Approving the Amendment of the Bylaws of the Australasian Institute of Mining and Metallurgy

DAVID BEATTIE, Governor-General

ORDER IN COUNCIL
At the Government House at Wellington this 17th day of September 1984

Present:
HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL

WHEREAS by Letters Patent of Her Majesty The Queen, dated the 16th day of September 1955, the Australasian Institute of Mining and Metallurgy (hereinafter called the Institute) was, by Charter passed under the Great Seal, established, created, and incorporated into a body corporate and public: And whereas by clause 15 of the said Charter it is provided that the majority of the corporate members present in person or by proxy and voting at a general meeting of the Institute specially called for the purpose of which due notice has been given shall have power from time to time to make such bylaws as shall seem requisite and convenient for the regulation, government, and advantage of the Institute its members and property and for the furtherance of its objects and purposes, and from time to time to revoke, alter, or amend any bylaw or bylaws previously made but so that the same be not repugnant to the Charter or to the laws and Statutes of Australia and the Dominion of New Zealand or any State or Territory thereof: And whereas it is further provided by clause 15 of the said Charter that no such bylaws, revocation, alteration, or amendment shall take effect until approved by the Governors-General-in-Council of Australia and the Dominion of New Zealand: And whereas certain bylaws were made in accordance with the provisions of the said Charter on the 30th day of November 1956 and were approved, as required by the Charter, on the 25th day of September 1957: And whereas the said bylaws subsequently have been amended from time to time in accordance with the provisions of the said Charter and the amendments approved, as required by the Charter: And whereas the said bylaws as so amended were further amended in accordance with the provisions of the said Charter by resolution of a general meeting of the Institute specially called for the purpose of which due notice had been given and held on the 28th day of July 1983.

Now therefore, His Excellency the Governor-General of New Zealand, acting by and with the advice and consent of the Executive Council, hereby approves the said further amendments of the bylaws of the Institute set out in the Schedule hereto.

Industries Development Commission Notice 1984/2—Review of Commercial Shipbuilding and Repair Industry Development Plan

1. In a letter of 18 September 1984, the Minister of Trade and Industry requested the Commission to undertake the above review.

2. The Minister’s letter sets out the following terms of reference:

"1. To inquire and report on the present situation of the industry previously investigated by the Industries Development Commission in its Report No. 13 (The Commercial Shipbuilding and Repair Industry Development Plan, October 1980), particularly in the light of:

(a) Assistance and development measures adopted by the Government as a result of that previous report; and

(b) Recent policy developments in both the inshore and deepwater fisheries.

2. To comment on the appropriateness and effectiveness of the major measures recommended in that previous report (i.e. the revised tariff protective structure; the three bounty schemes; the Duty Free Fishing Vessel Importation Scheme; and the Shipbuilding Industry Overview and Co-ordinating Committees) and to recommend any refinement or changes or new assistance measures considered desirable."

3. To have regard in this report to the views of both the shipbuilding and fishing industries.

4. To submit this report to the Government by 30 November 1984."

3. The Commercial Shipbuilding and Repair Industry Development Plan was released by the Minister of Trade and Industry on 22 December 1980, and details of the Government’s decisions were released on 14 August 1981.

4. The Commission intends to hold a public hearing on this review starting on Wednesday, 24 October 1984. Submissions to the review must be with the Commission no later than Friday, 12 October 1984. These submissions should be directed not only at the specific matters covered in the terms of reference but also at any other matter covered in the original development plan, or any matters which arise from the implementation and/or the administration of the decisions taken thereunder.

5. All submissions made to this review will be circulated by the Commission to all other parties who make submissions. Submissions are required to be attested under oath at the public hearing. Cross examination of a submission may be made by those parties who have lodged a submission and by the Commissioners who sit on the review. Submissions which are unattested will not have the same evidentiary weight.

6. The Commission will, at its discretion, accept a separate confidential submission in support of a public submission.

7. Only those parties presenting and attesting public submissions will be parties to the public hearing.

Dated at Wellington this 20th day of September 1984.

