(L. and S. H.O. Res. 13/2/58; D.O. 1/74/2)
In the matter of the Broadcasting Act 1976, and in the matter of an application by Otago Radio Association Incorporated to amend its sound radio warrant 4XD to extend the hours of transmission:

B. H. Slane, Chairman, Lionel R. Scetis, Member, Janet C. Somerville, Member.

Hearing at Dunedin 24 August 1981.

DECISION

The present hours of 4XD are 1800-2230 hours on Wednesdays, Thursdays and Saturdays and 0900-1200 and 1800-2230 hours on Sundays.

The association applied to amend its sound radio warrant to permit its hours of transmission to be 1800-2300 hours daily from Mondays to Saturdays inclusive and 0900-2200 hours on Sundays commencing Sunday 4 October 1981 so there would be broadcasting on another three evenings a week. There was no opposition to the application.

The applicant referred to comments made on the renewal of its sound broadcasting warrant on 23 July 1980 (Decision 8/80) when the Tribunal stated “We would like to see you work towards an extension of hours when you have got your technical house in order.”

The Association said it now had its technical house in order though it would require exemption from the technical rules 8.1 (b) and 8.1 (g) relating to a standby power generating plant and an alternative route for programmes from the studios to the transmitters. An emergency programme supply source by using a tape recorder was installed.

The Tribunal is prepared to continue the exemption from the rules in those two respects.

The association said it had had a heartening response to an evening programme of “family music” given on 4 May 1981, pursuant to a short-term broadcasting warrant.

The Tribunal has concluded that the extension of hours is desirable in the public interest, that it will have no economic effect on other stations or on broadcasting services provided by the corporation in the public interest. The programme appears to be developing some community support and arrangements have been made for additional personnel to cover the extended hours being applied for. Action had been taken to reduce dependence on foreign religious programmes and increased local programmes is contemplated.

Among proposed programmes 4XD notice board will be continued and extended and arrangements for university originated programmes were well advanced. Technical compatibility with the university equipment would enable programmes to be recorded by the university and played by the station. A regular soccer programme was scheduled and a lost and found service. The association submitted proposed programme content for all its programmes under the extended hours.

Financial support had been consolidated in the last 5 months and income would be derived from members’ annual subscriptions. The Association at present had 246 financial members, 57 of whom had joined the association within the last 9 months. A considerable increase in membership is contemplated.

The Tribunal has therefore concluded in the public interest that on days other than those on which licensed premises are required to close for the sale of liquor to the general public the hours for the opening and closing of the said premises shall be as follows:

(a) On any Monday and Tuesday—Opening at 9 o’clock in the morning and closing at 8 o’clock in the evening.

(b) On any Wednesday, Thursday, Friday and Saturday—Opening at 11 o’clock in the morning and closing at 10 o’clock in the evening.

Dated at Wellington this 16th day of September 1981.

A. E. HINTON, for Director-General of Education.

Notice of Intention to Vary Hours of Sale of Liquor at Licensed Premises—Wairarapa Licensing Committee

Pursuant to section 221A of the Sale of Liquor Act 1962, as amended by section 22 (14) of the Sale of Liquor Amendment Act 1976, I, John Fraser Robertson, Secretary for Justice, hereby give notice that the Wairarapa Licensing Committee on 18 September 1981 made an order authorising variations of the usual hours of trading for the licensed premises known as the Marquis of Normandy Hotel, Carterton.

The intent that on days other than those on which licensed premises are required to close for the sale of liquor to the public the hours for the opening and closing of the said premises shall be as follows:

(a) On any Monday and Tuesday—Opening at 9 o’clock in the morning and closing at 8 o’clock in the evening.

(b) On any Wednesday, Thursday, Friday and Saturday—Opening at 11 o’clock in the morning and closing at 10 o’clock in the evening.

Dated at Wellington this 1st day of October 1981.

J. F. ROBERTSON, Secretary for Justice.

NOTES TO THE ACCOUNTS YEAR ENDING 31 MARCH 1981

Note 1: Accounting policies—The accounting policies which the Bank considers appropriate for the measurement of its results and financial position under the historical cost convention are as follows:

Recognition of income—Income shown in the profit and loss account is earned in the current year and includes the amortisation of premiums and discounts on the purchase of Government and local authority stock. In the case of personal loans, the policy is to add interest to the advance at the commencement of the loan, and to bring this interest into revenue during the appropriate financial years in accordance with the “Rule of 78”.

Expenditure—Interest credited to depositors—Interest on savings and current accounts represents interest credited at 31 March and the interest paid on closed accounts during the year. Investment accounts which are credited with interest during the year have had an appropriate adjustment made for the interest accrued at 31 March.

Other expenses—Other expenses, including expenditure on computer programme development, are charged to the accounts in the year in which the expenditure is incurred.

Depreciation—Fixed assets, other than freehold land, are depreciated on a straight line basis at rates estimated to write off the cost less residual value over the useful life of each class of asset.

The principal annual rates in use are:

- Buildings: 1 percent to 2.5 percent
- Office Furniture and Equipment: 10 percent to 15 percent

Taxation—Taxation charged against profits for the year is the estimated expense for the year. Tax allocation accounting has been adopted by the Bank for significant timing differences in respect of accrued investment income, depreciation, capital gains and losses and amortisations on Government and local authority stock purchases and sales.

Valuation of assets—Current assets and investments—All current assets and investments are shown at cost with the exception of Government and local authority stock. On the basis that this stock will normally be held to maturity, from the 1 April 1980 it has been valued at cost adjusted by the amortisation of the discount or premium on purchase, calculated on a yield basis, over the term of the stock. The discount or premium is calculated after adjusting for interest and the stock so purchased is shown at the cost of the original holding.

Changes in Accounting Policies—The policy in respect of the valuation of Government and local authority stock and the recognition of income therefrom was changed this year. In prior years the difference between the face value and cost at the date of purchase was transferred to the reserve fund. The effect of this change this year is not significant.
