Dates of Hearing: At Christchurch October 2, 3, 4, 5, 6, 9, 10. At Hastings—October 25, 1984. Written submissions December 1984.

DECISION

The Tribunal called for persons who wished to apply for a commercial FM warrant for Christchurch to file applications but the Tribunal did not predetermine whether one or more warrants would be issued.

The Applicant—Canterbury FM Broadcasting Ltd. sought a warrant to broadcast from 6 a.m. to midnight Monday to Friday and for 24 hours on Saturday and Sundays. At the end of 2 years the station intended to broadcast 24 hours continuously.

The station was said to be musically oriented and would broadcast familiar consistent and contemporary music with a high ratio of current music and less reliance on old or "gold" records. It would not emphasise high profile personality radio. The company considered that FM in the early stages mainly attracted 18–39 age group by the nature of FM and its focus on music.

Because of the commercial risk of commencing FM in Christchurch it believed it could not “narrowcast” for the adventurous in its format. It considered the first FM radio stations in Christchurch would have to broad appeal.

If there were to be 1 FM warrant, Canterbury FM would serve an 18–39 audience. If there were to be 2 warrants, one would cater for an under 25 audience, the other competing for the 20–35 audience with a spill-over up to 39. Canterbury FM would fulfill that role.

It said that 3ZM had been appealing to young people in Christchurch but had succeeded largely by default as Radio 3ZM had targeted itself to more of a music/news radio station while 3ZB remained the traditional community middle of the road operation.

Radio Avon's recent programme changes, it claimed, showed it was caught between the younger targeting of 3ZM and the middle of the road 3ZB.

If the application were successful, the applicant company would increase its authorised share capital to $550,000. The shareholders would be the Christchurch Press Co. Ltd. (publisher of The Press newspaper) holding 200,000 1 dollar shares, Metropolitan FM Broadcasting Ltd, holder of a commercial FM warrant in Auckland, 200,000 shares, and T. J. Ward, a proposed sales executive, 20 percent each and the remaining 40 percent would be held by the company and would train an assistant to take over from him.

Mr Wesney would be general manager and programme director of the company and would train an assistant to take over from him. The company would have a separate sales organisation from Radio Avon AM.

Radio Avon Ltd. proposed that it retain its existing warrant indefinitely.

The applicant favoured the grant of a warrant for 3ZM on 200,000 shares.

The Broadcasting Corporation of New Zealand applied for a hour a day popular music station, 3ZM FM, directed towards needs of an audience of 15–30 years which it said would complement other radio services available in Christchurch. The programme would, in broad principle, maintain the programming policy followed by 3ZM in the existing AM station operated by Radio NZ in Christchurch.

It expected its current audience share would not be duplicated in the short term; no change in the programming philosophy, and indicated the format changes proposed were not radical. The station would provide concise information, including special prepared news bulletins from Radio New Zealand sources and special information packages.

The applicant proposed a period of 90 days to simulcast the station on 3ZM AM as a suitable duration to promote the use of the station’s programme services on the new medium. At that time the AM frequency would be relinquished.

3ZM-FM would maintain hourly commercial content at estimated 6 minutes in the first year, 7 minutes in the second and 8 minutes per hour in the third year. The present self-imposed minimum content is 12 minutes per hour.

Mainland FM Ltd.—The applicant proposed a company with capital of $500,000. The 3 promoters, Messrs G. W. Parson, M. L. Ballantine, K. Foley and G. G. McKay (all from Radio Hawke Bay Ltd.) would hold 20 percent each and the remaining 40 percent would be held by the company and would train an assistant to take over from him.

Mainland FM Ltd. would be the Christchurch holder of an AM station operated by Radio Avon Ltd. wishes to establish a FM station which would combine with local capital.

There were two new entrants both involving partly local owner and partly ownership from outside the area. Canterbury FM 3ZM proposal is a combination of the Auckland station Metropol Broadcasting (Magic 91) and the publisher of The Press newspaper which together would hold 80 percent of the shareholders and balance of 20 percent would be held principally by a number of Christchurch shareholders.

