Import Control Regulations 1973—Import Licence Tendering Scheme

Pursuant to the provisions of regulation 9A of the Import Control Regulations 1973 (S.R. 1973/86), as inserted by regulation 2 of the Import Control Regulations 1973, Amendment No. 3 (S.R. 1980/246), the Secretary of Trade and Industry, being duly authorised in this behalf by the Minister of Trade and Industry hereby publishes a guide to the Import Licence Tendering Scheme.

1. Outline of Scheme:

(a) This scheme applies to certain import licences for commodities falling within the general category of consumer goods. It derives from the Import Control Regulations 1973, Amendment No. 3, and is administered by the Department of Trade and Industry under delegated authority from the Minister of Trade and Industry. Within the department a Registrar, Import Licence Tendering, appointed by the Secretary of Trade and Industry is in charge of the specific functions of the scheme.

(b) In general tenders will be called for the import licences for each product category in up to four rounds, not necessarily equal in value, at six-monthly intervals. Each product category will be assigned a separate tender number.

The Department will publish the total value of licences for each product category that is up for tender. Goods covered by each tender number are identified in greater detail by reference to the relevant tariff items in the New Zealand Customs Tariff.

(c) These calls for tenders will be advertised in the Gazette and press.

(d) Any enterprise as defined in section 4 below is eligible to submit a bid in response to a specific call for tender issued by the Department.

(e) It is up to tenderers to pitch their bids at a level which they think will win the value of licence desired.

(f) Details of all bids will be made available for public scrutiny.

(g) Otherwise than as may be provided in this guide, licences granted under the scheme will be subject to the usual procedures, and terms and conditions, laid down pursuant to the Import Control Regulations 1973, and nothing in these guidelines shall limit any provision of those regulations.

(b) The goods imported will be subject to the appropriate rules of duty and sales taxes where applicable.

2. Allocations for Each Tender Number:

(a) Calls for tenders will specify amounts of licence to be allocated for each tender number (made up of whole or part item codes). It is the responsibility of the tenderer to ensure that the goods to be imported against a given tender number are correctly classified in the relevant tariff item.

(b) Allocations for each tender number will be split into licence units expressed in value terms for tendering purposes (e.g. Item Code Ex 82.005, Tariff Item 82.04.011, screwdrivers as may be determined by the Minister). For round tender allocation—$15,000, licence unit size—$1,500 and the number of licence units a tenderer may bid for—one. The size of such licence units will vary for each tender number, but will be as large as possible taking into account such diversifiers as the nature of the goods, the structure of the trade, the value of the allocation for tendering, the diversity of licence holdings, and the need to consider minimum economic orders and shipments.

In these cases (which will be clearly identified), the tenderer can bid for whatever proportion of the total available licence is desired. However, only one bid will be permitted per enterprise.

3. Spare Parts and Service:

Tenderers will be expected to provide an adequate spare parts and servicing back-up where relevant. However, for certain specified tender numbers marked with an asterisk in the calls for tender the tenderer will be required to pre-register and若有 to provide these facilities. A separate form for this purpose is available with tendering forms. This form should be forwarded either by hand or mail in a separate envelope marked “Spare Parts and Servicing Pre-registration”, to the Registrar, Department of Trade and Industry, Private Bag, Wellington, to reach him as early as possible after the prospective tenderer decides to make a bid and no later than the closing date for tenders. No tender for items so marked can be accepted as valid unless the pre-registration form has previously been received by the Registrar.

4. Who can Bid:

(a) Tenders may be submitted by any enterprise domiciled in New Zealand which has actively traded for the past 12 months.
(b) For the purposes of the scheme, enterprise, does not include:

(ii) anyone who in the opinion of the Department of Trade and Industry, does not have the ability to comply with the terms of the licence granted under the scheme.
(c) Tenders may be mailed to the above address or delivered by hand to the Registrar, Import Licence Tendering, Department of Trade and Industry, Private Bag, Wellington, on or before 5 p.m. on the due date.

