Revocation of Appointment of Commission of Inquiry into Industrial Relations on the Whangarei Refinery Expansion Project Construction Site

—

DAVID BEATTIE, Governor-General

ORDER IN COUNCIL

To all to whom these presents shall come, and to:

IAN MUNRO MACKAY of Wellington, Company Director; and

EDWARD JOHN BATT of Wellington, former member of the State Services Commission; and

JOHN ROBERT FITTES of Auckland, retired Industrial Relations Manager;

GREETING:

Whereas by an Order in Council made on the 24th day of September 1984*, you, the said Ian Munro Mackay, Edward John Batt, and John Robert Fittes, were appointed to be a Commission to inquire into and report upon industrial relations on the Whangarei Refinery expansion project construction site:

And whereas certain events that have happened since the making of the said Order in Council have caused you, the said Ian Munro Mackay, the Chairman of the Commission, to request that the Commission be discharged from performance of the duty imposed on it by the said Order in Council:

And whereas it is expedient that the Commission should, in accordance with that request, be so discharged:

Now, therefore, pursuant to the Commissions of Inquiry Act 1908, I, The Honourable Sir David Stuart Beattie, the Governor-General of New Zealand, acting by and with the advice and consent of the Executive Council, hereby makes the following order.

1. The New Zealand Society for the Intellectually Handicapped (Incorporated), North Shore Branch Order 1984

2. Exemption—The New Zealand Society for the Intellectually Handicapped (Incorporated), North Shore Branch, an organisation approved* by the Minister of Labour under section 3 of the Disabled Persons Employment Promotion Act 1960, under its former name of the Intellectually Handicapped Children's Society (Incorporated), North Shore Branch, is hereby granted exemption in respect of its sheltered workshop at 40 Porana Road from—

(a) All the provisions of every award and agreement that would otherwise apply to persons employed in that workshop; and

(b) The Minimum Wage Act 1945, the Holidays Act 1981, and sections 10 (2) (b) and 15 of the Factories and Commercial Premises Act 1981.

P. G. MILLEN, Clerk of the Executive Council.

The Kapiro - Pungaere Irrigation Order 1984

—

DAVID BEATTIE, Governor-General

ORDER IN COUNCIL

At the Government House at Wellington this 19th day of November 1984.

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL

Pursuant to section 4 of the Disabled Persons Employment Promotion Act 1960, His Excellency the Governor-General, acting on the recommendation of the Minister of Labour made after consultation with the unions, associations, and organisations referred to in section 3 of that Act, and by and with the advice and consent of the Executive Council, hereby makes the following order.

ORDER

1. Title—This order may be cited as the New Zealand Society for the Intellectually Handicapped (Incorporated), North Shore Branch Order 1984.

2. Exemption—The New Zealand Society for the Intellectually Handicapped (Incorporated), North Shore Branch, an organisation approved* by the Minister of Labour under section 3 of the Disabled Persons Employment Promotion Act 1960, under its former name of the Intellectually Handicapped Children's Society (Incorporated), North Shore Branch, is hereby granted exemption in respect of its sheltered workshop at 40 Porana Road from—

(a) All the provisions of every award and agreement that would otherwise apply to persons employed in that workshop; and

(b) The Minimum Wage Act 1945, the Holidays Act 1981, and sections 10 (2) (b) and 15 of the Factories and Commercial Premises Act 1981.

P. G. MILLEN, Clerk of the Executive Council.

The Kapiro - Pungaere Irrigation Order 1984

—

DAVID BEATTIE, Governor-General

ORDER IN COUNCIL

At the Government House at Wellington this 19th day of November 1984.

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL

Pursuant to the Public Works Act 1981, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, hereby makes the following order.

ORDER

1. This order may be cited as the Kapiro - Pungaere Irrigation Order 1984.

2. The Minister of Works and Development is hereby authorised to construct, maintain and control the water supply works described in the First Schedule hereto to serve the district described in the Second Schedule hereto.

3. The area of land described in the Second Schedule is hereby constituted as an irrigation district to be known as the Kapiro-Pungaere Irrigation District (herein referred to as "the District").

4. The annual basic charge payable in respect of irrigable land within the irrigation district and served by the scheme shall be $130 per hectare.