Mainland FM was promoted by shareholders of Radio Hawke Bay Ltd. which operates the private commercial FM station Hawkes Bay. They too would combine with local capital.

In respect of formats, 3ZM proposed it would appeal to a 15–35 age group but, if it were the only station to receive a warrant, it would extend the format to embrace a wider age group of 15–39.

Radio Avon essentially was to serve an older audience, and would discuss the exact demographic proposed but essentially it was not an appeal significantly to an audience under 30.

After hearing a tape which demonstrated the range of music, the Tribunal concluded the station would appeal mainly to an over 30 audience.

Canterbury FM had an 18–39 format and Mainland FM to serve a 15–35 age group.

Section 80—In considering the application and before determining whether or not to grant the application the Tribunal is required to have regard to the following matters, as far as they are applicable:

(a) The extent to which the proposed service is desirable in the public interest.

The BCNZ application was an attractive one. It would produce a proven popular programme with some slight modification for the FM band. It was said to be an ideal of attracting a wide audience by programming and effective marketing and its audience predominantly between 15 and 30, would be a loyal one cross readily to the FM band.
he station is a well targeted one and did not tend to stray beyond its target audience. It would have difficulty reaching its projected 20 percent of the potential audience 15-30 but would have a better chance than most stations of achieving its target because the younger age groups accept more readily the change in listening habits involved in the use of the FM band on their receivers.

Canterbury FM Ltd. proposed an 18-39 target age group. It claimed its programmes would be an alternative to AM programmes even if, as we commented in Northland, the music played was not substantially different. It emphasized consistency and familiarity in music selection.

he Canterbury FM submission opposed the grant of 2 warrants as certain to stray beyond the target audience for the Radio Avon Ltd. had been confident of the need for a continued music service to a complementary programme but with some overlapping of audience so that many listeners have a second choice. It tends to strengthen the popularity of the FM band. It argued that its target age group would encompass people who would more readily change to FM than would Music 90 FM’s target audience.

We believe the public interest is likely to be best served by having choices between commercial stations on both FM and AM frequencies. After fully considering all the evidence and proposals of the various applicants it concludes the most desirable combination would be best achieved (albeit with some financial stresses) by ZJM-FM and Canterbury FM Ltd.

(b) The economic effect which the establishment of the station to which the application relates is likely to have in respect of broadcasting stations already in operation

The grant of the Corporation’s application would not adversely affect any other station.

We accepted Mr Egerton’s evidence, for Canterbury FM that there was some room for increased revenue to be drawn from the market. Radio Avon predicted a real increase on the introduction of FM of about $300,000. The extent of it was doubt for the reasons given by the Corporation’s witness, M. J. P. Dunlop. His evidence for the Corporation was based on shares of the commercial audience: 3ZM—32 percent, 3ZB—45 percent, and Radio Avon—22 percent.

Mr Dunlop argued that an additional commercial station would impact adversely on existing operators. In Auckland there were currently 95,900 people per commercial station; 89,267 in Wellington and only 80,867 in Christchurch. A fourth warrant would reduce this to 66,570. If Canterbury FM existed on a lower turnover per capita than both Auckland and Wellington and the Christchurch population had been declining since 1976. Christchurch radio currently extracted 17.5 percent more advertising revenue per capita than Auckland.

Mr Dunlop’s calculation of the effect on each of the existing stations of the grant of an additional warrant was as follows:

If Music 90 FM were granted a warrant and gained a 9 percent share of the audience, the effect on 3ZB would be $134,542 loss of revenue. The impact of 3ZM would be $142,611. (The total effect on Radio New Zealand would therefore be $277,153), the effect on Radio Avon AM would be $228,829. (There was some evidence that suggested the effect on Radio Avon AM would be greater than that).

His estimates were based on Music 90 FM achieving half of its proposed revenue, i.e. $505,982 instead of $1,070,000. It would cause the least impact on the Corporation stations.