P. J. DAWSON, for Secretary, Industries Development Commission.

†New Zealand Gazette, No. 94 dated 7 June 1984, p. 1868

(M.O.T. 29/2/Rodney County)
In the matter of the Broadcasting Act 1976 and in the matter of a complaint by Bill Turner.

**WARRANT HOLDER:** BROADCASTING CORPORATION OF NEW ZEALAND (Radio New Zealand 2ZB):

**Chairman:** B. H. Slane.

**Members:** L. R. Scats and A. E. Wilson.

**Co-opted Members:** B. W. Stephenson and G. C. Ell.

**DECISION**

Mr Turner complained to the Broadcasting Corporation of New Zealand about an advertisement for Kenepuru Liquorland broadcast on 2ZB on 4 December 1982. (A transcript is attached to this decision.) He said that these broadcasts contravened advertising Rule 1.11.4 which reads:

> "The advertisement for alcohol must not be broadcast from licensed premises, whether wholesale or retail."

The Board of the Corporation on 8 April 1983 wrote to Mr Turner advising him that the complaint was not upheld by the Corporation. The Corporation said a careful examination showed there was no mention of liquor being for sale or available and therefore there had been no breach of the rule.

The Corporation went on however to say that questions were raised during the discussion about the use of a personality in the promotion. While it was agreed that there had not been any breach of the rules, it was not clear whether care was needed when broadcasts from licensed premises were made and in the use of personalities.

The Corporation noted that the Director-General of Radio New Zealand had required any broadcasts from licensed premises to be first approved by the Controller of Programmes. The Corporation considered it was unwise to have used the personality and the Director-General had been made aware of the view.

Mr Turner referred the complaint to the Tribunal. He said the rule stood alone. He said that the rule made no mention of alcohol being for sale or being available: it simply dealt with "the advertisement for alcohol . . .". The Corporation conceded, he said, that an advertisement for Kenepuru Liquorland was broadcast and all that is needed to be determined was whether or not that advertisement was for alcohol. Mr Turner argued that there must be an advertisement for something and that a listener "on the Clapham omnibus" would have decided that the something being advertised was alcoholic liquor.

The Corporation maintained its position that the advertisements were not for alcohol but were announcements of the opening of new premises.

The Tribunal has read a transcript of the commercials and notes that apart from the name of the Kenepuru Liquorland, there were no direct statements about the sale of liquor although there were references to "taste-ins", various "bargains" that are available and "valuable products actually given away for only one cent" (as distinct from food available). Every advertisement mentions the name of the location as a "Liquorland" or "Liquorland Kenepuru".

We cannot believe that the ordinary listener would not understand that the advertisement of and made from a place with the name of Liquorland is actually not advertising the availability of liquor for sale. We conclude that it was therefore an advertisement which fell within Rule 1.11.1 as being for the company, and may not include any description, brand names (not included in the name of the company) or prices.

It seems that the intention of the Rules Committee was to include only advertisements that fell within 1.11.1 as being inappropriate for broadcast from licensed premises. We are inclined to that as a reasonable interpretation of the rule. Whatever interpretation we arrive at necessarily will appear a legalistic one.

The question then arises whether this advertisement does in fact refer to the availability of alcoholic liquor for sale.

There are references to "taste-ins", various "bargains" that are available and "valuable products actually given away for only one cent" (as distinct from food available). Every advertisement mentions the name of the location as a "Liquorland" or "Liquorland Kenepuru".

We do not consider therefore that the breach by Radio New Zealand is a serious one.

We do not consider it necessary for any further action to be taken as a result of the upholding of this decision, except that it be circulated to those concerned with the acceptance of advertisements.

It would be appropriate for the Corporation to consider what it is endeavouring to achieve by the prohibition on advertising from licensed premises. Partly in the case of radio advertising and to make that intention clear in the rules. If the Corporation circulate to those concerned with the acceptance of advertisements.

The Tribunal is co-opted Messrs Stephenson and Ell as persons whose qualifications or experience would be useful in the deliberations of the Committee. They participated in deliberations of the Tribunal but the decision is that of the permanent members.