5. The annual water availability charge payable in respect of water supplied shall be $140 per 1000 cubic metres.

This will entitle the occupier to use up to a total of 1500 cubic metres of water per irrigable hectare per season over the area subject to a water availability agreement. This will result in an effective minimum charge of $210 per hectare. Extra water will be available up to a total of 1000 cubic metres per hectare in any irrigation season, and the occupier shall be liable for an extra water charge based on the actual quantity used and at the same price per 1000 cubic metres as for the water availability charge.

In some seasons water supply may be reduced by the Minister of Works and Development for that season as provided for in section 218 of the Public Works Act 1981, and the charge may be reduced.

6. Water charges under section 214 of the Public Works Act 1981 shall be payable over 30 seasons of supply, commencing from the availability of water.

*Gazette, 1984, page 4132
The annual basic and water availability charges shall be reduced for the first six seasons of supply as shown in the Third Schedule. The reductions, together with the interest thereon, shall be debited to the appropriate scheme account, and recovered over the subsequent 24 years.

The water for the scheme is to be taken from an existing reservoir on the Waipapa Stream and will maintain a piped supply of irrigation water to the Kerikeri Irrigation Scheme. The water will be delivered at a rate of 150 cubic metres per hour to 298 hectares of irrigable land in the District for the irrigation of subtropical fruits. The works are capable of supplying 2500 cubic metres of water per irrigable hectare per season at a maximum rate of 3.5 million cubic metres per hour.

The charges have been based on the total estimated headworks and off-orchard costs plus the costs of operation, maintenance, and renewals and the demand for water, as stated under sections 209 and 210 of the Public Works Act 1981. This adjustment at the commencement of the availability of supply, at the end of the seventh season of availability of supply, and every 2 years thereafter to compensate for any difference in any element of the charges approved for under sections 210 to 214 of the Public Works Act 1981.

The season shall be that period commencing on the 15th day of September and ending on the 30th day of April next following.

The minimum aggregate area of land occupied by any occupier that is to be included in the District shall be eight (8) hectares.

FIRST SCHEDULE

WATER SUPPLY WORKS

The Kairopo - Pungare Irrigation Scheme headworks comprise firstly the diversions and impoundments on the Pungare Stream; secondly the conveyancing waterworks including pipes that take water to the start of the reticulation works and thirdly the pressure boosting works necessary to maintain the required supply pressures. Each of the headworks are shared with the Kerikeri Irrigation Scheme. The off-orchard works comprise the piped reticulation and associated works necessary to distribute irrigation water to orchard boundaries. The said works include all dams, reservoirs, weirs, pipes, valves, pumps, meters and other works incidental to and required for the construction, maintenance and control of the said works for the irrigation district.

The on-orchard works comprise the works necessary to distribute water from the orchard boundary as defined in individual orchard plans prepared for each property.

An Easement Over Land Acquired for Soil Conservation and River Control Purposes in Block V, Waitoa Survey District, Piako County

PURSUANT to section 20 of the Public Works Act 1981, the Minister of Works and Development declares that, an agreement to that effect having been entered into, the easement described in the First Schedule hereto is hereby acquired for soil conservation and river control purposes over the land described in the Second Schedule hereto and shall vest in the Crown on the 6th day of December 1984.

FIRST SCHEDULE

SOUTH AUCKLAND LAND DISTRICT

Description of Easement

1. In this Schedule the term “grantor” means the owner or occupier of any of the land described in the Second Schedule over which an easement is to be acquired and the term “grantee” means the Taupiri Drainage and River Board.

2. The full and free right, liberty and licence and authority in perpetuity for the grantee or its agents to do and carry out the following on the said land:

3. To enter on the said land by its engineers, officers, agents and workmen, to go, pass and repass, with or without machinery or vehicles over and along the said land.

4. To construct water courses of such dimensions as the grantee shall determine and from time to time alter or reconstruct the same and to clean or otherwise maintain the same in a state of efficiency.

5. To construct stopbanks spillway and dam of such dimensions as the grantee shall determine and from time to time to alter or reconstruct the same and do all things which are necessary to maintain the same in a state of efficiency.

6. To flood the land described in the Second Schedule when circumstances require such flooding but the design of watercourses stopbanks and spillway will within practical limits be such that flooding will be minimised.