The grant of the Mainland FM application with a 15 percent audience share and an estimated income of $656,680 (which was close to their projected $692,000) would have an effect of $427,000 on 3ZM and $228,000 on Radio Avon. There would be no effect on 3ZB.

The Canterbury FM application achieving a 13 percent share would generate income of $689,227 which is close to their estimate of $600,000. The effect on 3ZB would be $134,542, on 3ZM $249,576. The total impact on the Corporation would be $384,118. It would however cause a loss of $305,109 revenue to Radio Avon.

A grant to Canterbury FM would have the greatest effect on Radio Avon ($305,000).

Mr Dunlop’s figures cannot be a precise prediction in dollar terms but they do indicate a relative effect on each station of each scenario.

We are not certain that the audience shares predicted by Mr Dunlop would be sustained in the event. We accept some evidence which predicted a lower audience cross-over to ZJM—used to hold) and reduce the financial impact of the new FM station.

We believe Radio Avon has the potential to improve its present share of audience anyway. After FM starts up, with proper fine tuning, Avon AM could secure its profitable niche in the market with an AM format appealing to a younger demographic than 3ZB and with an appropriate music/news/information mix. We expect in that case it should gain audience from 3ZM and 3ZB (audience it used to hold) and reduce the financial impact of the new FM station.

The effect of a Canterbury FM warrant on 3ZB and 3ZM, by Mr Dunlop’s calculations, is only $107,000 more than the effect of a Music 90 FM warrant on the Radio New Zealand stations.

Although Mainland FM would not affect 3ZB, in Mr Dunlop’s analysis, it would have the greatest effect on 3ZM ($427,000), the biggest effect on the Corporation ($427,000) and the second greatest overall effect on existing stations ($653,000).

The ultimate extent and distribution of the advertising dollar will depend on programme performance and appeal cannot be accurately assessed, although in this case there is no doubt that existing stations will lose some revenue when 4 commercial stations are competing instead of the present three.
We have concluded that the benefit of introducing another element of competition to the Christchurch market outweighs the adverse effect on the other stations' revenues. We also consider that the effect will take time as the FM stations will not at first attain the audience and revenue goals that, for instance, Mr Dunlop’s analysis estimates.

(c) The effect which the establishment of the stations to which the application relates will have on broadcasting services provided by the Corporation in the public interest

The Corporation did not oppose the grant of another FM warrant but did oppose the introduction of a new operator. This means that the Corporation was not opposed to the Music 90 FM application.

Evidence was put to us by the new entrants suggesting that there was great potential in the market. For instance, Canterbury FM Ltd. suggested there was a potential growth of $820,000. Mr Dunlop, for the Corporation, estimated that a 6 percent expansion would be made in the market or the new entrants would take money from existing stations and not attain their goals.

Mr Dunlop said that the four ZB stations contributed 44.7 percent of Radio New Zealand’s income in 1970/71 and that had now declined to 33.7 percent over the 14 year period. With the erosion in the licence fee pressure was put on the Corporation’s revenue.

The Corporation has the advantage in that it will operate a 2ZM-FM network with 2ZM in Wellington. Its present position is not a typical one. If Radio Avon were performing as well as it might (and has) Radio New Zealand revenue would already be considerably lower.

The Tribunal found that the attractiveness of the Canterbury FM proposal for Christchurch outweighed the effect on the Corporation, and on Radio Avon.

(d) The needs of New Zealand or the locality or localities proposed to be served in respect of broadcasting services

All the applicants would bring to the area the added advantage of broadcasting in the FM mode. In the case of 3ZM there will be no other existing need met. (Balanced against that is the advantage that there would be no effect on the existing services by the grant of that application.)

Radio Avon’s Music 90 FM fills a need among an older audience some of whom have been less well-served by current FM stations in New Zealand.

The Mainland FM application would be a rival for much of the audience of Radio 3ZM. In this sense that applicant brings few advantages and more disadvantages than 3ZM. It would, in our judgment not serve the market any better than 3ZM FM.

From past experience it is clear that in terms of needs the demand in fact comes from the younger age group in the sense that they will use the services when provided. The older age groups tend not to use such services immediately and probably growth in that area lies only with time and the ageing of the audience which has been used to tuning to FM. This could begin to change with the introduction of the Concert Programme on FM later.