Dated the 29th day of June 1984.

Signed by the Tribunal:

B. H. SLANE, Chairman.

Decision No. 14/84
Bro. 60/84
Before the Broadcasting Tribunal

In the matter of the Broadcasting Act 1976 and in the matter of
an application by the BROADCASTING CORPORATION OF NEW
ZEALAND for a sound radio warrant for Te Kuiti:

Chairman: B. H. Slane.
Member: L. R. Scats.
Co-opted Member: M. J. Henshall.
Counsel: G. R. Rowe for Broadcasting Corporation of New Zealand.

DECISION

The Application

The applicant proposes to establish a station with studios at Te
Kuiti to serve Te Kuiti and Otorohanga from a 400 watt transmitter
situated north of Te Kuiti.

The station would provide a 24-hour service. On weekdays 3
hours would be locally originated between 7 a.m. and 10 a.m. From 6 a.m.
to 7 a.m. and from 10 a.m. to 12.30 p.m. the station would rebroadcast IZH
Te Kuiti/Otorohanga area—this is Dick Weir on 2ZZ.

from the existing

On Saturdays the local originated hours would be from 8 a.m. to
10 a.m. There would be no local programming on Sundays, when
the station would rebroadcast either IZH Hamilton or the national
programme.

In support of the application the Corporation stated that the
Te Kuiti/Otorohanga station provides from a mix of local
sources and from local origination for a population of about 12 000.
The Te Kuiti borough and district had about 7250 people and
Otorohanga and district about 4750. The population therefore
totalled about 12 000 within the area which could be covered by a
sound radio service.

The main objective was to provide an adequate signal for the
listeners of the area whose reception was unsatisfactory from both
IZH Hamilton and the private commercial station IZW. The FM
signs from Mount Te Kuiti provides adequate reception of an
alternative FM music programme.

The long term objective of the corporation was the provision of
2 complementary programmes, one local commercial and one
national and non-commercial, and in the medium term future they
would be centred by mass appeal and special music
programmes on FM.

Evidence was given by G. H. Wykes, National Operations
Manager for Radio New Zealand. He said the purpose was to extend
coverage to an area which had experienced indifferent reception
and to fulfil an important community role which should be available
to rural communities not well served at present. Entertainment
and local information were the main ingredients in the community
role.

It was intended that the proposed service would generate sufficient
income to just cover the cost of providing the service involved
that the hours would be extended unless local support warranted
the extension. Mr Wykes said the Corporation believed the proposal
would provide an improved service to an area that was currently
available, provided for improved utilisation of existing technical
facilities at Hamilton and Taumarunui, represented a local extension
of existing services and made appropriate use of a suitable and
available AM frequency.

D. J. Gatland, supervising engineer for medium and high frequency
radio coverage planning for the BCNZ, outlined the radio coverage
from the existing FM stations, stating that the low field strengths
providing stable though sometimes precious reception to a large
section of the population, the signals were affected by skywave co-channel interference from
overseas, mainly Australian stations and heterodyne whistles from
adjacent New Zealand channels.

He said the transmitter site chosen was approximately 7 kilometres
north-northeast of Te Kuiti and 11 kilometres south-southwest of
Otorohanga in the Mangapu Stream valley to the west of State
Highway 1 and south of Hangatiki Caves road. The site was as far
south as the service planning requirements for Otorohanga allowed
to ensure that rural coverage to the south of Te Kuiti is maximised.
He produced a coverage map showing the expanded field strengths
of the new station and those for IZU and the Hamilton stations.

J. S. A. Stubbs, Station Manager of IZH and IYW in Hamilton is
responsible for the Corporation's operations in the greater Waikato
area. He said that most radio listeners in the Te
Kuiti/Otorohanga area tuned to Hamilton stations which are being
required to maintain a liaison with the region in community
information, news, sport and advertising.

Mr Stubbs would take principal responsibility for the operation
as the senior manager in the area but he would co-ordinate the
activities relating to the station and input required from Taumarunui.
Assistance would be given the station in the matter of sales, sporting
coverage, news and staff relief from the Hamilton stations and
farming matters would be serviced by the rural reporters in
Hamilton.

