*The Standards Act 1965—Draft New Zealand Standard  
Specification Available for Comment*

PURSUANT to sub-section (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft New Zealand standard specification is being circulated.

Number and Title of Specification

DZ 6603 Draft code of practice for multiple outlet distribution systems for sound and television signals. \$5.

This draft code of practice sets out proposed recommendations for good reception and reticulation of sound and television signals in buildings on a single site. It is particularly applicable to installations in new buildings although many of its recommendations are applicable to installations in existing buildings.

The recommendations cover provision of antenna systems, and coaxial cable distribution systems, necessary structural accommodation for equipment and wiring, and protective measures against danger from electric shock, fire and other hazards. It is implicit in all reference to television signals that FM sound is included.

The draft code is a revision of NZSR 3:1966.
