#### AUDITORS' REPORT

We report that we have examined the balance sheet of the Bay of Plenty Savings Bank as at 31 March 1982, and the profit and loss account for the year ended on that date, and have received all the information and explanations we have required.

In our opinion, the accompanying balance sheet and profit statement present fairly the financial position of the Bank as at 31 March 1982 and the results of the operations for the year ended on that date, and were in general conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We have also examined the statement of changes in financial position which, in our opinion, gives a true and fair view of the changes in financial position of the Bank for the year ended 31 March 1982.

## BEEKEEPING IN NEW ZEALAND

By T. S. Winter

Ministry of Agriculture and Fisheries Bulletin 267

155 p. 1980 reprint. \$8.95 plus 85c p & p

Though fundamental successful beekeeping is the same the world over, the varying seasonal conditions and the variety of nectar sources in different areas mean that the beekeeper must study local conditions and adjust his methods accordingly. Three factors govern success in beekeeping—locality, management, and the right strain of bees. This excellent book covers all aspects of beekeeping in text, photographs, and illustrations.

## COMMUNITY SERVICE AND YOUTH

DEPARTMENT OF INTERNAL AFFAIRS

60 p. & appendices, 1982. \$9.50 plus 85c p. & p.

This is a report of a working party set up by the Government in response to a proposal from the New Zealand Returned Services Association which sought the introduction of a compulsory national youth community service scheme, both within the schools and for a set period after leaving school.

## FISHING METHODS AND DEVICES OF THE MAORI

By Elsdon Best

National Museum Bulletin No. 12

264 p. \$15.95 plus \$1.50 p & p

Another in the series of the Best publications, it has been reprinted without revision so that the basic studies may be accessible in the original style.

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. The detailed fishing methods outlined are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances, and fishing lore.
