This draft amendment provides a construction test which represents the effect of lateral acceleration or deceleration of vehicles carrying loaded pallets and the consequent rolling effect of the blocks or bearers of the pallet. It also tests the suitability of the pallet construction to withstand the horizontal loads sometimes applied to a loaded pallet.

This amendment has been prepared to align NZS 3109 with the draft concrete production standards, DZ 3104, DZ 3108, DZ 3110 and will be published concurrently with these standards.

The opportunity has also been taken to make other changes recommended through experience with NZS 3109 and also to avoid conflict with NZS 3101 Concrete design, to be published later this year.

All persons who may be affected by these amendments and who desire to comment thereon may obtain copies from the Standards Association of New Zealand, Wellington Trade Centre, 15-23 Sturdee Street (or Private Bag), Wellington.

Dated at Wellington this 22nd day of January 1982.

LIVING LETTERS
State Services Commission
36 p. 1980 reprint. $1.75 plus 45c p & p
One of the aims in letter writing is to get ideas across to the reader clearly and briefly. But do letters always say what is meant? Even if they are clear to the writer, will the reader understand them easily? If you are still using the old cliches of “acknowledging receipt of”, “according to our records”, and “enclosed please find” it is almost certainly time to change your attitude to writing living letters.

THE PA MAORI
By Elidon Best
NATIONAL MUSEUM BULLETIN No. 6
The bulletin contains a wealth of information and descriptions of many Pa sites and structures. Although great advances in archaeology have modified some of the details listed by Best and some of the Pas included in the book no longer exist, the information contained in this bulletin is still an important contribution in this field and is not readily available elsewhere.

SHADOW OF THE LAND
By Ian Wards
422 p. 1968.
$9 plus 70c p & p
The title for this book was provided by Nopera Panakarero, a Kaitaia chief of much influence, who, in May 1840, believed that only the "shadow of the land" had gone to Queen Victoria whilst the substance remained with the Maoris. Less than a year later he revised this opinion convinced that only the "shadow" would be the Maori portion.

The author examines the British acquisition of New Zealand, the Maoris, trust in the Treaty of Waitangi, and their confidence that its terms would be honoured and explains it was only by accident that the Maoris were guaranteed the possession of their lands and ancient privileges.

It is under these circumstances that the book considers the use of military force in New Zealand, analyses the arguments surrounding the provision of troops and concludes that, beyond any reasonable doubt that there was never an attempt to govern by "moral suasion".

New Zealand followed the normal nineteenth century British pattern of territorial acquisition.
The book is an essential introduction to the Maori wars of a later date.

STYLE BOOK
GOVERNMENT PRINTING OFFICE

The Style Book is a guide which is addressed to all writers, editors, and public servants who prepare manuscripts for publication by the Government Printing Office. Since 1958 the Style Book has found wide acceptance, both inside and outside the Public Service which is reflected in the number of reprints made since that date. This new edition incorporates the latest amendments based on experience gained since first published. Chapters dealing with the preparation of copy, abbreviations, and compound words have been revised; new material has been added to the chapters dealing with common names of animals and plants, errors in the use of English in official writing, and terms used in printing. The introduction of metrication has required a new chapter as well as amendments throughout the book.

BEEKEEPING IN NEW ZEALAND

By T. S. Winter

Ministry of Agriculture and Fisheries Bulletin 267

Though fundamental successful beekeeping is the same the world over, the varying seasonal conditions and the variety of nectar sources in different areas mean that the beekeeper must study local conditions and adjust his methods accordingly. Three factors govern success in beekeeping—locality, management, and the right strain of bees. This excellent book covers all aspects of beekeeping in text, photographs, and illustrations.

Another in the series of the Best publications, it has been reprinted without revision so that the basic studies may be accessible in the original style.

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. The detailed fishing methods outlined are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances, and fishing lore.

FOREST LORE OF THE MAORI

By Elsdon Best

DOMINION MUSEUM BULLETIN No. 14

$17.95 plus $1.25 p & p

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.