7. To exercise the rights described herein to the extent the grantee shall determine but only to the extent necessary to serve the purpose of the work.

8. To regulate the use of any constructed water course and the construction and maintenance of crossings over such watercourse.

9. To prohibit the passing over any constructed watercourses except at appointed crossings.

10. To prevent any constructed watercourse from being made wider or deeper than it is at the time, whether by cleaning or otherwise, or to prevent the course thereof from being altered without the consent of the grantee.

11. To prohibit or regulate access to or the passing over or along any bank or dam or other work of any kind whatsoever constructed or maintained by, or under the control of, the grantee.

12. To prohibit or regulate the use by the grantor of the land occupied by watercourses, stopbanks, spillway and dam and to require the grantor to use the said land solely for the growing of grasses and at all times to comply with the directions of the grantee in respect of the grazing of animals on the said land as if a notice to control such grazing had been given under section 35 of the Soil Conservation and Rivers Control Amendment Act 1950, so that the said land shall be maintained and kept in such manner that any stopbank, spillway or dam or any water course is maintained in a state of efficiency.

13. To prohibit the cultivation by the grantor of the land occupied by watercourses, stopbanks, spillway and dam any renewal of pasture on such land to be the responsibility of the grantee, except that the cost of such renewal shall be borne by the grantor where such renewal is a result of willful damage or the failure of the grantor to conform to prudent land use practice, being practice which has proper regard...
to timing and circumstances and is likely to prevent soil erosion, and likely to promote soil conservation, the avoidance of deposits in watercourses, and the control of floods.

14. To prohibit the feeding out by the grantor on the land described in the Second Schedule of hay, ensilage, or any other fodder for stock except on land contained in the diversion channel area, provided that the grantee may prohibit feeding out to stock in the diversion channel area if this practice proves detrimental to the grass cover of this area under adverse climatic conditions.

15. To prohibit the lighting of fires on the said land except under such circumstances and subject to such limitations, conditions and restrictions as may be prescribed by the grantee.

Dated at Wellington this 22nd day of November 1984.

STAN RODGER, Minister of Labour.
6. **Provisions Concerning Quality**—The purpose of this standard is to define the quality requirements for cherries at the dispatching stage, after preparation and packing.

(a) The cherries must be:
- free from pests and diseases and meet any quarantine and other legal requirements of the importing country;
- intact, whole fruit;
- sound;
- clean;
- reasonably well formed—typical of variety and not more than slightly misshapen;
- free from abnormal external moisture; and
- free of foreign smell or taste.

(b) The cherries must have been carefully picked and of a similar degree of maturity and colouring in the same line of produce. They must have matured sufficiently to complete the ripening process and be able to withstand handling, storage and transport to meet the market requirements at the place of destination.

(c) The cherries must be of good quality and have characteristics typical of the particular variety. The following may be accepted:
- A slight defect in shape or development;
- A slight defect in colouring.

The cherries must be free of defects such as burns, cracks, bruises and hail damage which:
- (i) may significantly impair the general appearance or keeping quality of the fruit, or;
- (ii) are likely to make the fruit unattractive to the purchaser.

7. **Provisions Concerning Sizing**—Sizing is determined by the maximum diameter of the equatorial section. The minimum size allowed for export is 20 mm.

8. **Provisions Concerning Presentation**:

(a) Uniformity

The contents of each package must be uniform; each package must contain only cherries of the same origin, variety, quality, degree of ripeness and size.

The visible part of each package must be representative of the entire contents.

(b) Packaging:

The cherries must be packed in such a way as to ensure that they are suitably protected.

The materials, and particularly the paper used inside the package, must be new, clean and of a quality such as to avoid causing any external or internal damage to the produce. The use of materials and particularly of paper or stamps bearing trade specifications is allowed provided that the printing or labelling has been done with a non-toxic ink or glue.

Packages must be free of all foreign matter.

9. **Provisions Concerning Marking**—Each package must bear the following particulars in letters grouped on the same side, legibly and indelibly marked and visible from the outside:

- Identification—registered mark of grower or packing establishment and exporter's identification;
- Nature or produce—kind and variety;
- Country of origin—New Zealand;
- Packing date code—registering the date of packing;
- Commercial Specification—grade, count or size.

