

fisheries requirements, for farmers to apply up to 150 m<sup>3</sup>/ha/week over their irrigable area.

**11. General Conditions of Supply**—Water will be supplied to those areas for which water availability agreements have been drawn up.

**12. Factors Affecting Supply**—Supply may be limited by unavailability of water from the drains due to water right restrictions, pump failure or reduced well yields. A roster will be imposed on each drain.

**13. Scheme Programme**—The required wells will be sunk and pumps installed within 1 year of approval. Subject to Government approval and allocation of funds, it is planned to complete the scheme works in time to have water available to the whole irrigation district for the 1984–85 irrigation season. It is expected that some parts of the scheme may receive water in the 1983–84 irrigation season.

**14. Required Voting Majority**—The Minister of Works and Development confirms that the required minimum of 80 percent of the valid votes cast in the poll were in favour of the proposed irrigation scheme.

**15. Irrigation Season**—The irrigation season shall be between 1 September and 30 April. Scheme charges incurred over the preceding 12 months will be invoiced as at 30 April of each year and due for payment without penalty within 28 days of date of invoice.

**16. Minimum Area**—The minimum aggregate area of land occupied by any occupier that it is proposed to include in the proposed irrigation scheme shall be four (4) hectares.