5. Limitations on own bids:

No one enterprise may submit bids on more than a specified percentage of the number of licences being tendered within each tender number (generally 20 percent).

6. Tendering Format:

(a) Forms are available from Collectors of Customs and the Department of Trade and Industry.
(b) Tenders must apply in their own names.
(c) The tariff item(s) against which imports would be classified must be set out on the tendering form.
(d) A separate application is required for each individual licence unit being tendered for.

7. Deadlines and Procedures:

(a) Tenders must be received by 5 p.m. on the due date by the Registrar, Import Licence Tendering, Department of Trade and Industry, Private Bag, Wellington. There will be no extension of the deadline specified in the call for tender.
(b) Each envelope is to be externally marked by the tenderer with the number of the tender.
(c) Tenders may be mailed to the above address or delivered by hand to the first floor, reception, Bowen State Building, Wellington. In this case the receipt will verify that the tender number is marked on the outside of the envelope, stamp a receipt date on the envelope, and ensure that the tender is placed in the appropriate tender box. Hand deliveries may be made between 8:30 a.m. and 5 p.m., Monday to Friday, except public holidays.
(d) In the event of a tie for the last licence units, the winner will be the first valid bid received. In the event that not all of the licences left over will be added to the entitlement of successful bidders.

8. Advice and Publication:

(a) All tenderers will be officially advised of the outcome of their bids.
(b) The name and location of each tenderer and the amount of bid in each case will be published in the Gazette as soon as possible (N.B.—The specific goods to be brought in will not be published).

9. Payment of the Successful Bid:

The premium bid by successful tenderers will be payable to the Department of Trade and Industry from the date when the relevant notice of results is published in the Gazette. The premium must be paid before the licence can be uplifted from the Customs Department and no later than 6 months after the publication of the notice of results in the Gazette.

10. Return of Licence Usage:

Successful tenderers are required to provide details of usage of their licence(s) including the country of origin and the value of the goods imported, as soon as these goods are cleared through Customs. A form for this purpose will be attached to the official notification sent to successful tenderers. The completed form should be returned to the Registrar, Import Licence Tendering, Department of Trade and Industry.

11. Validity of Licences Obtained by Tender:

(a) Licences issued under the tendering scheme will be valid for 1 year from the date of notice of results. Extensions will be considered only in exceptional circumstances.
(b) Licences will not be transferable to other item codes, inside or outside the tendering scheme.
(c) Licences may not be assigned to third parties without the prior written consent of the Department.
(d) Non-use of licence within the 1-year period will result in the licence being debarred for a period from further participation in the tendering scheme. Normally non-usage of licenses would occur where 25 percent or more of the tendered licence has not been utilised within its validity period.

NOTES FORMING PART OF THESE ACCOUNTS

1. Bases of Accounting—

   These accounts are prepared on an historical cost basis. The following significant accounting principles have been applied:

   (a) Premiums and discounts on dated investments are amortised from the date of purchase to maturity on a straight line basis. Realised profits and losses on sales of investments are taken to profit and loss account in equal instalments over five years commencing with the year in which disposal takes place. As redeemable quoted investments are normally held to or near maturity, no provision is considered necessary for any difference between the book amounts and the market values of such individual stocks quoted below book amounts at the balance date, neither have any transfers been made from reserves or out of the current year’s profits to write them down, apart from the amortisation of premium on stocks bought above par referred to above.

   (b) Provision for taxation includes an appropriate adjustment for deferred taxation.

2. The market value of Government and local authority securities at 30 September 1980 was $81,612,000 (1979 $88,627,000).

3. There is a contingent liability for subsidies on home lay-by of section 42 of the Wool Industry Act 1977, as the A.W.A.S.P. is less than the ruling trigger price of 330 cents per kilogram (greasy basis).

   Dated at Wellington this 23rd day of December 1980.
