Industries Development Commission Notice No. 1984/1—Review of the Egg Industry

(1) In a letter of 31 May 1984, the Minister of Trade and Industry requested the Commission to undertake a review of the egg industry in New Zealand.

(2) The Minister's letter reads:

"Recent discussions with the Poultry Board and with the industry generally have highlighted a number of problems currently facing the egg industry and the Government has decided that a review of the industry should be undertaken by the Commission.

It is the Government's wish that the industry be reviewed with the objective of promoting competition and efficiency in the production, distribution and marketing of eggs in the public interest.

Accordingly I request the Commission to inquire into and report with recommendations on:

- (a) the present structure of the egg industry with regard to the efficient use of resources in the industry;
- (b) any changes to the present structure that are desirable or necessary in the public interest;
- (c) without restricting the generality of the foregoing to examine and make recommendations in particular on:
 - the pricing and marketing system
 - the entitlement scheme
 - the location and level of egg production noting current imbalances and surpluses
 - the administrative structure of the industry
 - the exporting and importing of eggs and egg products
- (d) the implementation of the review's recommendations including any legislative changes required.

It is the Government's desire that, in conducting the review, the Commission should consult all interest parties, including the Poultry Board, the egg producing industry, egg marketing agents, poultry feed suppliers, users of eggs and egg products, the Consumer's Institute and relevant Government departments.

The Commission is requested to submit its report on the egg industry to Government by 28 February 1985."

(3) The Commission invites parties who have an interest in any of the areas covered by the above to register that interest in writing with the Commission not later than 22 June 1984.

Registration should include the following:

- (a) Name and address of party registering interest;
- (b) Status of interest under one or more of the following classes:
 - Producers;
 - Distributors;
 - Suppliers to the industry;
 - Users of eggs and egg products;
 - Other (specify).

(4) The Commission will, as soon as possible, distribute guidelines for submissions from interested parties and advise the timetable and procedures it intends to follow in undertaking this review.

(5) These procedures will involve the preparation and public distribution of a draft report based on the submissions received.

That report will then be the subject of a public hearing following which the Commission will prepare its final report.

Dated at Wellington this 7th day of June 1984.

P. J. DAWSON,
 Secretary, Industries Development Commission.
