Decision No. 11/83

BRO. 62/82

In the matter of the Broadcasting Act 1976, and in the matter of an application by the BROADCASTING CORPORATION OF NEW ZEALAND to amend sound radio Warrant AM-55/3ZC:

B. H. Slane, Chairman.

Lionel R. Sceats, Member.

Ann E. Wilson, Member.

ORAL DECISION

The 2nd day of August 1983

The applicant has asked that the terms of the warrant be amended to change the location of the station from Washdyke (Timaru) to Claremont (Timaru) and to increase the power of the station from 2 kW to 5 kW.

Evidence from Mr W. J. W. Allan, Divisional Engineer of radio transmission, was that the present transmitting station established in 1949 at Washdyke was situated approximately 200 m from the sea coast. Erosion by the sea occurring along the coast has overwhelmed the stopbank and drainage canal constructed in 1942. The South Canterbury Catchment Board was unable to maintain the stopbank and canal system or to finance its replacement. The installation was therefore under threat of sea flooding from storms and eventually from erosion. He believed the establishment of an alternative site was necessary.

When the station was originally established, it was designed to provide some coverage to the greater part of the South Canterbury area which was facilitated by the coastal siting. With the establishment of new commercial stations at Ashburton and Oamaru, there was less need to serve the coastal areas to the north and the south. The new site, further inland, would provide an improved adequate primary coverage over Timaru city. In particular, reception evidence from Mr W. J. W. Allan, Divisional Engineer of radio transmission, was that the present transmitting station established in 1949 at Washdyke was situated approximately 200 m from the sea coast. Erosion by the sea occurring along the coast has overwhelmed the stopbank and drainage canal constructed in 1942. The South Canterbury Catchment Board was unable to maintain the stopbank and canal system or to finance its replacement. The installation was therefore under threat of sea flooding from storms and eventually from erosion. He believed the establishment of an alternative site was necessary.

When the station was originally established, it was designed to provide some coverage to the greater part of the South Canterbury area which was facilitated by the coastal siting. With the establishment of new commercial stations at Ashburton and Oamaru, there was less need to serve the coastal areas to the north and the south. The new site, further inland, would provide an improved adequate primary coverage over Timaru city. In particular, reception would be improved in Waimate, Geraldine, and Fairlie while maintaining the existing coverage of Temuka.

The maximum permitted power for the channel is 5 kW and the Corporation wished to take advantage of the coverage potential of the new site by increasing the power from 2 kW to the maximum. The effect would be to maintain signal strengths in Timaru and...
Temuka at existing levels and to provide adequate primary coverage for Waimate, Geraldine, and Fairlie.

Provision is to be made at the site for a co-sited national programme repeater station at a later date.

There have been no objections to the application. The Post Office was prepared to certify the change and the Ministry of Transport has no objection to the erection of a radio aerial mast on the new site.

The Tribunal is satisfied that it is desirable that the amendment be made to the warrant to permit the changes applied for and the application is therefore granted accordingly.

Signed for the Tribunal

B. H. SLANE, Chairman.

**Australia - New Zealand Closer Economic Relation—Trade Agreement (ANZCERT)**

The supplement to the *New Zealand Gazette* of Thursday, 1 i August 1983 detailed the procedures for allocating the unused balance of unallocated Tendered Exclusive Australian Licences (TEALS). The following points should be noted in reference to the *Gazette* notice of 11 August.

1. In addition to the unallocated tender units as advertised in the *New Zealand Gazette* of 15 July the following licence is also available:

<table>
<thead>
<tr>
<th>Tender Number</th>
<th>Item Code</th>
<th>Goods—Brief Description</th>
<th>No. of Units</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>718</td>

<tr>

</tr>
<tr>
<td>819</td>
<td>62.010</td>
<td>Sacks and bags of polyethylene or polypropylene fabric</td>
<td>40 ×</td>
<td>5,000</td>
</tr>
</tbody>
</table>

2. Bids which are described as "invalid" in the *New Zealand Gazette* of 15 July 1983 should also be included in the total number of unallocated units.

3. Another point of clarification is that where valid applications exceed the total amount available per item code, the licence available will be allocated in three tiers, i.e.:
   (a) First preference to those firms who bid for TEALS in the item code concerned;
   (b) Second preference to manufacturers who sought MEALS in the item code;
   (c) Third preference to new applicants.

4. No premium is payable for unallocated TEALS.