Labels, if used must not be less than 40 square centimetres.

**FIRST SCHEDULE**

**DEFINITION OF TERMS**

"Clean" means free from dirt, dust, insect stains or other foreign substance or material;

"Count" means the number of fruit contained in any package;

"Mature", in relation to fruit, means that the fruit will properly complete the ripening process and is suitable for export;

"To pack" means to arrange fruit regularly and compactly in a package so that they are not loose or compressed to an extent likely to cause damage to the fruit during handling or transport;

"Sound" means free from decay, rots, overmaturity, breakdown, freezing injury, damage and similar defects which may cause rapid loss of condition or rapid decay;

"Storage defects" means decay, storage scald, fungal rots, wilt, or other injury to fruit as a result of storage.

**SECOND SCHEDULE**

**GRADE REQUIREMENTS FOR EUROPEAN MARKETS**

1. Some European countries are members of the OECD Scheme for the International Standardisation of Fruit and Vegetables and as such NZMAF is required to supply an OECD Control Certificate stating that the produce conforms to the OECD scheme's grade standards.

2. Before exporting cherries to a European country, exporters should check with a Regional Ministry of Agriculture and Fisheries office to ascertain if the importing country requires a control certificate, and obtain a copy of the OECD grade standards.

Notwithstanding clause 2 of this Schedule it is the responsibility of the exporter to ensure that produce exported meets the legal requirements of the importing country and the specifications of the importer.

**GENERAL INFORMATION**

The following explanatory notes do not form part of this standard grade, but are presented for the information of growers/exporters.

1. In order to certify produce fit for export a certifying officer may require information from the exporter to the effect that the property on which the fruit was produced has been registered for export. It is the responsibility of the exporter to obtain this information from the Executive officer of the New Zealand Stonefruit Export Council.

2. To assist with the interpretation of "sound" fruit that has not been exported within 18 days of harvest will be considered unsound.

3. Growers and Exporters must ensure that fruit is kept under optimum storage conditions between harvest and dispatch.

4. Cherry varieties maturing before Pellisier or Dawson should not be exported to Australia as it is considered that they would not be able to withstand handling and meet the market requirements.

Dated at Wellington this 28th day of November 1984.

M. L. CAMERON,
Director-General of Agriculture and Fisheries.

*S.R. 1975/57

**NOTICE**

1. **Title**—(1) This notice may be cited as the Standard Grade for the Export of Buttercup Squash Notice No. 3481, Ag. 12/2/14

2. **Interpretation**—Unless the context otherwise requires, terms and expressions used in this notice shall have the same meaning as in the New Zealand Grown Fruit and Vegetables Regulations 1975*. Certain of these terms and expressions as applicable to buttercup squash are defined in the First Schedule to this notice.

3. **Application of Notice**—This notice determines the standard grade for the export of buttercup squash from New Zealand. The uniformity of sizing requirements as set out in 7 shall only apply to buttercup squash exported to those countries listed in the Third Schedule to this notice.

4. **Title and Grade**—The grade mark assigned to this standard grade shall be Class I (hereinafter referred to as 'the grade').

5. **Definition of Produce**—This grade applies to buttercup squash grown from varieties of Cucurbita maxima to be supplied fresh to the consumer, buttercup squash for industrial processing being excluded.

6. **Provisions Concerning Quality**—The purpose of this standard is to define the quality requirements for buttercup squash at the dispatching stage, after preparation and packaging.
The buttercup squash must be:
- free from pests and diseases and meet any quarantine and other legal requirements of the importing country;
- intact, whole, and sound—free from storage defects or any other defects which impair their general appearance or keeping quality;
- clean—free from soil and practically free of any other visible foreign matter;
- free from abnormal external moisture,
- free of foreign smell or taste,
- mature,
- trimmed,
- cured,
- of good quality, with similar varietal characteristics including shape and colour and without distortion due to abnormal development,
- capable of withstanding handling, storage and transport, and arriving at the destination in a sound condition,
- free from sunburn and scald.

Skin defects which are not liable to impair the keeping qualities are permitted within the limits specified in the Second Schedule to this notice.

