The complete proposed timetable may be inspected at the Ministry of Transport, Third Floor, Pearce House, Wellington and Mount Cook Depot Courtenay Place, Wellington.

Dated at Wellington this 5th day of November 1985.

J. MOIR, Secretary.

No. 5b Transport District Licensing Authority.

The Minister of Trade and Industry in accordance with Amendment No. 3 to the Import Control Regulations 1973(5) hereby presents the revised guide notes to the Import Licence Tendering Scheme:

INTRODUCTION

1. These notes set out the provisions for tenders called from time to time for the issue of global import licences including those under industry development plans and ANZCERTA. Special provisions might be introduced for tendering under industry development plans from time to time. Other guide notes cover the special provisions for tendering under the Australia - New Zealand Closer Economic Relations Trade Agreement which relates to goods from Australia only.

2. Import licence tendering derives from the Import Control Regulations 1973, Amendment No. 3 and is administered by the Department of Trade and Industry. Except as may be stipulated in industry development plans and ANZCERTA, Special provisions may be introduced for tendering under industry development plans from time to time. Other guide notes cover the special provisions for tendering under the Australia - New Zealand Closer Economic Relations Trade Agreement which relates to goods from Australia only.

3. The Registrar of Import Licence Tendering administers tendering. The address is P.O. Box 3146, Wellington (telephone 720 030, telex NZ 31530).

4. The objectives of import licence tendering are:
   • to allocate import licences on an open and competitive basis;
   • to introduce more import competition into the domestic production sector;
   • to widen the base of information available on industry competitiveness so as to facilitate the move away from import licensing to the Tariff as the main means of protection.

5. Import licence tendering is open to all entities which are entitled to obtain an import licence in accordance with the Import Licence Schedule reference to "Who Can Apply", i.e., persons or firms domiciled in New Zealand.
REGISTER OF TENDERERS

6. A Register of Tenderers is maintained by the Department. Each tenderer is allocated a confidential registration number. The registration number must be entered on all bid forms submitted. The Registrar may require a tenderer to provide evidence of the intention and ability to import the goods bid for. If satisfactory evidence is not forthcoming the tendering bids could be declared invalid and the registration cancelled.

7. Tenderers on the Register receive free of charge all mailings of the Calls for Tenders, other notices, confirmation of the confidential registration number and a supply of bid forms.

8. Tenderers who submit bids without first having been allocated a registration number will be given their number at the time bids are opened. They will be required, however, to complete the official registration application before tendering again. The registration number will only be supplied when the Tendering Section has all the information it needs from a firm to be able to open the scheme. They should use this number in tenders thereafter.

Any Change to Information Held on the Register Should Be Notified to The Registrar

CALLS FOR TENDERS

9. Calls for Tenders will specify the tender number, the item code, the tariff item, a brief description of the goods involved, the total number of licence units to be tendered under each tender number (each unit is for $2,000 unless otherwise stated). Properly completed bid forms may be obtained from any office of the Department. Each form is designed to allow a total of 2 or more bidding panels may be used for the same tender number. The tender number blocks need to be completed in each case. Item codes and tariff numbers are not acceptable. To complete the bid form:

(a) Fill in the correct tender number from the Gazette in each of the bidding panels used.
(b) Enter the number of licence units sought (each unit is for $2,000 c.i.f. unless otherwise stated).
(c) Enter the amount bid per unit. Zero bids may be made. Zero bids should be entered as 0. Other bids should be in whole dollars.
(d) If an information label is attached to the bid form the bidder needs only complete the bid number and sign the form. A form with an information label may be photocopied for the submission of other bids providing they are all the one entity. Each such form must bear an original signature and the photocopy must be legible.
(e) Where an information label is not attached, the registration number and all other information required must be entered by the bidder. Failure to enter the registration number will invalidate the bids. Where, however, a registration number has not yet been allocated to the bidder, bid forms may be submitted with the registration number still blank on the first occasion only. A number will be allocated to the bidder when the tender is opened but will not be communicated to the bidder until he has officially registered. Adjustments may be necessary following communication of the registration number. The overall provisional results are available to tenderers in any particular tender number will be amalgamated into one licence. The premiums due for such licence will likewise be amalgamated and be payable as a 10 percent deposit and a 90 percent balance.

