Decision of the Indecent Publications Tribunal

Decision No.: 986

Reference No.: IND 1/81

In the matter of the Indecent Publications Act 1963, and in the matter of an application by the Comptroller of Customs for a decision in respect of the following publication:

Fanny Hill by John Cleland, published by Howard Productions Pty. Ltd.:

BEFORE THE INDECENT PUBLICATIONS TRIBUNAL

Judge W. M. Willis (Chairman);
Mesdames H. B. Dick, L. P. Nikora,
Messrs J. V. B. McInden, I. W. Malcolm.
Decision

A sample copy of Fanny Hill was imported commercially and seized at Auckland in September 1980. As the importer has disputed forfeiture the Customs Department has referred the publication to the Tribunal for classification, prior to the commencement of condemnation proceedings pursuant to the Customs Act 1966.

Fanny Hill is a paperback publication, supposedly based on the original classic by John Cleland. Samples of these writings have been selected from the original book and used in conjunction with a series of photographs which place considerable emphasis on sexual activities, to give an impression that the book is an accurate precis of the original classic. In fact, there appears to be little relationship between the text and the photographs, even though the photographer has dressed his models in period costume. In view of the nature of the publication, there is a distinct lack of honesty of purpose. Accordingly, though the original classic is not indecent, we classify this edition of Fanny Hill as indecent.

Dated at Wellington this 27th day of March 1981.

DISTRICT COURT JUDGE WILLIS, Chairman.

Decision of the Film Censorship Board of Review

A. B. BEATSON, Chairman.

Pursuant to section 62 of the Cinematograph Films Act 1976, Twentieth Century Fox Corporation Ltd. applied for a review of the feature film Tribute which had been approved for exhibition only to persons 16 years of age and over by the Chief Censor of Films. The film, an emotional drama, is concerned with the difficulties and tensions in the relationship between the central character, Scottie Templeton, and his 21-year-old son, Jud, two personalities who superficially, are in constant disharmony, but who by the resolution of the film, achieve some harmony.

The Board found the film thoroughly entertaining and amusing, considering that it contained considerable artistic merit and quality of direction.

It considered that although it was an essentially adult film, it was unnecessary to restrict a younger audience from viewing it, many of whom would find it entertaining and educational.

The film was therefore approved for general exhibition, recommended as more suitable for adults.

Date of Review: 1 May 1981.

A. B. BEATSON, Chairman.

The Standards Act 1965—Draft New Zealand Amendment Available for Comment

Pursuant to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft amendment is being circulated.

Number and Title of Specification

This draft amendment will place on record the declaration of BS 5852: Part 1:1979 as a New Zealand Standard. It will also amend the specification for a smouldering cigarette source and for flame ignition source, to meet New Zealand requirements.

Copies of BS 5852: Part 1:1979, may be ordered from the Sales Section at $23.50 per copy. Amendment A gratis.

All persons who may be affected by this publication and who desire to comment thereon may obtain copies at the price shown from the Standards Association of New Zealand, Wellington Trade Centre, 15-23 Sturdee Street, Wellington 1.

The closing date for receipt of comment is 30 July 1981.

Dated at Wellington this 19th day of May 1981.

DENYS R. M. PINFOLD, Director, Standards Association of New Zealand.

NOTES TO THE ACCOUNTS

1. Statement of Accounting Policies—(a) General Accounting Principles—The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of profit and financial position under the historical cost method have been followed in the preparation of these accounts, except for the revaluation of land and buildings.

(b) Particular Accounting Principles—The following particular accounting principles which materially affect the measurement of profit and financial position have been applied:

(a) Interest Income—Interest is recognised on an accrual basis. Personal loan interest excludes unearned interest, and has been apportioned according to the "Rule of 78" method.

(b) Fixed Assets—All fixed assets are valued at cost less accumulated depreciation with the exception of land which has been revalued in the 1979 year to the latest Government valuations.

For accounting purposes, depreciation is calculated using straight line rates based on the economic life of the asset. The following lives have been estimated:

Buildings—40-50 years.

Office equipment—10 years.

Motor vehicles—3 years to estimated residual value.

(c) Taxation—The charge for income tax is the amount of the tax liability in respect of the accounting profit for the year and includes both current and deferred tax.

Deferred taxation arises from timing differences between accounting and taxation recognition of income and expenditure. These differences relate to depreciation and investment income.

(d) Current Assets—Debtors are valued at expected realizable value. Stock on hand as shown in the balance sheet represents accumulated cost less any allowance made for obsolescence.

