Industries Development Commission—Notice 1984/3, Review of the Town Milk Industry

(1) In a letter of 30 November 1984, the Minister of Trade and Industry requested the Commission to undertake a review of the town milk industry in New Zealand.

(2) The Minister's letter reads:

"The Government has decided that a review of the town milk industry should be undertaken by the Commission. Such a review is now considered to be appropriate, especially in view of the changes which may arise from the forthcoming removal of the consumer subsidy on milk.

It is the Government's wish that the industry be reviewed with the objective of promoting competition and efficiency in the production, distribution and marketing of milk, in the public interest.

Accordingly, I request the Commission to inquire into and report with recommendations on:

- (a) The present structure of the town milk industry (including cream) with regard to the efficient and economic use of resources in the industry;
- (b) Any changes to the present structure that are desirable or necessary in the public interest;
- (c) Without restricting the generality of the foregoing, to examine and make recommendations, in particular on:
 - (i) The pricing and marketing of all milk and cream for domestic consumption;
 - (ii) The need for regulatory mechanisms covering production, processing and distribution of all milk, with a view to fostering a more competitive and market-oriented industry;
 - (iii) Administrative and financial arrangements including the future role and functions of the Milk Board;
 - (iv) The relationship between the town milk and manufacturing dairy sector in the domestic market for milk, cream and other fresh milk products;
- (d) The implementation of the review's recommendations including any legislative changes required.

It is the Government's desire that, in conducting the review, the Commission should consult all interested parties, including the New Zealand Milk Board, all sectors of the town milk industry (including retailers), the milk pricing authorities, all relevant Government departments, users of milk and milk products and consumer groups. In addition, please note that the Government has already sought and obtained the comments of interested parties on the packaging issue. However, the Government would appreciate any views the Commission may wish to advance on the implications packaging may have on the structural and marketing aspects of the town milk industry.

The Commission is requested to submit its report on the town milk industry to the Government by 30 September 1985."

(3) Any organisation or person interested in being a party to this review is invited to register that interest with the Commission (so that all future releases can be directed to registered parties) together with brief comments upon any or all of the terms of reference gazetted above. Such response should be with the Commission by February 15th 1985. After this date parties will be advised of the time frame for submissions to the public hearings deemed appropriate and given guidelines for assistance in preparing their submissions to the Commission.

Dated at Wellington this 13th day of December 1984.

M. J. MCLEAN,

Secretary, Industries Development Commission.