ANNOUNCEMENT OF RESULTS

26. The results of each tenderer’s bids are sent out on a computer printed letter. These are usually ready within a month of the closing of bids. Not until the result letters are ready for despatch will results be given over the telephone.

27. A period of 14 days is allowed for questions to be raised about the results contained in the letters. The results as shown in the letter are therefore provisional. Adjustments may be necessary following the 14-day period and the final outcome is as set out in the invoices which follow. The overall provisional results are available at offices of the department but the final copy is not produced until after the 14-day period.

IMPORT DOCUMENTATION

14. Tender import licences are frequently issued on a Tariff Item or Statistical Key basis. Port Officers will determine the appropriate Statistical Key for the goods from the descriptions of goods on overseas suppliers’ invoices provided the descriptions are sufficiently specific. In any case where importers consider that the descriptions on the overseas suppliers’ invoices are insufficient for Customs Department purposes, additional material should be supplied to enable Statistical Keys to be verified. This will avoid delay in clearance.

CLOSING OF BIDS

15. Bids must be received by the Registrar of Tenders in Wellington by the closing date and time specified in the Call for Tenders.

16. Bids may be submitted by post, courier, the Post Office Box system or by hand. A tender must be in whole numbers and licences could go astray. This avoids bids being opened in error.

17. Withdrawals and substitute bids will be accepted up to 10 a.m. the day after the closing date.

18. Substituted bids must have a covering note explaining the change and the form should be clearly marked Substitute and be filled out correctly. The registration number must be completed on other than the official bid form. Bids should be addressed to the Registrar of Tenders, P.O. Box 3146, Wellington, and envelopes should be clearly marked “Import Licence Tender” in the bottom right hand corner of the envelope. This avoids bids being opened in error.

19. The Registrar may extend the closing date where necessary.

LATE BIDS

20. Bids received after the closing time will not be accepted. A photocopy of late bids and envelopes will be sent to the tenderers concerned.

PROCESSING OF BIDS

21. Bids are opened under the supervision of a Justice of the Peace. Each bid is given a security number. A computer tape is then prepared. The registration number is entered into the computer at this stage to identify each tenderer and to produce the correct name and address on result letters, invoices and licences. It is extremely important that the correct registration number appear on all bid forms. Until the bids are processed and a computer print-out is obtained, it is not possible for staff to confirm the arrival of particular bids. It is also important that any change of company name or address be communicated to the Registrar otherwise mail and licences could go astray.

INVALID BIDS

22. The following aspects, individually or together, are the main factors making a bid invalid:

(a) No tender number recorded or other information lacking.
(b) No Registration number entered by a registered bidder.
(c) Bid not legible.
(d) Bid not signed.
(e) Late Bid.
(f) Bidder does not meet requirements under Who May Bid.
(g) Non-existent or past tender number entered.
(h) Bid made on incorrect type of bid form.
(i) Bids from overdue debtors.

DETERMINATION OF RESULTS

23. The highest bids win the licence units available. If insufficient units are available to satisfy the requirements of the lowest winning bidder, that tenderer may forgo accepting the licence offered. These units may be offered to unsuccessful bidders.

24. Where the lowest winning bids are all at the same rate per licence unit, the computer is programmed to make a random choice of the winning bid.

25. The value of all winning bids made by a tenderer in any particular tender number will be amalgamated into one licence. The premiums due for such licence will likewise be amalgamated and be payable as a 10 percent deposit and a 90 percent balance.
Publication of Results

28. Results are published in the New Zealand Gazette. These become available as soon as possible after notification of individual results.

29. Copies of the Gazette may be obtained on a subscription basis from the New Zealand Government Printer on a March year basis on payment of that year's subscription. Payment should be made direct to the Subscription Clerk, Government Printer, Private Bag, Wellington. Alternatively, copies may be obtained through the bookshops of the Government Printer.

