The Waiaua Irrigation District Order 1983

DAVID BEATTIE, Governor-General

ORDER IN COUNCIL

At the Government Buildings at Wellington this 24th day of January 1984

Present:

THE RT. HON. SIR ROBERT MULDOON PRESIDING IN COUNCIL

PURSUANT to section 208 of the Public Works Act 1981, His Excellency the Governor-General, acting by and with the consent of the Executive Council, hereby constitute as an irrigation district to be known as the Waiaua Irrigation District (called the District) the land described in the First Schedule hereto and specify the following:

1. The headworks will be the intake adjacent to the Waiaua River, the main pumping unit, the rising main conveying water to the reservoir and the reservoir. The off farm distribution works are the system of pipes laid from the reservoir to property boundaries, including turnouts. The on farm irrigation developments are the fixed works necessary to distribute water from the property boundary as defined in individual farm plans to be prepared for each property.
2. The annual basic charge payable in respect of irrigable land within the District shall be \$164 per hectare.
3. The annual water availability charge payable in respect of water supplied shall be \$137 per unit of 1000 m³.
4. The annual basic and water availability charges shall be reduced for the first 3 seasons of supply as set out in the Second Schedule hereto. These reductions are recovered in the full charges payable from the end of the 4th year of supply.
5. The number of seasons of supply over which charges will be payable will be 40 years commencing from the time water first becomes available to the scheme.
6. The charges are based on the estimated costs of the scheme and the demand for water and shall be subject to adjustment from:
 - (i) the time of commencement of the supply of water.
 - (ii) the end of the season in which the charges reach the full amount and each year thereafter to conform to the actual and re-estimated costs and demand for water.
7. The object of the scheme is to provide water from the Waiaua River to the District for the trickle irrigation of sub-tropical fruit.
8. The scheme will be capable of meeting a water demand to all properties in the District of 125.6 irrigable hectares, up to 0.50 litres per second per hectare at a head of not less than 10 metres.
9. The water supply is subject to a water right granted by the East Cape Regional Water Board.
10. Water will be supplied under a water availability agreement which:
 - (i) Will entitle the occupier to use up to 3.60 mm of water over the irrigable area per 24 hour day and a maximum seasonal usage of 3000 m³ per hectare under conditions which protect the scheme revenue and the rights of other irrigators, and with the approval of the National Water and Soil Conservation Authority in accordance with section 216 of the Public Works Act 1981;
 - (ii) Will state that in a drought supply may be reduced, and that water charges may be reduced by the Minister of Works and Development for that season as provided for in section 218 of the Public Works Act 1981.
11. The season of supply shall be the period between 1 September and 30 April. Scheme charges incurred over the preceding 12 months will be invoiced as at 30 April of each year and due for payment without penalty within 28 days of date of invoice.

12. The minimum aggregate area of land occupied by any occupier that it is proposed to include in the proposed irrigation scheme shall be four (4) hectares.
13. Individual farm development plans must be approved and the installation checked by the Ministry of Works and Development before a connection can be made to the scheme supply.
