1. Statement of Accounting Policies—The particular accounting policies adopted by the Bank which significantly affect the measurement and the reporting of its results and financial position on an historical cost basis are as follows:

(a) Foreign currency conversions—Overseas assets and liabilities at balance date are converted to New Zealand currency using appropriate telegraphic transfer rates ruling at the end of the financial year.

(b) Fixed assets and depreciation policy—The Bank's buildings at Wellington and Christchurch are depreciated over their estimated economic life on a straight line basis at the rate of 1 percent per annum. The Bank's existing building at Auckland has been fully written off. The cost of all land acquired has been written off in prior years. All other fixed assets are written off in the year of acquisition.

(c) Investments—Overseas investments are shown in the balance sheet at cost. (A market value is not available for the majority of investments held, the maturity value is $9.33 million). New Zealand Investments are shown at the lower of cost or market value (market value $452.37 million).

(d) Exchange rate fluctuations—The profit or loss arising from appreciation or depreciation of the Bank's net overseas assets due to movements in basic exchange rates is settled with Treasury in terms of section 26 of the Reserve Bank of New Zealand Act 1964. The loss in respect of the year ended 31 March 1980 subject to such settlement was $NZ14,609,950.

2. Contingent Liability—In respect of an investment of 250,000 one pound stg. shares in the Commonwealth Development Finance Co. Ltd. of which 50p. per share is uncalled. (New Zealand equivalent $287,489.)
3. Capital Commitment—The estimated cost of the new Auckland building is now $14.5 million of which $5.6 million has been paid to date.

4. Exchange Contracts—As at 31 March the Bank had entered into exchange contracts for the purchase and/or sale of overseas currency totaling NZ$812.1 million. (The risk on these contracts is covered by the indemnity described in note 1 (d)).

REPORT OF THE AUDITORS TO THE RESERVE BANK OF NEW ZEALAND

We have audited the accounts of the Reserve Bank of New Zealand for the year ended 31 March 1980, and have obtained all the information and explanations we have required.

In our opinion the above balance sheet and profit and loss account are properly drawn up so as to give respectively a true and fair view of the state of affairs of the Bank as at 31 March 1980, and of its profit for the year then ended.

SHADOW OF THE LAND
By Ian Words
422 p. 1968. $9

The title for this book was provided by Nepopa Panakarero, a Kaitaia chief of much influence, who, in May 1840, believed that only the "shadow of the land" had gone to Queen Victoria while the substance remained with the Maoris. Less than a year later he revised this opinion convinced that only the "shadow" would be the Maori portion.

The author, examining the British acquisition of New Zealand, the Maoris in the Treaty of Waitangi and their confidence that its terms would be honoured and explains it was only by accident that the Maoris were guaranteed the possession of their lands and ancient privileges.

It is under these circumstances that the book considers the use of military force in New Zealand, analyses the arguments surrounding the provision of troops and concludes that, beyond any reasonable doubt there was never an attempt to govern by "moral suasion".

New Zealand followed the normal nineteenth century British pattern of territorial acquisition.

The book is an essential introduction to the Maori wars of a later date.