During the period from 3 p.m to 7 p.m. Monday to Friday, IZH
would pay attention to requests for information to be broadcast
to the north King Country area and this would also occur
in the summer on Saturdays between 1 p.m. and 5 p.m. when more
emphasis on such information, news, sport and advertising.

The station would rebroadcast the Radio New Zealand community
network shows. From 5 a.m. to 6 a.m. the Earlybird Show a
community network commercial programme would be broadcast.

On Saturdays the local originated hours would be from 8 a.m. to
10 a.m. There would be no local programming on Sundays, when
the station would rebroadcast either IZH Hamilton or the national
programme.
The Tribunal will make it a condition of the warrant that the station broadcast a locally originated programme not less than 3 hours daily on average each week and 2 hours on Saturdays. There will be no requirement for local origination on public holidays. The station will be free to extend the broadcast hours for locally originated programmes.

Advertising will be limited to periods of local origination and when linked with 1ZU or 1ZH or the community station network.

No advertising will be permitted during links with the national programme. The warrant will set aside the non-commercial hours and forbid advertising during those hours.

However, in order to make provision for special broadcasts which may be commercially warranted and locally justified, or because of international events covered by commercial radio, the warrant will contain a condition to the effect that prior to any such provision for special broadcasts provided notification is given to the Tribunal.

Any permanent changes to the commercial/non-commercial mix will require amendment to the warrant.

Decision

The application is granted.

The following conditions will apply:

1. The warrant will lapse if the station is not ready to broadcast within 18 months or such later date as the Tribunal may decide.

2. Advertisements shall not be broadcast after 6 a.m. on Sundays, on Christmas Day, on Good Friday and on Anzac Day. When Anzac Day does not fall on a Sunday, advertising is also permitted from 1300 hours to 2400 hours.

3. Subject to the exceptions set out in condition 4, advertising will not be permitted from 1230 hours to 1400 hours Monday to Friday and from 1000 hours to 1200 hours on Saturday.

4. Subject to condition 2, advertisements may be broadcast during periods totalling not more than 40 hours each year commencing from the date of the issue of the warrant but advertising shall not be broadcast while the National Programme is being relayed.

5. The warrant holder shall, unless exempted by the Tribunal, conform to and maintain the technical standards and rules as formulated by the Broadcasting Corporation of New Zealand in consultation with the Independent Broadcasters Association (N.Z.) Inc., including the furnishing of such technical returns as may from time to time be required by these rules and standards.

6. The warrant holder shall not substantially depart from the basic format and content of its proposed programmes or the type or extent of the services intended to be provided at the time of the grant of the warrant without the prior consent of the Broadcasting Tribunal and subject to any conditions that the Tribunal might impose in the public interest.

The warrant will issue when the station is ready to commence operation.

Graeme H. Slane, Chairman.

Appeal: W. J. Rutherford, Director, Radio Otago Ltd.

INTERIM DECISION

The applicants sought the consent of the Tribunal to become a network of broadcasting stations comprising any or all of Radio Foveaux, Otago Radio Dunedin, Otago Radio Central and Radio Avon for the broadcasting between all or any of the hours of 7 p.m. on any day and 6 a.m. on the following day of a programme including network advertising and whether originating from any one of the stations. The programme was to be predominantly a musical programme but to include material of all types, including news, current affairs and sports news.

In support of the applications the Tribunal was told that production of programmes of the highest quality require not only presenters of high calibre but other people of the same calibre involved in the preparation of the programme material. Such people required salaries and conditions of work commensurate with their abilities and Foveaux Radio Ltd. because of losses incurred, could not justify the expenditure of funds involved in the employment of such people between the hours of 7 p.m. and 6 a.m. particularly having regard to the limit of the amount of advertising obtainable during those hours.

This had weakened its competitive position.

The ability to network programmes with other stations could enable the 4 stations to arrange to employ people with the necessary talents.

In evidence P. L. Mortlock, chairman of Radio Avon Ltd., indicated the company did not have any fixed intention and it would require co-operation with the other stations.