7. Provisions Concerning Sizing—Sizing is determined by weight. The minimum size allowed for export is 750 g.

The size range shall be as follows:

- 'S' 0.750 g–1.00 kg (not permitted in bulk or jumble pack)
- 'M' 1.00–1.50 kg
- 'L' 1.50–2.00 kg
- 'LL' 2.00–2.50 kg
- 'LLL' 2.50–3.00 kg
- 'BULK' This covers a bulk or jumble pack with a minimum-maximum size range of 1.00–2.70 kg.

8. Provisions Concerning Tolerances—Any one package shall not contain more than 10 percent of buttercup squash by weight outside the branded size range.

9. Provisions Concerning Presentation:

(a) Uniformity—The contents of each package must be uniform; each package must contain only buttercup squash of the same origin, variety, quality, degree of ripeness and size.

(b) Packaging—The buttercup squash must be packed in clean new packages and in such a way as to ensure that they are suitably protected.

Package must be free of all foreign matter.

10. Provisions Concerning Marking—Each package must bear the following particulars in letters grouped on the same side, legibly and indelibly marked and visible from the outside:

- Identification—registered mark of grower or packing establishment and exporter's identification;
- Nature of produce—kind and variety;
- Country of origin—New Zealand
- Commercial specification—grade and size range of contents
- Official control mark—inspection stamp or similar identification if applicable.

FIRST SCHEDULE

DEFINITION OF TERMS

"Sound" means free from decay, rots, breakdown, freezing or chilling injury, damage, and similar defects which may cause rapid loss of condition or rapid decay;

"Storage defects" means decay, fungal rots, wilt, or other injury as the result of storage.

"Trimmed" means that all excess stalk must be clean cut, and not protrude more than 1 cm above the shoulders of the squash.

"Mature" means that the buttercup squash is complete in natural development and fully ripe.

"Cured" means that the stalk is sufficiently dried and sealed to prevent loss of moisture.

"Sunburn" means injury from exposure to sun which results in sunken white areas of damaged flesh.

SECOND SCHEDULE

ALLOWS for skins defects:

Skins defects are permitted within the following limits, provided the effects are of a superficial nature and not liable to affect the keeping quality or the appearance of the buttercup squash.

(a) Minor vine marks—are acceptable provided they are healed, shallow and dry.

(b) Soil bleaching—an area lighter than characteristic colour, but not white, and not in excess of 10 percent of the surface area of the buttercup squash is acceptable.

(c) Calloused areas—provided callouses are dry and well healed, and are of a minor nature, and do not protrude, they are acceptable.

(d) Discolouration—the result of exposure to sun producing only light bronzing colour on growing fruit is acceptable.

THIRD SCHEDULE

JAPAN

General Information

The following explanatory notes do not form part of this standard grade, but are presented for the information of growers/exporters.

(1) It is the responsibility of the exporter to ensure that produce exported meets the legal requirements of the importing country and the specifications of the importer.

(2) The uniformity of sizing requirements are included to comply with those of the countries listed in the Third Schedule. However, exports to other countries should also comply with the uniformity of sizing requirements, except where otherwise agreed between exporter and importer.

(4) Handling and packing:

(a) Packing of export packages and shipping containers in the field shall be acceptable.

(b) Buttercup squash should not be cut or harvested in rain or damp conditions. Full crates should be protected from inclement weather.

(c) At harvest, the cut stalk should be dry before the buttercup squash is handled again.

(d) Avoid the possibility of sunburn following cutting and during harvest. Packed crates should be protected from direct sun at all times.

(e) After harvesting, the buttercup squash should be allowed to stand in a shaded airy place for a minimum of 48 hours prior to export packing.

(f) The optimum time span from harvesting until vessel's departure is between 3 and 14 days. Buttercup squash should not be shipped until a minimum of 5 days have lapsed from harvesting.

(5) Package sizes—Package sizes shall be determined between exporter and importer. The following list is a suggested range:

Price Order No. 297 (Butter)

Pursuant to the Commerce Act 1975, I, Wayne Eric Scanlan, pursuant to a delegation from the Secretary of Trade and Industry, hereby make the following price order:

Preliminary

1. This order may be cited as Price Order No. 297, and shall come into force on the 7th day of December 1984.

2. (1) Price Order No. 276* is hereby revoked.

