The Standards Act 1965—Draft New Zealand Standard Specification Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft New Zealand standard specification is being circulated.

Number and Title of Specification

DZ 1900:Chapter 6 Model building bylaw—

Chapter 6: Construction requirements for buildings not requiring specific design—Timber and masonry. Gratis.

This proposed revision of NZS 1900 Chapter 6 is intended to supersede the current 2 divisions of the Chapter.

- 6.1 Construction requirements for buildings not requiring specific design—Timber
- 6.2—Masonry

Division 6.1 is already in a shortened format which sets out general requirements and cites a specific Standard as being approved as a means of compliance. With the anticipated publication, within the next few months, of a New Zealand standard for concrete masonry buildings not requiring specific design, Division 6.2 can be re-written in similar shortened format. The opportunity is being taken to combine the 2 divisions into a single document. Material in the current Division 6.1 which is also covered in Chapter 9 has been omitted.

All persons who may be affected by this publication and who desire to comment thereon, may obtain copies at the price shown, from the Standards Association of New Zealand, Wellington Trade Centre, 15-23 Sturdee Street (or Private Bag), Wellington.

NOTE—Payment must accompany all requests for drafts.

The closing date for the receipt of comment is 28 January 1985.

Dated at Wellington this 9th day of November 1984.

DENYS R. M. PINFOLD,

Director, Standards Association of New Zealand.

The Standards Act 1965—Draft New Zealand Amendment Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft amendment is being circulated.

Number and Title of Specification

DZ 4505/A2 Draft Amendment No. 2 to NZS 4505:1977 Fire-fighting waterway equipment. Gratis.

This amendment will cancel Amendment No. 1. It revises Figure 1 for delivery hose instantaneous couplings to provide better dimensional control, an improved flow through the coupling, a new washer design and more specific details on the catchpin. Interchangeability with couplings to the existing design is maintained. Dimensions of landing valves are modified to improve co-ordination with NZS 4521. The finish of machined surfaces is relaxed to 3.2 µm Ra.

All persons who may be affected by this publication and who desire to comment thereon may obtain copies from the Standards Association of New Zealand, Wellington Trade Centre, 15-23 Sturdee Street (or Private Bag), Wellington.

The closing date for receipt of comment is 15 February 1985.

Dated at Wellington this 9th day of November 1984.
