

- (d) The contribution that the study would make to a better understanding of marine processes or the scientific discipline appropriate to the study.
- (2) The Committee shall consider each application for scientific study and advise the applicant whether or not the application is approved.
- (3) Any approval given by the Committee under this bylaw may be subject to any conditions the Committee thinks fit to impose in the particular case having regard to the functions, powers, and obligations of the Committee, and shall be in writing signed by the Secretary and the Chairman.

12. Reports to Committee—(1) It shall be a condition of every approval given under bylaw 11 of the bylaws that the applicant furnish progress reports on the study to the Secretary at such intervals as are specified by the Committee.

(2) The applicant shall furnish a final report or a copy of any published paper on the study to the Secretary.

13. Protection for areas under scientific study—(1) The Committee may close to public access any area within the reserve for the purposes of scientific study if it considers that closure is desirable because of the nature of the study.

(2) Where an area is closed under subclause (1) of this bylaw, the committee shall issue a permit for the study to the person responsible for the study, and shall direct him to advise the public by notice in whatever manner the committee considers reasonable and practicable in the circumstances, including notification in a newspaper circulating in the vicinity of the reserve, that access to the area where the study is taking place is not permitted.

- (3) Any such advice or notice shall specify—
- The location of the area involved;
 - The reason that access is not permitted to the public;
 - The dates between which access is not permitted to the public.
- (4) Where a permit issued under this bylaw expires or is surrendered the person to whom the permit was issued shall remove or withdraw any notice given by him under subclause (2) of this bylaw.
- (5) The Committee may cancel any permit issued under this bylaw at any time, and may require the person to whom a permit was issued to remove or withdraw any notice given by him under subclause (2) of this bylaw.
- (6) Any area of the reserve closed to the public in accordance with this bylaw shall be four-sided and marked at each corner by a bright yellow moored buoy not less than 1 metre in diameter.

14. Participants in scientific study to carry identification—(1) Every person participating in a scientific study approved by the committee shall carry with them while engaged on the study in the reserve such form of identification as shall be specified by the Committee.

(2) On the completion of any scientific study or on being notified of any withdrawal of approval under bylaw 15 of these bylaws, any form of identification issued by the Committee shall be returned to the Secretary by the person responsible for the study.

15. Withdrawal of approval for scientific study—(1) The committee may withdraw any approval given under this bylaw at any time if it is satisfied in any particular case that any person partici-

pating in the study has committed an offence under the Act, or a breach of these bylaws, or has not complied fully with any conditions of the approval to undertake the study.

(2) Where the Committee has withdrawn its approval for any particular study under subclause (1) of this bylaw, the Committee may refuse, for a period specified by the Committee, to consider any further applications for approval for scientific study within the reserve by or involving any person who was involved in the reserve in the study for which approval was withdrawn.

16. Register for scientific study—(1) The Committee shall cause to be kept a register in which shall be entered particulars of scientific studies undertaken in the reserve.

- (2) The register shall include details of—
- The title and a brief description of the study and its objectives;
 - When the study was commenced and completed;
 - The name of the person or persons responsible for the study.
- (3) The register shall be available for public inspection in the office of the Ministry of Agriculture and Fisheries at Whangarei during ordinary office hours on the days when the office is open for business.

Dated at Whangarei this 7th day of March 1983.

S. J. UREN, Chairman.
R. ILLINGWOTH, Member.

EXPLANATORY NOTE

This note is not part of the bylaws, but is intended to indicate their general effect.

These bylaws, which come into force on 1 April 1983, regulate the conduct of persons within the Cape Rodney - Okakari Point Marine Reserve, and the conduct of scientific study in the reserve.

Any person who wishes to undertake scientific study in the reserve must make a written application to the Secretary at least 2 months before the intended date of commencement of the study, and obtain the approval of the Committee to the conduct of the study.

Except for areas of the reserve that are closed for scientific study, the public has unrestricted access to and the right to dive in the reserve.

Vessels may be anchored in the reserve so long as damage is kept to the minimum practicable level, but no vessel may be anchored within a closed area or within 100 metres of a buoy marking a closed area.

There is a speed restriction of 5 knots imposed on all vessels operating within 200 metres of the shore, and a requirement that a watch be kept from all vessels for divers using the reserve.

Areas closed for scientific study must be clearly marked by yellow buoys.

These bylaws were approved by the Minister of Fisheries on the 14th day of March 1983.