The right to network was sought to give flexibility and to cover the situation where one station might have an announcer available for part of the hours or so that sickness in another station could be covered.

It was not envisaged that the programmes would originate from only one studio.

Mr Mortlock said that Radio Avon was subsiding the network news service to Foveaux Radio by providing the service at less than the cost of half a journalist. He was not seeking a continuous networking but thought that if, of the total hours, one-third were permitted to be networked, that would meet the situation. There was also difficulty in obtaining an upgraded line. 2 months notice being required, if it was needed permanently. The practicalities were that if it didn’t have the line then it could not send the music.

The purpose was improved programming and no direct benefit in cost but just simply to attract a bigger audience share and to improve the inheritance factor for the following day’s programmes.

There was no intention to reduce staff.

T. H. Jenkins, chairman of Foveaux Radio Ltd., said that the upgrading of the line would cost $17,000 per annum which would negative any cost savings in employment costs. He said also it was to improve programme quality. The accrued losses of the station up to 31 March 1983 were $270,541. Although he thought the company was making a small profit, there was no room for contingency. Foveaux faced competition from the Gore station as well as the competition from 4ZA.

Mr Jenkins acknowledged that when applying for a warrant the company had said that it would provide a 24 hours a day, 7 days a week locally originated service.

The company had mainly given thought to networking possibilities in the summer holiday period with the station in Central Otago and by originating some of that programme in Invercargill to meet the needs of Southland people who were holdingay in Central Otago.

This would depend on the attitude of Radio Otago whose position was neutral. The company was seeking the freedom to network between 7 p.m. and 6 a.m.

W. J. Rutherford, a director of Radio Otago Ltd., (the holder of a warrant for Dunedin) and for Central Otago with networking permitted between 7 p.m. and 6 a.m., pointed out that it was unlikely that 4XO (Dunedin) or 4XA (Central) would take programmes from 4XO (Dunedin) or 4XA (Central) would take programmes from any of the 2 stations. made it clear that it was unlikely that the “Allnighter” programmes would be practical or possible.

The “Allnighter” often contains sporting commentaries from Britain and Europe and both programmes provide popular music for the adult audience. A consistent feature for the “Tonight Show” was the high quality of the programme and the extensive features offered. Some stations joined the network at 7 p.m. and others at 8 p.m. and 9 p.m. Mr Don also detailed the research that was undertaken.

The Broadcasting Corporation’s position was that it was not in the public interest that the applications be granted because of the losses incurred, could not justify the expenditure of funds involved in the employment of such people between the hours of 7 p.m. and 6 a.m. particularly having regard to the limit of the amount of advertising obtainable during those hours.

If no action has been taken within 12 months from the date of this decision the applications presently made will be dismissed.

P. J. Don, Station Manager for Radio 2ZM, was formerly assistant commercial network manager for Radio New Zealand. He gave evidence for the Corporation. He outlined the history of the introduction of network programming and the development of the “Tonight Show” and “Allnighter” telegrams.

These programmes are seen as an alternative to Radio New Zealand’s other services and to other radio programming currently available. The “Allnighter” often contains sporting commentaries from Britain and Europe and both programmes provide popular music for the adult audience. A consistent feature for the “Tonight Show” was the high quality of the programme and the extensive features offered. Some stations joined the network at 7 p.m. and others at 8 p.m. and 9 p.m. Mr Don also detailed the research that was undertaken.

The Broadcasting Corporation’s position was that it was not in the public interest that the applications be granted because of the losses incurred, could not justify the expenditure of funds involved in the employment of such people between the hours of 7 p.m. and 6 a.m. particularly having regard to the limit of the amount of advertising obtainable during those hours.

If no action has been taken within 12 months from the date of this decision the applications presently made will be dismissed.

The Tribunal does not consider that the present applications make a case for consent to be granted in an open form or even one limited to a certain number of hours.

The Tribunal would however, entertain a proposal that was more specific and related to an actual intention.

