Exchange Rates

In terms of section 25 (2) of the Reserve Bank of New Zealand Act 1964, the Reserve Bank today released lower limits for rates of exchange to be used in transactions involving the conversion of New Zealand currency into foreign currencies and foreign currencies into New Zealand currency when delivery of the foreign currency dealt in will be effected by telegraphic transfer. The following range of rates, for the main currencies used by New Zealand traders in settling foreign exchange transactions, will remain in force until replaced by a new Schedule issued by the Reserve Bank. These rates do not apply to transactions for settlement after the expiration of 2 business days (forward transactions) or to transactions in which instruments are purchased which do not entitle the buyer to foreign currency balances in the foreign currency until the instruments have been delivered at the foreign centre. In the latter case interest at foreign centre rates may be deducted from the telegraphic transfer rate to compensate the purchaser for his loss during the transit period.

LIVING LETTERS

STATE SERVICES COMMISSION

36 p. 1980 reprint. $1.75 plus 55c p & p

One of the aims in letter writing is to get ideas across to the reader clearly and briefly. But do letters always say what is meant? Even if they are clear to the writer, will the reader understand them easily? If you are still using the old cliches of "acknowledging receipt of", "according to our records", and "enclosed please find" it is almost certainly time to change your attitude to writing living letters.

MAORI AGRICULTURE

By Elsdon Best

The only comprehensive study of Maori agriculture available, this bulletin adds a further volume to the series of Elsdon Best's works which the Government Printer undertook to reprint preserving the original text and bulletin numbers. I
recommend this book and the series as a whole; to collectors, archaeologists, and those studying the prehistoric economy of the Maori people. (Government Printer.)

**MAORI**

By Witi Ihimaera

45 p. 1975. $1.20 plus 40c p & p

A colourful booklet describing the coming of the Maori to New Zealand, his history, heritage, folklore, and cultural unity.

Each chapter has a quotation from a Maori proverb, phrase, saying, or canoe chant and these concepts are presented in words and pictures.

Continues with the arrival of the pakeha and the pattern of events which followed the Treaty of Waitangi and the Land Wars. Moves on to the Maori today, finishing with the theme, one country, two heritage in unity.

Well illustrated with 64 coloured photos, of interest to all New Zealanders and tourists. (Tourist and Publicity Department.)

**THE MAORI AS HE WAS**

By Elsdon Best

295 p. 1974 reprint. $6.50 plus 85c p & p

Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the original illustrations could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best’s to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

**THE PA MAORI**

By Elsdon Best

National Museum Bulletin No. 6

The bulletin contains a wealth of information and descriptions of many Pa sites and structures. Although great advances in archaeology have modified some of the details listed by Best and some of the Pas included in the book no longer exist, the information contained in this bulletin is still an important contribution in this field and is not readily available elsewhere.

**MAORI RELIGION AND MYTHOLOGY, PART II**

Dominion Museum Bulletin No. 11

By Elsdon Best

682 p. 1982. $47.50 plus $3.60 p & p

Some 50 years after being written, Part II of Elsdon Best’s “Maori Religion and Mythology” is published for the first time and completes the Best Bulletin series on the Maori which is now available for the first time in one uniform set.

Where Part I of “Maori Religion and Mythology” dealt with the evidence of early writers, Maori cosmogony, Maori gods, offerings, priests and rituals—Part II deals with tapu, magic and myths and folk lore. A thoroughly fascinating subject which fittingly completes this interesting series.

WEED CONTROL BY CHEMICAL METHODS
By L. J. Mathews
Agriculture and Fisheries Bulletin 329
Possibly no subject in the whole field of agricultural technology has advanced as rapidly in recent years as that of chemical methods of weed control. This publication summarises and makes specific recommendations based on the experimental work conducted largely by the New Zealand Department of Agriculture. The book is divided into five sections:

Section 1—Principles of weed control and the uses of chemical weed killers.
Section 2—Supplies information on the control of many of New Zealand's worst weeds.
Section 3—Gives recommendations for the control of weeds in crops, pastures, and other specific areas.
Section 4—Describes the chemicals and summarises their uses.
Section 5—Deals with application of herbicides.

BASKETBALL
Department of Education
This booklet, Basketball, is one of a special series of sport instruction publications. It is designed to provide basic guidance on the game of basketball in all its fundamental aspects.

BEEKEEPING IN NEW ZEALAND
By T. S. Winter
Ministry of Agriculture and Fisheries Bulletin 267
Though fundamental successful beekeeping is the same the world over, the varying seasonal conditions and the variety of nectar sources in different areas mean that the beekeeper must study local conditions and adjust his methods accordingly. Three factors govern success in beekeeping—locality, management, and the right strain of bees. This excellent book covers all aspects of beekeeping in text, photographs, and illustrations.

COMMUNITY SERVICE AND YOUTH
Department of Internal Affairs
This is a report of a working party set up by the Government in response to a proposal from the New Zealand Returned Services Association which sought the introduction of a compulsory national youth community service scheme, both within the schools and for a set period after leaving school.

FISHING METHODS AND DEVICES OF THE MAORI
By Elsdon Best
National Museum Bulletin No. 12
264 p.
Another in the series of the Best publications, it has been reprinted without revision so that the basic studies may be accessible in the original style.

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. The detailed fishing methods outlined are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances, and fishing lore.

FLORA OF NEW ZEALAND VOLUME III
By A. J. Healy and E. Edgar
$18.50 plus $1.50 p. & p.
Volumes I and II of Flora of New Zealand were concerned with native plants. The authors call volume III "weed flora". The book is an identification manual, intended for agriculturists concerned with weed control, for botanists making vegetation surveys, and for anyone who needs to identify those weedy plants.