Radio Avon proposes some concentration on news which is one of the requirements of the older audience, but the FM station would not hope to match the whole informational gamut of the AM stations such as Radio Avon AM and 3ZB.

A grant of a second Christchurch warrant to Radio Avon Ltd. would not stimulate the radio performance in that city. A grant to one of the new entrants will bring in some new aggression in programming.

A grant to a new entrant will promote and stimulate the development of FM broadcasting. The consequent combination would fill more need than a possible future of 3ZB and Music 90 FM and 3ZM-FM.

Allowing Radio Avon AM to continue with Music 90 FM would mean there would be no new competitive element and could possibly deny another private operator access to the South Island.

(e) The financial and commercial ability of the applicant to carry on the proposed service

We were impressed with Mr McElhinney and Mr Celmis, respectively manager and programme director of 3ZM. It is obvious that the skills of these men and other Radio New Zealand executives have set a standard for others to emulate in both programming and marketing in Christchurch.

The Corporation has displayed its financial and marketing abilities in Christchurch in recent years. The financial arrangements appear to be adequate.

Radio Avon Ltd. has displayed financial and commercial ability since its inception. It has been suffering lower ratings more recently, although recently it seems to have been in an immediate position which tends to be cyclical and to depend on current management and programming activities rather than reflecting the financial and commercial ability of the applicant overall. It also reflects improved performance by Radio New Zealand.

Mr Wesney was the key man for Music 90 FM. While we were impressed with his background and experience, his recent radio programming activity was limited and the new station seems dependent, not only on those skills but also on his capability as managing director which would involve marketing and other responsibilities. The management support resources for him seemed too slight.

With regard to Canterbury FM Ltd., it relies on the expertise in radio of the Metropolitan/Magic proprietors in Auckland and of local directors including those with business experience of The Press newspaper company in Christchurch.

Likewise Mainland FM will use the experience of its successful operations in Hawkes Bay.

Both have had to meet intense competition but the extensive experience of Messrs McKay and Egerton will be invaluable.

To some extent both the new entrants depend on consultative expertise from the north. Since this also applies to some extent to Radio New Zealand, on balance nothing seems to rest on that aspect. Consultation with stations in other markets or people experienced in programming in other markets is a wise course which is adopted by many stations from time to time.

The Mainland FM application was not as well researched and the depth of expertise not as impressive as with Canterbury. Mr Parsonage is obviously capable but he would be rather too much the linchpin in Christchurch, and at the same time responsible for the station in Hawkes Bay. We did consider too much emphasis was placed on night-time revenue, mainly because the projections by Mr Ballantine lacked the depth of research and adequate time for reflection.

(f) The likelihood of the applicant carrying on the proposed service satisfactorily

We are satisfied all the applicants are likely to carry on the service satisfactorily.

We are not satisfied on the evidence that the alleged failure of Metropolitan to adhere to its promised target audience in the Auckland market should be drawn into this application.

The likelihood of any applicant carrying on the proposed service satisfactorily does depend to some extent on financial results. In this respect we are somewhat concerned about the practicality of the audience share proposed for Radio Avon Ltd. in the initial years and would expect that the FM operation would be unprofitable for several years and could be a considerable drain on the AM operation.

We have some doubts about the ability of Mainland FM to attract the audience that they hope to shift to FM. We do not see how they can match any initial losses. Radio New Zealand would provide 3ZM-FM with research staff and other resources.

(g) The results of any survey available to the Tribunal

The evidence produced by the Corporation showed that 3ZM was supported mainly by 10-30-year olds and that 15-19-year olds are heavy listeners. There is a low level of dissatisfaction in Christchurch and a low level of changeover between stations. Furthermore, more of the audience share proposed for Radio Avon Ltd. in the initial years would expect to shift to FM (70 percent) than is the case with 3ZB (49 percent), Radio Avon (47 percent) and YA(45 percent).