The Tribunal could then decide whether any consent would be conditional or unconditional and whether or not the proposals are clearly for the benefit of the listener and in the public interest. The 3 stations would be successful in producing better programmes. The 3 stations were to provide flexibility and that there were no fixed intentions which the newsroom is manned.

Mr Jenkins pointed out that an announcer or journalist would be on duty at the station during any networking. Mr Cushen spoke well of the community involvement of Radio Foveaux and said that involvement would be reduced if there were substantial networking.

The Tribunal has considered the applications. It has awaited any indication that a situation has arisen which would define the intentions of the companies for a specific proposal.

The Tribunal does not consider that the present applications make a case for consent to be granted in an open form or even one limited to a certain number of hours.

The Tribunal would however, entertain a proposal that was more specific and related to an actual intention.

The Tribunal could then decide whether any consent would be conditional or unconditional and whether or not the proposals are clearly for the benefit of the listener and in the public interest. The Tribal would have considered whether it should dismiss the applications for consent or whether it should adjourn the matters. It considers that an appropriate course is in the meantime, to adjourn the applications sine die. If, during the next year the stations wish to make an application that is based on an actual programme intention, they could seek a hearing or file affidavits and written submissions. In either case the matter can be dealt with at short notice and promptly. This would remove the necessity for commencing another application.

Dated the 16th day of July 1984.

LPG fuel cylinders are approved subject to the following conditions—

1. That they be permanently and clearly marked, on a suitably attached metal plate, with characters not less than 6 mm high if space permits but in any case not less than 3 mm high, displaying the following information:
   (a) The specification to which the cylinder was manufactured;
   (b) The manufacturer's name or mark and the serial number of the cylinder;
   (c) The date of the original cylinder inspection and the identification mark of the inspection authority who made the inspection;
   (d) The date of any periodic cylinder test and the identification mark of the cylinder testing station who made each test;
   (e) The cylinder test pressure;
   (f) The nominal water capacity of the cylinder;
   (g) The tare weight of the cylinder.

2. That they be clearly marked or labelled to indicate that the cylinder is suitable for use with LPG.

3. That they be provided with valve threads and fittings which provide the following functions—
   (a) Filling connection incorporating a non-return valve;
   (b) Service valve incorporating an excess flow valve;
   (c) Contents gauge;
   (d) Safety valve;
   (e) A fixed liquid level indicator or an automatic fill shut off device which prevents the cylinder being filled beyond 85 percent of the total cylinder capacity.

4. Valves and fittings shall have a service pressure rating of at least that of the cylinder to which they are fitted and shall be dimensioned, threaded and marked in accordance with the requirements of section 2.3 of New Zealand Standard NZS 5422 “The use of LPG and CNG Fuels in Internal Combustion Engines—Part 1 LPG Fuel”.

5. That they be tested at periods not exceeding five years in accordance with the requirements of Australian Standard AS 2337-1980 and all periodic test requirements laid down in the specification to which the cylinder was manufactured.

6. That they be fitted to a motor vehicle in such a position that they will not be subject to the direct rays of the sun, either by fitting them within a suitable vehicle compartment, or by providing a suitable shield if the cylinders are fitted to the exterior of the vehicle.

The terms of this approval do not allow the continued importation of such LPG fuel cylinders and it does not apply to cylinders which have not been installed in a motor vehicle by 31 December 1985.

Notes: The effect of this notice is to allow the continued use of LPG fuel cylinders which are known to have been imported into New Zealand prior to the introduction of the Dangerous Goods (Class 2-Gases) Regulations 1980 and which were acceptable under the previous dangerous goods requirements, but whose working pressure rating would disqualify them for approval for general use under the Traffic Regulations 1976. They are approved subject to the additional proviso that they must not be exposed to direct sunlight (to reduce the possibility that solar radiation would raise the temperature of the contents of the cylinder such that the developed pressure of the cylinder contents exceeded the working pressure rating of the cylinder).

Dated at Wellington this 4th day of September 1984.

R. N. ABRAM, Chief Automotive Engineer.
Notice is hereby given that applications have been made to the Minister of Customs for the continuation of the following concessions at the rates of Customs Duty shown:
