*New Zealand Gazette, 5 March 1981, No. 23, p. 494 (T. and L.)

Decision

These publications are sample costs imported commercially and seized in Auckland in August 1980. The importer disputed forfeiture so they have been referred for classification. Young Girls in Colour is, in fact, No. 27 issue of Tabu with a different cover page. It seems appropriate that all should be considered the same.

The series have an average size of 8 inches by 10 inches on glossy paper and with coloured photographs. Most are photographs only of the girlie type portraying nude or semi-nude females. In the main the photographs are not blantly offensive, indeed some are attractive. Extensive emphasis on the genitalia is absent in most of the studies. Where there is something, it is in German. The Comptroller made separate submissions in respect of Tabu and Young Girls in Colour, but frankly, the Tribunal can see no reason to differentiate between the publications. While the Comptroller suggested an age restriction for Tabu Young Girls in Colour should be held indecent. For the reasons already stated and because the publications are in reality the same, the Tribunal intends to suggest an age restriction. In doing so, it bears in mind the recent ruling of the High Court in Waverley Publishing Co. Ltd. versus Comptroller of Customs.

All books are therefore held to be indecent in the hands of persons under the age of 18.

District Court Judge W. M. WILLIS, Chairman.

Decision No. 996
Reference No. Ind. 6/81

Decision of the Indecent Publications Tribunal

In the matter of the Indecent Publications Act 1963, and in the matter of an application by the Comptroller of Customs for a decision in respect of the following publications:

BEFORE THE INDECENT PUBLICATIONS TRIBUNAL
Chairman: Judge W. M. Willis.

Hearing: 5 February 1981.
Decision: 10 June 1981.

Appearances: Mr P. E. Leloir for Comptroller of Customs.
No appearance of Importer, Waverley Publishing Co. Ltd.

Decision

All these publications are sample copies imported commercially and seized in Auckland in August 1980. The importer has disputed forfeiture so that the Tribunal has been asked to classify each book. The Comptroller made the general submission which would have application to each of these volumes that they lack literary merit, that they appeal to the prurient and that the public good would not be served by allowing their free circulation. As already stated, no submissions were made by the importer.

Daughters of Pan—This is a paper back published by the Down Under Publishing Co. It is a weird story of witchcraft heavily oriented to sexual episode. Not only does it portray an exceedingly warped mind of the author, but it expresses in detail extreme violence with its sexual and witchcraft episodes. A totally crude and unpleasant book and one which is certainly considered to be injurious to the public good.

Just the Two of Us and The Velvet Trap—While the above-named books are by different authors and from different publishing houses; they are both lesbian orientated so will be dealt with together. Both stories are sordid and while appearing to be given over to lesbianism only, this is only a camouflage. The stories include deviate sex as the normal practice, and multiple rape with violence is graphically described. In several episodes, the books are designed to appeal only to readers with prurient interest and have no honesty of purpose whatsoever. The Tribunal finds both indecent.

The Adventures of Foxy Martin—This is a story set in Australia, and purports to cover escapades in the crime world there. Foxy Martin is a female capable apparently of anything. The book explains in explicit detail many deviate
sexual episodes, and, as may be imagined, having been set in the world of crime, the scenes of violence and retaliation are quite horrific. An unpleasant story, totally devoid of literary merit and certainly injurious to the public good. The Tribunal has no hesitation in classifying this book indecent.

The Acid Eaters—Another paper back book purporting to be the story of a film made some time ago in America. Several crude black and white photographs are sandwiched between the pages of lewd text. The story is only a string of sexual episodes, while the couples are either totally or partially drugged or drunk. The author ventures into fantasy several times, describing the hallucinations some of the characters experienced, while under the throes of drugs. The weekend orgies begin on motor bikes leaving the city at high speed and the females appear semi nude even at that stage. Continuing into the country to swim and indulge in more drug taking with sexual episodes in every other page. An unpleasing book; devoid of any literary merit, and certainly injurious to the public good, appealing only to the prurient. The Tribunal finds this publication indecent.

Sensuous Sirens and Photo Book of Big Buts—These photo books were sample copies, and among other paper back books seized by Customs last year. The former has no author or publisher named and the Tribunal is not surprised that there is no pride in the product. Both books have very little text, but what there is, is sexual and crude. There seems no honesty of purpose with the compilation of these books. The whole purpose has obviously been to arouse the salacious interest of the reader. In the latter publication emphasis is emphatically on the breasts as the title implies. The poses and photographs are crude to say the least with no dignity at all to the female form. Both books have only been published to appeal to the prurient minded of the public and certainly have no artistic merit. The Tribunal classifies these books as indecent.

District Court Judge W. M. WILLIS, Chairman.

These 5 publications were commercially imported by sea cargo and seized in Auckland in June of last year. The importer has disputed forfeiture so that the books have been referred to the Tribunal for classification. There was no appearance of the importer who did, however, write to say that the consignment was directed to send the books to Australia. Each book is a paperback, published by the same firm in New York. At the back of each copy there are advertisements for other titles and a brief synopsis of each book and an accompanying mail order form.

Society Hooker, The Joy of Hooking and Martinis, Manhattan or Me are 3 similar books about prostitutes and their way of life. 3 are of sexual explicit detail. The Tribunal would agree with Mr Leloir in that none of these 3 books have any literary or other merit and all are devoid of any redeeming features which might outweigh their salacious nature. Each book is classified as indecent. The book Where Have All the Little Girls Gone? claims to be a novel exposing the true hell of life in a Mexican brothello. It also claims to be the true story of young girls forced to pass their short lives in total degradation and despair. There are graphic details of systematic rape, terror, sadistic brutality, butchering abortions and murder. Mr Leloir submitted that the book is injurious to the public good. The Tribunal agrees and classifies the book as indecent.