(e) Investments—Investments are disclosed at cost except for Government stock, which is at cost adjusted by interest accrued contained in the purchase price, and by the amortisation on a straight-line basis of premiums and exchange rate variations over the term of the investment. In accordance with this policy the amortisation credited to revenue for this financial year amounts to $487,942 (1979, $6082 debit).

(f) Changes in Accounting Policies—There have been no changes in accounting policies that would have a material effect on the determination of profit for the year.

AUDITOR'S REPORT

We have examined the balance sheet of the Eastern and Central Savings Bank at 31 March 1980, and the related revenue account for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet, with notes attached, and revenue account present fairly the financial position of the Eastern and Central Savings Bank at 31 March 1980, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on the basis consistent with that of the preceding year.

NOTES TO THE ACCOUNTS

1. Statement of accounting policies—The general accounting principles recommended by the New Zealand Society of Accountants for financial statements have been applied on a basis consistent with the previous years.

**Depreciation**—Depreciable fixed assets are depreciated on a straight line basis at rates estimated to write-off the cost, less residual value, over the useful life of each class of asset. The principal rates in use are:

**AUDIT REPORT TO THE TRUSTEES**

We have examined the balance sheet of Taranaki Savings Bank as at 31 March 1980, and the related profit and loss account and statement of source and application of funds, together with the notes therefor for the year ended 31 March 1980. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion the accompanying balance sheet, profit and loss account, statement of source and application of funds, together with the notes therefor, present fairly the financial position of Taranaki Savings Bank at 31 March 1980 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

**NOTES TO THE ACCOUNTS**

Statement of accounting principles—The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of results based on historical costs have been adopted in the preparation of the financial statements. The particular accounting principles which the bank considers appropriate for the measurement of profit and financial position are detailed below.

1. **Depreciation**—Calculation has been made on basis of Inland Revenue Department rates. First year depreciation has been claimed where applicable. Straight line basis for calculation of depreciation has not been adopted as it is considered that the difference in the amount of depreciation would not be material. The principal annual rates used are:

<table>
<thead>
<tr>
<th>Duration</th>
<th>Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 year</td>
<td>10%</td>
</tr>
<tr>
<td>2 years</td>
<td>20%</td>

<td>30%</td>
</tr>
<tr>
<td>4 years</td>
<td>40%</td>
</tr>
<tr>
<td>5 years</td>
<td>50%</td>
</tr>
</tbody>
</table>

2 **New Zealand Government stock**—In accordance with established policy New Zealand Government stock has been shown at face value. Prior to 1 April 1975 certain parcels of New Zealand Government stock were purchased at a discount.

3. **Taxation**—Provision for taxation charged against profit and loss account is the estimate of liability relating to the results for the year.

Provision has also been made for taxation on timing differences and a transfer from reserve has been made to cover this actual but future liability.

4. **Investment fluctuation account**—During the year trustees sold certain investment securities and re-invested the proceeds in higher yielding investment securities to provide an ultimate gain. In accordance with past practice adjustments on the sale of investments have been made through investment fluctuation account.

**National Savings Securities**—

New Zealand Government stock purchased at par.

**Statement of Accounting Policies**

The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of profits on an historical basis have been followed. Particular accounting policies used which significantly affect the measurement of the bank's profit and its financial position, are set out below:

(a) Depreciation—Fixed assets are being depreciated on a straight-line basis at rates which will write off the cost over their estimated useful lives to estimated residual values. The principal write-off periods are: Buildings—40-100 years, Computer and office calculating equipment—10 years, Furniture and fittings—10-15 years, Other fixed assets—3-15 years.

(b) Personal Loan Interest—Interest on personal loans is apportioned over the term of the loan, using the "Rule of 78" method.

(c) Taxation—Taxation charged against net profit includes both current and deferred tax. Deferred taxation arises from timing differences related to:

(i) Interest accrued on investments; and

(ii) Depreciation charges

(d) Valuation of Investments—Investments are recorded at cost. Both New Zealand Government and local authority securities are normally held to maturity and their value on redemption approximates cost.

**Auditors’ Report**

We have audited the books and accounts of the Auckland Savings Bank for the year ended 31 March 1980, in accordance with generally accepted auditing standards, and have carried out such procedures as we considered necessary.

In our opinion, the balance sheet, profit and loss account, and appropriation account, together with the notes thereon, are properly drawn up so as to give respectively a true and fair view of the financial position of the Auckland Savings Bank as at 31 March 1980 and the financial result of its transactions for the year ended on that date, in accordance with section 29 (2) of the Trustee Savings Banks Act 1948.
