metroxylon</i>	Any	Consent	Any	Yes	No	..	No	No	No	
					for SF						
Sultana, dried	<i>Vitis</i>	HC, P	Consent	Any	No	No	..	No	No	No	
Sweet corn, frozen	<i>Zea mays</i> : (a) From Australia	HC	Consent	Any	Yes	No	..	No	No	No	
	(b) Except from Australia	HC	Consent	Any	No	No	..	B	No	No	
Tapioca	<i>Manihot esculentus</i>	Any	Consent	Any	Yes	No	..	No	No	No	
					for SF						
Tobacco leaf	<i>Nicotiana</i>	P	ENTRY NOT PERMITTED								
		or	Consent	Any	No	No	..	P	No	No	

Dated at Levin this 5th day of May 1980.

A. F. RAINBOW, for Director-General of Agriculture and Fisheries.

APPENDIX I

CERTIFICATES AND ENDORSEMENTS

For the purpose of certification, origin is defined as "the country in which the seed was grown", not where packaged, or re-exported from another source.

Certificate No. I—Certificate of Origin:

A certificate signed by an official employed full-time by the government of the exporting country, certifying that the seed was grown in the country of export, or that the product is derived from seed that was grown in the country of export. Applicable only to Schedule B material where specified.

Certificate No. II—Storage Certificate:

A declaration by the owner or consignor that the seed has been stored in a seed store for a period of 18 weeks in the country of export, after harvest or before shipment; or, in lieu of this declaration, importers may elect to have the seed fumigated with methyl bromide either before shipment or on arrival. Applicable only to Schedule A material where specified.

Certificate No. III—International Health Certificate:

B—Basic: An International Health Certificate issued in accordance with the Introduction and Quarantine of Plants Regulations 1973.

E—Endorsement: A basic health certificate endorsed that the crop(s) from which the seed was harvested has (have) been inspected during the growing season and found to be apparently free from... (fill in appropriate endorsement as specified in the list below); or that... (fill in appropriate endorsement as specified below) is not known to occur in... (country or state of origin).

Endorsement Numbers:

1. Barley stripe mosaic virus.
2. Dwarf bunt (*Tilletia contraversa/T. panicii*); or in lieu of this endorsement—"a sample of the seed was examined in a recognised plant pathology laboratory, and no spores of *Tilletia* spp. were found". (NOTE: The casual fungus is named *T. panicii* in Japan and East European countries, and *T. contraversa* elsewhere. Health certificates should be endorsed accordingly).
3. Halo blight (*Pseudomonas phaseolicola*); common blight (*Xanthomonas phaseoli* and *Xanthomonas phaseoli* var. *fuscans*); wilt (*Corynebacterium flaccumfaciens*); and anthracnose (*Colletotrichum lindemuthianum*).