Their proposed format is reflected in the survey. The 15-30-age group were attracted by a top 40 format the contemporary album and the results show this to be the attraction of the listeners.

There was a strong view that there was room for improvement in sound quality.

The McNair Survey produced by Canterbury FM provided similar useful background information on the stations and their audience.

(h) The requirement that frequencies be best utilised in the public interest

The ZM application will release an AM frequency which could be used in Christchurch for some other purpose in the future.
The Corporation proposed simulcasting for a period of 90 days. We believe that this is a reasonable period in the circumstances for promotion of the FM station on the AM station and we will permit simulcasting for that period.

The Radio Avon application involves the retention of the AM operation.

Where grants have been made elsewhere, the applicant has accepted that it should cease operations within a period defined under the regulations not exceeding 5 years. The usual practice is to issue a new warrant in which the existing AM operation becomes a supplementary warrant and expires within a stated period.

In this case the applicant has proposed that on grounds of special circumstances it should be permitted to retain its AM warrant indefinitely.

We do not find those special circumstances made out but in view of the type of programming which is of a pioneering nature among an older audience, we would have considered it reasonable for the existing AM operation to continue for several years, as there would be a difference between the formats of the two stations.

(i) The desirability of avoiding monopolies in the ownership or control of news media

There is no question of a monopoly in any of the particular applications. However, this is a convenient point to consider the media involvement.

The Canterbury FM application involves a 40 percent shareholding by both the publisher of The Press newspaper and Metropolitan FM Broadcasting, warrant holder of Magic 91 in Auckland.

It has become customary in AM warrants to limit news media companies, which includes both newspaper companies and radio companies, to a maximum of 30 percent interest. However, it has been accepted that applications by newspaper companies for commercial FM warrants should be considered on their merits and this is indeed adopted as part of Government policy. The Tribunal’s reasons for recommending this policy were clear in the FM report.

The 2 major shareholders were prepared to undertake to protect the editorial independence of the station and its editor, not to sell their shares without consent and not to take shares in each other.

In these circumstances and because the radio station is in another centre, we would impose a condition that the news media ownership limit be 30 percent but consent to the two named companies having a 40 percent interest each, for so long as

(1) They do not take shares in each other (either directly or indirectly)
(2) The ownership of those 2 companies does not change to the extent that any shareholder which is a news company (as will be defined in the warrant) gains a prescribed interest in the warrant.

As far as the ownership regulations are concerned, the company would have to ensure that compliance was achieved.

In relation to the ZM and Radio Avon applications there would be no new news service introduced.

In the case of the other 2 stations there is a possibility of an additional service, although it is also possible that the successful applicant may use a Radio Avon service.

Radio Avon has a significant financial interest in the companies holding the other 3 warrants in the South Island. The grant of their application would involve their having an interest in 5 warrants, this is a disadvantage of the Music 90 FM proposal.

(j) The hours during which the applicant proposes to broadcast programmes

The Canterbury FM proposal is for 18 hours on weekdays and for 24 hours in the weekends. The broadcasting hours would be increased to continuous broadcasting after 2 years. We do not believe the additional 6 hours to be so important as to require a condition.

The other applicants propose a continuous service.

(k) The extent of advertising matter which the applicant proposes to broadcast

ZJM estimated 6 minutes per hour in the first year, 7 minutes in the second year and 8 minutes in the third year. This was less than that proposed by Canterbury FM and Radio Avon and the same in the first year as Mainland FM in its establishment period.
Mr O'Brien's argument on the correct interpretation of regulation 14A was compelling.

We accept that 3ZM AM warrant would otherwise have had to be surrendered within 4 years if the Corporation had not indicated that was prepared to surrender the warrant. We cannot accept that it was the intention of the regulations to require a warrant holder who was an applicant to divest itself of all commercial AM warrants held by that warrant holder in that area. Nor do we consider that is what the regulation says. The use of the singular "warrant" indicates that it is the 3ZM AM warrant which has to be surrendered.

The simulcasting is of short duration continuing for promotional reasons only it will be permitted.