(2) The revocation of the said price order shall not affect the liability of any person for any offence in relation thereto committed before the coming into force of this order.

3. (1) In this order, unless the context otherwise requires,—"the said Act" means the Commerce Act 1975; "the said regulations" mean the Butter and Cheese Marketing Regulations 1948t.

(2) Terms and expressions defined in the said Act, or in the said regulations, when used in this order, have the meanings severally assigned thereto by the said Act or by the said regulations, as the case may be.

4. The prices in this order shall apply to Creamery and Continental style butter, the standard of quality of which is not less than category 3 and to whey butter, the quality of which is not lower than category 2. The categories referred to mean:

(a) Categories assigned at a grading store; or
(b) Categories assigned in a manufacturing dairy prescribed by regulation 26 of the said regulations; or
(c) Categories constructively assigned pursuant to subclause (4) of regulation 26 of the said regulations.

Application of this Order

5. This order applies with respect to all sales in New Zealand by way of wholesale, or retail, of any butter (within the meaning of the said regulations) manufactured in New Zealand, except butter sold as ships’ stores for vessels sailing beyond New Zealand.

Maximum Wholesale Price of Butter to Which this Order Applies

6. (1) The maximum wholesale price of butter to which this order applies shall be:

(i) $1.26 a 500 gram pack of salted creamery butter.
(ii) $0.65 a 250 gram pack of salted creamery butter.
(iii) $1.30 a 500 gram pack of unsalted creamery butter.
(iv) $2.49 per kilogram of salted creamery butter in bulk.
(v) $2.5955 per kilogram of unsalted creamery butter in bulk.
(vi) $2.57 per kilogram of salted whey butter in bulk.
(vii) $1.30 a 500 gram pack of salted whey butter.
(viii) $1.3140 a 500 gram pack of continental style butter.

7. Any butter sold in pursuance of the provisions of clause 6 of this order shall be delivered freight free into the purchaser’s premises.

8. Notwithstanding anything in the foregoing provisions of this order, the price for any parcel of butter sold, whether in bulk or in pats, in a quantity of less than 20 kg, by way of sale by wholesale, being butter of one of the kinds and standards of quality set out in clause 6 of this order, may (at the option of the vendor) be the sum of $c per parcel more than the appropriate price prescribed for butter of that kind and standard of quality by the foregoing provisions of this order, and the said sum of $c shall be added to the rates referred to in clause 9 of this order for the purpose of that clause.

Maximum Retail Price of Butter to Which this Price Order Applies

9. (1) The maximum retail price of butter to which this price order applies shall be computed at the rate of:

(i) $1.39 a 500 gram pack of salted creamery butter.
(ii) $0.72 a 250 gram pack of salted creamery butter.
(iii) $1.43 a 500 gram pack of unsalted creamery butter.
(iv) $1.43 a 500 gram pack of salted whey butter.
(v) $1.49 a 500 gram pack of continental style butter.

(2) If, in respect of any lot of butter sold by a retailer, the maximum price calculated in accordance with the foregoing provisions of this clause is not an exact number of cents, the maximum price of the lot shall be computed to the nearest whole cent.

Special Prices Where Extraordinary Charges Incurred

10. Notwithstanding anything in the foregoing provisions of this price order and subject to such conditions, if any as he thinks fit, the Secretary, on application by any trader, may authorise special maximum prices in respect of any butter to which this price order applies where special circumstances exist or for any reason extraordinary charges are incurred by the trader. Any authority given by the Secretary under this clause may apply with respect to a specified lot or consignment of butter or may relate generally to all butter to which this Price Order applies sold by the trader while the order remains in force.

Dated at Wellington this 5th day of December 1984.

TRADE BANK ResERVE ASSET RATIO

Pursuant to section 33 of the Reserve Bank of New Zealand Act 1964, the Reserve Bank, acting with the approval of the Minister of Finance, hereby gives notice that as from and including 1 December 1984 and until further notice each trading bank shall maintain during each calendar month balances at the Reserve Bank or proceeds of all such borrowings shall be credited to the Reserve Bank and the proceeds of all such borrowings shall be credited to the Reserve Bank for the purposes of settlement of the trading bank's current account at the Reserve Bank as at each Wednesday in the month, supplied by the Reserve Bank under the Statistics Act 1975.

