(2) The Minister's letter reads:

"I refer to the Industries Development Commission's report No. 9 on the Textile Industry Development Plan 1976–1986 of August 1979, in which it was recommended that the government direct the Commission to make further enquiry and to report by 30 June 1981 on the progress made over the initial two years of the development plan, and in the light of this recommend adjustments (if any) to the levels of assistance and protection then in force" (Recommendation 16.29).

As you are aware, the government accepted this recommendation, but decided that due to the delays in implementing the plan, the 1981 review timing would be premature. It was therefore decided that the date for the completion of the review should be 30 June 1982, with provision for an earlier review if required.

Since then my predecessor, Right Hon. L. R. Adams-Schneider, has had representations from the New Zealand Textile and Garment Manufacturers' Federation on this matter. The Federation felt that due to a combination of circumstances the revised review date of June 1982 would still be too early. A copy of a letter setting out the Federation's view is attached for your information.

The Federation's representations were considered by the Textile Industry Overview Committee prior to reference to the government. The Overview Committee considered that the points made in support of a later review were generally valid, in particular that the apparel tendering scheme had not so far been able to provide adequate information on the competitiveness of local manufacturers with imports, and also that the changes which the plan aimed to bring about in the textile industry, although under way, were far from completed.

The Overview Committee's assessment has now been considered by the government and it has been decided that a delay in the timing of the review is justified. The government took the view that in the context of general economic policy the review should not be left too late and authorised me to request you to report if possible by 31 December 1982, but not later than 31 March 1983.

3. The notice dated the 27th day of April 1951† which relates to the classification of the roads described in the Schedule hereto is hereby revoked.
There are two major factors which have arisen subsequent to the original textile inquiry carried out by the Commission which I consider relevant to the review. The first is the question of a closer economic relations arrangement with Australia, the effects of which on the textile industry should be taken into account in the review. The other consideration is the status of apparel in SPARTECA, where it is currently included in the negative list and as such subject to import licensing although free of duty. In considering the place of apparel in the Textile Industry Development Plan, I would like the Commission to consider whether or not apparel should remain on the negative list.

I therefore request that the Industries Development Commission:

1. In terms of the government's acceptance of recommendation 16.29, commence the review of the Textile Industry Development Plan after 1 July 1982, and report to the government with recommendations, if possible, by 31 December 1982, but not later than 31 March 1983.

2. In doing so enquire into and report on:
   (a) the treatment which should be accorded the products under reference within the context of a CER with Australia;
   (b) the status of apparel under SPARTECA.

This review should include all products covered by the Commission's report No. 9—General Principles and Parts A to K inclusive."

(3) The Commission's report No. 9 comprised the following parts:

Part A—Wool Scouring, Wool Yarns
Part B—New Wool Yarns
Part C—Fabrics, Knitted and Woven
Part D—Carpets
Part E—Apparel
Part F—Dyeing and Printing
   —Narrow Fabrics
   —Elastics and Labels
Part G—Fabrics, Bonded and Non-Woven
Part H—Miscellaneous (Ties and Neckwear, Handkerchiefs, Bed, Table, etc., Linen, Embroidery)
Part I—Customs Tariff, Section XI, Policies and Procedures, Addenda and Errata
Part J—Twine and Cordage
Part K—Bags and Sacks

(4) The Commission invites parties who have an interest in any of the products or matters covered by this inquiry to register that interest in writing with the Commission not later than 7 May 1982. Parties to the original textile inquiry will be advised of these procedures and advised the timetable and procedures it intends to follow in undertaking this review.

(5) Registrations should include the following:
   (a) Name and address of party registering interest;
   (b) The goods to which the interest relates;
   (c) Status of interest under one or more of the following classes:
      New Zealand manufacturers of goods under reference;
      Importers;
      Distributors;
      Trade Unions;
      Trade Organisations;
      Other (specify).

(6) The Commission will, as soon as possible, distribute detailed guidelines as to the preparation of the timetable and procedures it intends to follow in undertaking this review.

(7) These procedures will involve the preparation and public distribution of a draft report based on the submissions received in response to the guiding questions. This draft report will then be the subject of a public hearing (probably in November 1982) following which the Commission will prepare its final report.

(8) Attention is also drawn to Industries Development Commission Notice No. 111/82 which contains guidelines given by the Minister of Trade and Industry for the deferral of products from any Closer Economic Relationship with Australia.

FOREST LORE OF THE MAORI
By Elsdon Best
DOMINION MUSEUM BULLETIN No. 14
$17.95 plus $1.25 p & p

Printed without textual alteration, the work provides an important basis for any study of Maori natural economy and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old Maori showed towards natural resources mirrors the modern concern for ecological principles.

LIVING LETTERS
STATE SERVICES COMMISSION
36 p. 1980 reprint. $1.75 plus 45c p & p
One of the aims in letter writing is to get ideas across to the reader clearly and briefly. But do letters always say what is meant? Even if they are clear to the writer, will the reader understand them fully? If you are still using the old cliché of “acknowledging receipt of”, “according to our records”, and “enclosed please find” it is almost certainly time to change your attitude to writing living letters.

THE MAORI AS HE WAS
By Elsdon Best
295 p. 1974 reprint. $6.50 plus 70c p & p
Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

MOA-HUNTER PERIOD OF MAORI CULTURE
ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1
This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.
A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Waitaiu boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition. Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.

NATIONAL PARKS OF NEW ZEALAND
The revision of this popular publication has included numerous new colour plates and additional information on some of our parks. Because of the popularity of this book it is expected this edition will be in great demand. In addition to the book being an ideal souvenir for the overseas visitor it makes an ideal gift and also a valuable asset to anyone's home library.