The Wild White Witch is a story set about the turn of the nineteenth century. The purpose of the principal character's journey is to be trained to take over his uncle's estate and so become his heir. The story unfolds through episodes of sex and violence. Sexual episodes are not as explicit as in the 4 previous books, but the episodes of violence are unnecessarily detailed. The book is described as a bizarre novel of sexuality and evil. The Tribunal sees the book as having no literary or other merit and lacking any honesty of purpose. For these reasons it is classified as indecent.

AUDITORS' REPORT

TO THE BOARD OF TRUSTEES

We the undersigned, being the auditors of the South Canterbury Savings Bank appointed in terms of section 29 (3) of the Trustee Savings Banks Act 1948, report that: We have examined the balance sheet and accompanying financial statements and notes to the accounts for the year ended 31 March 1981. Our examination was made in accordance with the general principles of auditing and included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In accordance with an accounting policy of the bank, depreciation on fixed assets has been calculated to reduce each asset to its estimated residual value by the end of its probable useful life. The rates used are those approved by the Commissioner of Inland Revenue. It is considered that the amount charged in the profit and loss account does not differ materially from that which would result from calculating depreciation had the straight line method been adopted.

We have obtained all the information and explanations that we have required and in our opinion proper books of account have been kept by the bank and the accompanying balance sheet together with the profit and loss account and the notes attached thereto give a true and fair view of the financial position of the bank as at 31 March 1981 and the results of its operations for the year then ended.

Timaru, 23 May 1981.

HUBBARD, CHURCHER & CO., Chartered Accountants.

Notes Forming Part of the Annual Accounts for Year Ended 31 March 1981

STATEMENT OF ACCOUNTING POLICIES

The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of profit on an historical cost basis have been followed by the bank with the exception that depreciation is not calculated on the straight line basis.

The following particular accounting policies which materially affect the measurement and reporting of profit and the bank’s financial position have been consistently applied:

1. Revenue Recognition—

(a) Interest received from investments includes interest accrued to 31 March 1981.

(b) Personal loans have been adjusted for interest yet to mature as shown in the balance sheet. The bank’s policy is to add interest to the full advance at the commencement of the loan. This amount is brought into revenue during the appropriate financial years by applying the “rule of 78”.

(c) Interest paid and accrued on depositors’ investment accounts has been calculated at the full rate payable on the assumption that all deposits will reach maturity.

2. Fixed Assets and Depreciation—

(a) The fixed assets, other than the computer equipment, have been depreciated at ordinary depreciation rates as approved by the Inland Revenue Department. Computer equipment has been depreciated at the first year rate of 25 percent of cost price and thereafter at 20 percent of the diminishing value each year. All assets still in use are included in the books and it is calculated that the depreciation rates being used will write off the items over the period of their useful lives. In accordance with the bank’s established policy no additional depreciation as provided for in the rates set by the Inland Revenue Department on the purchase of assets (other than the computer equipment) have been claimed for taxation purposes.

AUDITORS’ REPORT
We report that we have examined the books and accounts of the Otago Savings Bank for the year ended 31 March 1980 and have received all the information and explanations we have required.

In our opinion, the accompanying balance sheet and profit and loss account, together with the notes thereon, present fairly the financial position of the bank at 31 March 1980 and the result of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

HUTCHISON HULL AND CO.,
GILFILLAN MORRIS AND CO.,

Dunedin, 2 May 1980.

NOTES TO THE ACCOUNTS

Accounting policies

The accounting policies which the bank considers appropriate for the measurement of its results and financial position under the historical cost convention are as follows:

(a) Recognition of income—Income shown in the profit and loss account is earned in the current year. In the case of personal loans the policy is to add interest to the advance at the commencement of the loan, and to bring this interest into revenue during the appropriate financial years in accordance with the “Rule of 78.”

(b) Expenditure—Interest credited to depositors—Interest on open accounts at 31 March represents the interest paid for the year. Accounts which are credited with interest during the year have had an appropriate adjustment made for the interest accrued to 31 March.

(2) Other expenses—Other expenses, including expenditure on computer programme development, are charged to the accounts in the year in which the expenditure is incurred.

(3) Depreciation—Fixed assets, other than freehold land, are generally depreciated on a straight line basis at rates estimated to write off the cost less residual value over the useful life of each class of asset. The principal annual rates in use are:

Buildings 1 percent to 2.5 percent
Office furniture and equipment 10 percent to 15 percent.

(4) Taxation—Taxation charged against profits for the year is the estimated expense for the year. Tax allocation accounting has been adopted by the bank for significant timing differences in respect of accrued investment income, depreciation, and capital profits and losses on Government stock purchases and sales.

(c) Valuation of assets—Current assets and investments—All current assets and investments are shown at cost with the exception of New Zealand Government stock.

On the basis that Government stock will normally be held to maturity, the bank considers it appropriate to record such stock at face value. Differences between cost and face value are transferred to the reserve fund at the date of purchase.

Capital expenditure—Capital commitments at balance date totalled $1,055,000.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975.

$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention:

Education is seen as a lifelong activity, and emphasis is therefore placed on the “foundations”— early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, as for instance, school committee and district level.

INVESTMENT ISSUE
By Donald T. Brash, et al.
NEW ZEALAND PLANNING COUNCIL No. 16.
86 p. 1980. $6.75 plus 70c p & p
Recently, investment has been very low, compared with that prevailing from the mid-1950s to the mid-1970s. If we are to take advantage of the opportunities for development before us, there will have to be a resurgence of fixed investment for the next few years. It is needed in plant, machinery, and equipment for the development of our energy resources.
