Decision No. 18/84
Bro. 69 and 70/84

Before the Broadcasting Tribunal

In the matter of the Broadcasting Act 1976 and in the matter of an application by the Broadcasting Corporation of New Zealand for short term broadcasting authorisations in Hawkes Bay:
Chairman: B. H. Slane.

Reasons for Decision

The BCNZ decided to establish an FM transmitter at Mount Erin at the same time as the installation was taking place of the Radio Hawkes Bay transmitter. The Corporation had lodged an application for amendment to 2YC AM warrant to permit the relay on stereo FM of Concert Programme transmission and for certain other amendments. The Tribunal considered it appropriate to permit that transmission to commence pending the decision of the Tribunal on the permanent YC related applications.

The Tribunal considered it appropriate to permit this application partly because it would assist in establishing the extent to which those who had been receiving the AM programme from the medium frequency station 2ZK would be satisfied with a stereo FM service only. It would also bring a new service to the area which had long been sought and in respect of which there was no known opportunities.

The reserved decision on the YC application was not completed as soon as expected and so extensions of time were given to enable the position to continue until that decision has been given. The decision was given in July and the station for the FM broadcasts was approved and the warrant could be amended. The only matter outstanding was the extension of hours which were approved in principle but further information had to be supplied by the BCNZ. It appears appropriate therefore that the station continue on a short term basis until the extension of hours can be approved by the Tribunal and incorporated in a warrant.

2ZK had rebroadcast the Concert Programme in the evenings and on Sundays and this service was not needed with the establishment of the FM Stereo Service from Mount Erin. The Corporation intimated that it had plans to apply for that station to extend its commercial hours which at present cease at 5 p.m. on weekdays.
Radio New Zealand applied for an authorisation to permit advertising during the Monday to Saturday hours on which the Concert Programme had previously been broadcast.

As far as the 2ZK application is concerned, the Tribunal was in effect permitting advertising. If the Tribunal had refused the application the station would not have re-broadcast the non-commercial programming of the BCNZ. In fact, for programme purposes, it is clear the station would have continued to broadcast a popular music programme without commercials. We do not see that that situation in the short term was of any advantage to other stations.

The Tribunal did not consider it appropriate at that stage to consider the application for a series of authorisations to supersede the existing authorisations and considered it more appropriate to extend the existing authorisation because that was in effect what was needed to preserve the existing situation pending the decision on the YC applications.

The correct course to be followed was for the Corporation to await the YC decision and then to have applied for an amendment to the warrant 2ZK.

Dated the 24th day of August 1984.

Signed for the Tribunal:

B. H. SLANE, Chairman.

ROYAL CANADIAN AIR FORCE
The five basic exercises (5BX) Plan is designed to show how to develop and hold a high level of physical fitness. The scheme is not dependent on elaborate facilities or equipment. The exercises require only eleven minutes a day and can be done in the house or office. The Plan is scientifically designed to develop personal fitness at a rate set by youself, to your required level, without getting stiff or sore muscles. It is self measuring with charts for age groupings, along with graduated standards for checking progress. The programmes are designed for varying age groups of males.
