GOVERNMENT ACCOUNTING IN NEW ZEALAND
By David A. Preston
This book will be of particular interest to those whose daily occupations bring them into contact with the Government financial system; notably Government officials, journalists, members of Parliament, accountants in business, and the general commercial community, as well as academics and students. The text has, however, also been written with the general reader in mind.

LIVING LETTERS
STATE SERVICES COMMISSION
One of the aims in letter writing is to get ideas across to the reader clearly and briefly. But do letters always say what is meant? Even if they are clear to the writer, will the reader understand them easily? If you are still using the old cliches of "acknowledging receipt of", "according to our records", and "enclosed please find" it is almost certainly time to change your attitude to writing living letters.

MAORI AGRICULTURE
By Elsdon Best
NATIONAL MUSEUM BULLETIN No. 9
The only comprehensive study of Maori agriculture available, this bulletin adds a further volume to the series of Elsdon Best's works which the Government Printer undertook to reprint preserving the original text and bulletin numbers. I recommend this book and the series as a whole; to collectors, archaeologists, and to those studying the prehistoric economy of the Maori people. (Government Printer.)

MAORI
By Witi Iwimaera
A colourful booklet describing the coming of the Maori to New Zealand, his history, heritage, folklore, beliefs, and cultural unity. Each chapter has a quotation from a Maori proverb, phrase, saying, or canoe chant and these concepts are presented in words and pictures.

Continues with the arrival of the pakeha and the pattern of events which followed, the Treaty of Waitangi and the Land Wars. Moves on to the Maori today, finishing with the theme, one country, two heritages in unity.

Well illustrated with 64 coloured photos, of interest to all New Zealanders and tourists. (Tourist and Publicity Department.)

THE MAORI AS HE WAS
By Elsdon Best
Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

THE PA MAORI
By Elsdon Best
NATIONAL MUSEUM BULLETIN No. 6
The bulletin contains a wealth of information and descriptions of many Pa sites and structures. Although great advances in archaeology have modified some of the details listed by Best and some of the Pas included in the book no longer exist, the information contained in this bulletin is still an important contribution in this field and is not readily available elsewhere.
400 species have been identified, giving a complete coverage of the native trees and shrubs, and over 2000 species are described in the "Tuhoe" dialect. Its subject is contemporary Maori life with particular emphasis on those aspects of the Maori heritage which prevail in it. There, material has been added to the chapters dealing with common names of animals and plants, errors in the use of English in official writing, and terms used in printing. The introduction of metrication has required a new chapter as well as amendments throughout the book.

93 p. Reprint 1958

$5.75 plus 85c p. and p.

This book is a reprinted edition without textual alterations and retaining the old Dominion Museum number. Another example of Elsdon Best's dedicated effort to preserve Maori culture. WEED CONTROL BY CHEMICAL METHODS

By L. J. Mathews

AGRICULTURE AND FISHERIES BULLETIN 329

$35 plus $3.60 p. and p.

Possibly no subject in the whole field of agricultural technology has advanced as rapidly in recent years as that of chemical methods of weed control. This publication summarises and makes specific recommendations based on the experimental work conducted largely by the New Zealand Department of Agriculture. The book is divided into five sections:

Section 1—Principles of weed control and the uses of chemical weed killers.

Section 2—Supplies information on the control of many of New Zealand's worst weeds.

Section 3—Gives recommendations for the control of weeds in crops, pastures, and other specific areas.

Section 4—Describes the chemicals and summarises their uses.

Section 5—Deals with application of herbicides.