It will be a condition of the grant of the warrant to the BCNZ for 3ZM that the AM warrant be surrendered from the commencement of broadcasting by 3ZM-AM. The Tribunal will grant a 90 day authorisation for the existing 3ZM operation. We consider this more appropriate than granting a FM warrant with a supplementary AM warrant for such a short period.

Radio Avon Ltd. may have needed to have consents in relation to directors having a directorship in more than one company. However, the directorships proposed do not appear to create a problem.

Conclusion—The Tribunal considers the BCNZ application the best of the four. It had the least disadvantages and was viable.

Of the other 3 only the Canterbury FM application clearly commended itself. We consider the advantages of this applicant as an additional station outweighed the disadvantages which were primarily the effect on the existing stations—section 80 (b) and (c).

For the reasons given the Mainland FM and Music 90 FM proposals were not as attractive.

Mainland FM would serve an audience on FM which 3ZM could better serve.

Music 90 FM had weaknesses which we have alluded to and its viability was doubtful.

For these reasons, and those given earlier in this decision, the Tribunal grants the BCNZ and Canterbury FM applications and declines the Radio Avon and Mainland FM applications.

Conditions:

We have decided not to rule on timing at this stage for commencement of FM broadcasting. The successful applicants may make submissions. Normally we would have left the parties to make their own pace but 2 other considerations may apply—

(1) The BCNZ is to provide facilities for co-siting. Negotiations may take time and should not put Canterbury FM at a disadvantage.

(2) Existing stations will be affected by the new entrant. It could be argued that 3ZM should be able to start on FM at the same time as, or earlier than, Canterbury FM.

A condition may be inserted to deal with these matters after hearing submissions, the parties cannot agree.

Otherwise the usual conditions will apply including:

(1) An identical definition of coverage objectives
(2) Hours as applied for
(3) Simulcasting of 3ZM AM-FM for 3 months
(4) Adherence to promised formats
(5) The usual clauses for networking and technical standards for Canterbury FM.

Warrants will lapse if not taken up within 18 months or such further time as the Tribunal may approve.

News media ownership in Canterbury FM (see earlier reference).

The initial term of the warrants will be 3 years.

Co-opted Member—The Tribunal co-opted Mr Henshall as a person whose qualifications or experience was likely, in the opinion of the Tribunal, to be of assistance to the Tribunal in dealing with the application. He took part in the hearing and the deliberations of the Tribunal but the decision is that of the permanent members.

Dated the 15th day of July 1985.

Signed for the Tribunal:

B. H. SLANE, Chairman.
acclimatised fish from any boat in any of the following waters, unless
from the 1st day of October in any year to the 31st day of May in the next succeeding year (both days inclusive):

(a) in respect of that portion of the Moeraki River that lies upstream from Lake Moeraki, and the Windbag Stream, from the 1st day of September in any year to the 31st day of March in the next succeeding year (both days inclusive);
(b) in respect of all other waters draining into the Tasman Sea between Makawhio Point and Puysegur Point (but excluding all those waters draining into Deep Cove, Doubtful Cove, via the hydro-electric outfall from Lake Mana­pour), from the 1st day of September in any year to the 31st day of May in the next succeeding year (both days inclusive).

Fishing for quinnat (chinook) salmon by licence holders shall be permitted during the open season which shall be—

from the 1st day of September in any year to the 31st day of March in the next succeeding year (both days inclusive):
from the Nevis River.

(2) No licence holder shall take more than 2 quinnat (chinook) salmon in total from Lakes Moeraki or Paringa for the duration of the open season for quinnat (chinook) salmon in respect of those waters.

4. Restrictions on methods of fishing—(1) No licence holder shall take acclimatised fish by any means other than with one rod and running line, or use for the purpose of taking acclimatised fish—

(a) Any strokehauling or foulhooking gear; or
(b) Any hook which has a distance greater than 14 mm between the point and the nearest part of the shank or hook; or
(c) Any lure having attached thereto more than 2 hooks, which may be either single hooks or multiple hook units; or
(d) More than 2 lures; or
(e) Any unportsmanlike device:

Provided that this subclause shall not prohibit the use with artificial fly of a dropper having only 1 hook (which may be either a single hook or a multiple hook unit) or the use of a landing net to secure any acclimatised fish lawfully taken.