For the purposes of this notice:

1. Balances held by a trading bank at the Reserve Bank shall be the average of the balances held at the Reserve Bank as at each Wednesday in the month, as recorded by the Reserve Bank after the settlement of all transactions which are recorded as having been effected on that day.

2. The average of a trading bank's holdings of Reserve Bank notes and of New Zealand Government securities for a calendar month shall be the average of the figures for those holdings recorded by the Reserve Bank for that trading bank and the proceeds of all such borrowings shall be credited to the Reserve Bank under the Statistics Act 1975.

3. The average of a trading bank's balances at the Reserve Bank shall be the average of the balances of that trading bank as at the close of business on each day of that calendar month, as recorded by the Reserve Bank after the settlement of all transactions which are recorded as having been effected on that day.

4. The average of a trading bank's holdings of New Zealand Government Securities for a calendar month shall be the average of the figures for those holdings recorded by the Reserve Bank for that trading bank and the proceeds of all such borrowings shall be credited to the Reserve Bank under the Statistics Act 1975.

5. For the purposes of this notice, the term "New Zealand Government Securities" shall mean Government Stock and Treasury Bills as these terms are defined in the Public Finance Act 1977 (all at nominal value), and any bonds, debentures, or other securities issued by the Housing Corporation of New Zealand under section 30 of the Housing Corporation Act 1975 (all at nominal value), and any Government of Western Samoa stock issued and registered in New Zealand after the 1st day of August 1976 (at nominal value).

6. The average demand and time deposit liabilities of a trading bank in a calendar month shall be the average of the figures for days within that calendar month, as shown in that trading bank's weekly returns of Banking Statistics and the Statistics Act 1975.

7. The proceeds of any borrowings made by a trading bank pursuant to the proviso to this notice shall be deemed to be a part of and included in the balances held by that trading bank at the Reserve Bank on the last day of the preceding calendar month.

And the proceeds of any such borrowing shall not be included in the balances held by that trading bank at the Reserve Bank for any other calendar month.

SPENCER RUSSELL, Governor.

**CONDITIONS OF APPROVAL**

CNG fuel cylinders are approved subject to the following conditions—

1. That they be permanently and clearly marked, on a thickened portion of the cylinder, with characters not less than 6 mm high, if space permits, but in any case not less than 3 mm high, displaying the following information:
   a. The specification to which the cylinder was manufactured.
   b. The manufacturer’s name or mark and the serial number of the cylinder.
   c. The date of the original cylinder inspection and the identification mark of the inspection authority who made the inspection.
   d. The date of any periodic cylinder test and the identification mark of the cylinder testing station who made each test.
   e. The cylinder test pressure.
   f. The design charging pressure of the cylinder at 15°C.
   g. The nominal water capacity of the cylinder.
   h. Where required by the marking provisions of the specification to which the cylinder was manufactured, the tare weight of the cylinder.

2. That they be clearly marked or labelled to indicate that the cylinder is suitable for use with CNG.

3. That they be provided with valve threads of the form specified in British Standard BS 341 “Valve Fittings for Compressed Gas Cylinders”.

4. That they be provided with a cylinder shut off valve designed for a working pressure of 16.5 MPa and capable of withstand the test pressure of the cylinder. Cylinder shut off valves shall be fitted with a handwheel to facilitate ease of opening and closing of the valve and shall be fitted with a pressure relief device, which remains in contact with the gas contained in the cylinder whether the handwheel is in the open or closed position, comprising of a burst disc backed by fusible alloy. The fusible alloy is to have a nominal yield temperature of 100° centigrade and the burst disc shall yield at a pressure of not less than 24.75 MPa and not more than the test pressure of the cylinder. Cylinder valves shall be provided with an outlet thread of ¼ in NPT (female) and a stem thread compatible with the cylinder neck thread.

5. That they shall not be charged with CNG to a greater pressure than 16.5 MPa at 15° centigrade.

6. That they be tested at periods not exceeding five years in accordance with the requirements of Australian Standard AS 2337-1980 and in accordance with the periodic test requirements laid down in the specification to which the cylinder was manufactured.
