EXPLANATORY NOTE

This note is not part of this notice, but is intended to indicate its general effect.

The effect of this notice is to allow the continued use of LPG fuel cylinders which are known to have been imported into New Zealand prior to the introduction of the Dangerous Goods (Class 2-Gases) Regulations 1980 and which were acceptable under the previous dangerous goods requirements but whose working pressure rating would disqualify them for approval for general use under the Traffic Regulations 1976. They are approved subject to the additional proviso that they must not be exposed to direct sunlight (to reduce the possibility that solar radiation would raise the temperature of the contents of cylinder such that the developed pressure of the contents exceeded their working pressure rating.)

The terms of this approval does not allow the continued importation of such LPG fuel cylinders.
LPG Fuel System Approvals

Pursuant to regulation 90n of the Traffic Regulations 1976* (as inserted by the Traffic Regulations 1976 Amendment No.7) and pursuant to the powers delegated to me by the Secretary for Transport, I, Trevor Alan Lister, Senior Automotive Engineer, hereby approve the components listed in the Schedule hereeto for inclusion in any LPG automotive fuel system installed and operated in accordance with the requirements of New Zealand Standard NZS 5422 Part 1, 1980 (and any standard made in amendment thereto or in substitution therefor) subject to the conditions (if any) set out in respect of any component in the said Schedule.

management, and the right strain of bees. This excellent book
covers all aspects of beekeeping in text, photographs, and

MOA-HUNTER PERIOD OF MAORI CULTURE
ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1
$17.50 plus $1.50 p & p
This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.
A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Waikato river bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.
Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.

FOREST LORE OF THE MAORI
By Elsdon Best
DOMINION MUSEUM BULLETIN No. 14
$17.95 plus $1.50 p & p
Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnozoology and ethnobotany. The reverence which the old-time Maori showed towards natural resources mirrors the modern concern for ecological principles.