(2) No licence holder shall foulhook or attempt to foulhook any acclimatised fish.

(3) No licence holder shall take acclimatised fish with a set rod, unless—

(a) He is fishing from a boat of which he is the sole occupant; or
(b) Where there are 2 or more occupants of the boat, he has the actual physical control of the navigation of the boat; or
(c) He remains within 15 metres of his rod.

(4) No licence holder who is actually fishing for acclimatised fish with a rod and running line from a boat shall have in his possession any other assembled rod.

5. Restrictions on lures—(1) Subject to subclause (2) of this clause, no licence holder shall, in fishing for acclimatised fish, use—

(a) Any lure containing the feathers of any bird absolutely protected under the Wildlife Act 1953; or
(b) Any lure, any medicated or chemical preparation other than—

(i) A preparation used solely for the purpose of floating a dry artificial fly; or
(ii) With a bait of natural minnow a chemical preparation in the nature of formalin or other preservative; or
(c) Any mollusc, or the freshwater crayfish (koura), or the creeper, or the huhu or matai grub, or fish roe, or any imitation of fish roe:

Provided that the shell of any mollusc may be used in the preparation of an artificial minnow.

(2) No licence holder shall, in fishing for acclimatised fish, use in any water specified in column 1 of the Schedule to this notice any lures other than those specified for that water in column 2 of that Schedule:

6. Restrictions on use of boats—(1) No licence holder shall fish for acclimatised fish from any boat in any of the following waters, unless the boat is securely anchored or otherwise secured, namely:

(a) That portion of the Clutha River that lies within the district the upstream limit of which terminates at a point 400 metres downstream of the Lake Wanaka outlet launching ramp breakwater on the true right bank as marked by landmarks on both banks:

(b) The Hawea River;
(c) Those portions of the Waiau River and its tributaries that lie within the district, with the exception of that portion of the river which is between Home Creek and the eastern boundary of the district:
(d) Lakes Moke, Kilpatrick, Reid and Dispute:
(e) That portion of Lake Te Anau that lies within 300 metres of the water's edge, commencing at a point known as Blue Gum Point north of the Te Anau township and extending along the eastern side of the lake to Marakura Yacht Club house and clubrooms:
(f) Within a radius of 200 metres from the midpoint of the meeting line of Windbag Stream and Lake Paringa:

(g) Within a radius of 200 metres from the midpoint of the meeting line of Moeraki River where it flows into Lake Moeraki, and Moeraki Lake.

(2) No person shall fish from, or tow or troll any lure from, any mechanically propelled or mechanically drawn boat on Lake Hayes or Lake Johnson.

7. Bag limit—(1) No licence holder shall on any one day take more than 3 acclimatised fish from any river flowing into any of the Lakes Hawea, Wanaka, Wakatipu, Te Anau, or Manapouri, or from the Nevis River.

(2) No licence holder shall take more than 2 quinnat (chinook) salmon in total from Lakes Moeraki or Paringa for the duration of the open season for quinnat (chinook) salmon in respect of those waters.

8. Size limit—(1) No licence holder shall have in his possession—

(a) Any Atlantic salmon (Salmo salar) that does not exceed 35 cm in size; or
(b) Any other acclimatised fish that does not exceed 30 cm in size.
(2) For the purposes of this clause the expression "acclimatised fish" does not include perch (Perca fluviatilis).

9. Hours of fishing—(1) A licence holder may fish between the hours of 6 a.m. and 8 p.m. in Lake Moeraki and Lake Paringa and any rivers or streams flowing into or out of those lakes during the month of March.

(2) Except as provided in subclause (1) of this clause a licence holder may fish in any waters during the open season at any time of the day or night.

Approved at Wellington this 26th day of July 1985.
B. T. CUNNINGHAM,
for Director-General of Agriculture and Fisheries.
