

abbreviations, and compound words have been revised; new material has been added to the chapters dealing with common names of animals and plants, errors in the use of English in official writing, and terms used in printing. The introduction of metrication has required a new chapter as well as amendments throughout the book.

TE REO RANGATIRA

By S. T. Karety

197 p. illustrated 1974. \$4.50 plus 55c p & p
A textbook for students of the Maori language written in the "Tuhoe" dialect. Its subject is contemporary Maori life with those aspects of the Maori heritage which prevail in it. This book is intended for advanced fifth formers and the sixth and seventh forms.

TREES AND SHRUBS OF NEW ZEALAND

By A. L. Poole and Nancy M. Adams

257 p. 1979 fourth impression with amendments. \$15.95 plus \$1.50 p. and p.
This book has been designed especially to assist many people who lack a formal botanical training yet are deeply interested in New Zealand's trees and shrubs and want to be able to identify them and name them correctly. There is a complete coverage of the native trees and shrubs and over 400 species have been illustrated.

VIRUS AND VIRUS-LIFE DISEASES OF POME FRUITS AND STONE FRUITS IN NEW ZEALAND

DSIR BULLETIN No. 226

By C. A. Wood

87 p. 1979. \$13.50 plus \$1.50 p. and p.
Illustrated descriptions are given of the 11 apple, 5 pear, 5 peach, 4 plum, 3 apricot, and 6 cherry diseases which have been found up to the present time.

WEED CONTROL BY CHEMICAL METHODS

By L. J. Mathews

AGRICULTURE AND FISHERIES BULLETIN 329

710 p. Hard cover, 1975. \$35 plus \$3.60 p & p
Possibly no subject in the whole field of agricultural technology has advanced as rapidly in recent years as that of chemical methods of weed control. This publication summarises and makes specific recommendations based on the experimental work conducted largely by the New Zealand Department of Agriculture. The book is divided into five sections:

- Section 1—Principles of weed control and the uses of chemical weed killers.
- Section 2—Supplies information on the control of many of New Zealand's worst weeds.
- Section 3—Gives recommendations for the control of weeds in crops, pastures, and other specific areas.
- Section 4—Describes the chemicals and summarises their uses.
- Section 5—Deals with application of herbicides.

THE WHARE KOHANGA AND ITS LORE

By Elsdon Best

NATIONAL MUSEUM BULLETIN No. 13

93 p. Reprint 1975. \$5.75 plus 85c p & p
In this study of Whare Kohanga (the "Nest House") is contained data of baptism rites performed over infants of superior families only, together with other cultural ceremonies applied to infants of high birth. The information obtained was contributed by members of the Ngati-Kahungunu tribe of the North Island. The text has been retained in its original style in the belief that these basic studies should still be readily available without textual alteration.

FOREST LORE OF THE MAORI

By Elsdon Best

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977. \$17.95 plus \$1.50 p & p
Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.

NATIONAL PARKS OF NEW ZEALAND

178 p. Revised third edition. 1974. \$10.50 plus \$1.50 p & p
The revision of this popular publication has included numerous new colour plates and additional information on some of our parks. Because of the popularity of this book it is expected this edition will be in great demand. In addition to the book being an ideal souvenir for the overseas visitor it makes an ideal gift and also a valuable asset to anyone's home library.

GLASSHOUSE TOMATOES—Agriculture Bulletin 3370

DEPARTMENT OF AGRICULTURE

86 p. 1978. \$3.25 plus 55c p & p
The present text replaces earlier editions of the bulletin. Important factors to consider when establishing a tomato-growing glasshouse, are lighting, soil type, site, water supply, shelter, and proximity to a market. These as well as general cultural practices are dealt with in this bulletin.
