**Explanatory Notes**

1. Sizes have been listed in order from smallest to largest in their respective series.
2. Bias and radial tyres are shown together under their respective rim diameters.
3. The + shows where a letter indicating the “speed rating” of a tyre may appear in the size marking, e.g. 155+R13 incorporates 155SR13, 155HR13, and 155VR13. Most common speed rating letters are L, S, H, and V; but can include F, M, N, P, Q, R, T, and U (the effect of the symbol + is to disregard speed ratings).
4. The letter “C” can also appear after the rim diameter and should be disregarded, e.g. 185R14C.500-16C.
5. Group markings occur and vary according to country of origin. If a size incorporated in a group marking appears in the list of sizes in TDL 385 the tyre or tube with group marking is deemed to be included in TDL 385, e.g. 575/600/640-15 includes the sizes 575-15, 600-15, and 640-15.
6. Any mud and snow tyres in the sizes listed may be entered at the concessionary rate of duty EXCEPT where indicated by the symbol.*

CROWN COLONY GOVERNMENT IN NEW ZEALAND

$4.50
This book, which deals with a little known and understood period of New Zealand history, comprises three distinct sections, first, the Coming of Sovereignty; secondly, Men and Government; and thirdly, the Evolution of a Constitution. While its book will be of special interest to New Zealanders it will command a wider audience since it contains much that is new with respect to British colonial policy in the first half of the nineteenth century.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT
A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING
141 p. 1975
$2.50
This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention. Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, as for instance, school committee and district level.

ECONOMICS OF THE NEW ZEALAND MAORI
By Raymond Firth
519 p. 1972
$8.75 plus 70c p & p
The Maori people are honourably known far outside the confines of their New Zealand home. Acknowledged to be one of the finest of the native races within the British Commonwealth they have long been celebrated for their splendid physical appearance, their proud bearing, their aristocratic style and their fluent oratory. During the present war this book contains an account of the social and economic organisation of the Maori people before the organisation was transformed by contact with Western civilisation. It is a major scientific contribution to economic anthropology and has now become a standard work.

Also included are lists of books for further reading and recommended films. (State Services Commission.)
