INVESTMENT ISSUE
By Donald T. Brash, et al.
NEW ZEALAND PLANNING COUNCIL No. 16.
$6.75 plus 70c p & p
Recently, investment has been very low, compared with that prevailing from the mid-1950s to the mid-1970s. If we are to take advantage of the opportunities for development before us, there will have to be a resurgence of fixed investment for the next few years. It is needed in plant, machinery, and equipment for the development of our energy resources.

One of the aims in letter writing is to get ideas across to the reader clearly and briefly. But do letters always say what is meant? Even if they are clear to the writer, will the reader understand them easily? If you are still using the old cliches of "acknowledging receipt of", "according to our records", and "enclosed please find" it is almost certainly time to change your attitude to writing living letters.

MAORI RELIGION AND MYTHOLOGY PART 1
By Elsdon Best

$18 plus $1.25 p & p
An account of the history of the universe and its creation, study of the origin of man, religious beliefs, rites, magic and folklore of the Maori people of New Zealand. First published in 1924, reprinted without textual alterations and retaining the original bulletin numbers. (Government Printer.)

MOA-HUNTER PERIOD OF MAORI CULTURE
ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1
$17.50 plus $1.25 p & p
This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.

A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the graves of the Wairau boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.

Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.
MAORI AGRICULTURE
By Elsdon Best
NATIONAL MUSEUM BULLETIN No. 9
The only comprehensive study of Maori agriculture available, this bulletin adds a further volume to the series of Elsdon Best's works which the Government Printer undertook to reprint preserving the original text and bulletin numbers. I recommend this book and the series as a whole to collectors, archaeologists, and to those studying the prehistoric economy of the Maori people. (Government Printer.)

By studying items pertaining to Maori technology it is hoped this will throw light upon many phases of the social life and customs hitherto unknown. This bulletin is No. 5 in the Dominion Museum Series.

THE MAORI AS HE WAS
By Elsdon Best
295 p. 1974 reprint. $6.50 plus 70c p & p
After five years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

THE MAORI CANOE

The material presented on canoes, their materials, types, methods of construction, and associated artifacts make interesting reading for the layman as well as for scholars of the Maori.