Waiving of Bids

30. The Registrar may use his discretion to waive bids where a gross error is brought to his attention by the bidder. Requests for the waiving of a bid must be made in writing within the 14-day period allowed. Where a bid is waived after the announcement of provisional results, a substitute bid will not be accepted. Adjustments may be made to the final results. Unsuccessful tenderers could therefore receive the adjustments for waived bids that have been made. The 10 percent bank cheque, money order, or cash deposit is required promptly from such bidders (see below).

Payment of Premiums

31. The results letter shows the total premiums due (apart from any adjustments referred to above). A 10 percent non-refundable deposit is payable within 14 days of the date of the results letter. Payment must be made by return mail (including cash or personal cheques) for amounts totalling more than $100. For amounts of $100 or less payment may be by money order. The deposit is non-refundable except in exceptional circumstances.

32. Failure to pay the 10 percent deposit by the 14-day period will result in the suspension of the bidder from further tendering until the 3-month payment date at which stage the tenderer will be barred for 2 years from tendering.

33. Licence units which have become available through bids being waived or through the 10 percent deposit not being paid will be reallocated to other bidders. A 10 percent deposit on licence allocated in this way is payable as stipulated in paragraph 31 but must be made by return mail.

34. Any surplus licence will be put into the residual pool and will be made available at the weighted average premium struck after the final results are determined following the payment of the deposits.

35. The balance of the premiums is payable within 3 months of the date of the results letter. An invoice will be sent for this balance. Payment should preferably be by bank cheque or cash for amounts over $100 or by money order for lesser amounts. Personal and company cheques are subject to a 15 working day clearance in normal circumstances. Payment by bank cheque allows the department to issue licences more promptly than if payment is made by personal or company cheque.

36. Non-payment of the balance will result in the tenderer being barred from further bidding for a period of 2 years. All payments should be made to the Finance Officer, Department of Trade and Industry, Private Bag, Wellington, who is issuing the licence, and are normally valid for 1 year from shortly after the 14-day payment date.

Movement of Goods to Licence on Demand

(Global licence general tenders only)

37. After the 14-day payment period, the weighted average successful premium of each tender will be calculated and compared with the previous relevant round of tenders. Where the simple arithmetic average of those rounds is 7.5 percent or less the goods will be designated to move to licence on demand.

38. Those who have successfully tendered for products about to become licence on demand will be given the option of either receiving a licence for 10 percent of the c.i.f. value of the licence won by tender (plus 10 percent deposit already paid) or an amount in units of 10 percent up to the full value of the licence won on payment of the proportion of the balance due. For example:

<table>
<thead>
<tr>
<th>Licence Value</th>
<th>Premium</th>
</tr>
</thead>
<tbody>
<tr>
<td>$10,000</td>
<td>2,200</td>
</tr>
</tbody>
</table>

---

40. Licence not bid for or not paid for will be made available as residual licence at the weighted average successful premium determined after the 14-day period for payment of deposits.

41. The availability of residual licence at that stage will be published in the New Zealand Gazette. All except those bidders who are suspended or barred may apply for residual licence. A period of 3 weeks after the publication of the Gazette will be provided for those applications to be made. Applications should be made on T & I 335E. After result letters are despatched successful entities will be required to pay a 10 percent bank cheque or cash deposit within 14 days and the balance by the original 3-month payment date. Applicants must ensure that the department has all the necessary information available for the preparation of a licence, especially the importer code.

42. Licence not applied for in the 3-week period will continue to be available on request at the same time for the rest of that licence period. After the 3-month payment date further licence not paid for may be added to the residual pool and be available on request at the weighted average price originally struck or at a price determined after the 3-month payment date if residual licence was not previously available.

43. Continuity licence will not be available on any residual licence. See also paragraph 45 below.

44. Payment for residual licence on request should be made in full, preferably by bank cheque, at the time the request is made. Arrangements in line with those in paragraph 38 will be made where goods move to licence on demand.

Continuity Licence

(For some but not necessarily all rounds of tendering, continuity licence will be made available)

45. Successful tenderers may buy a licence worth 50 percent of the total c.i.f. value (or volume) of licence won in a round of tenders so that it will be available for the following year. Continuity licence paid for will be charged for at half the cost of the original licence. Continuity licence will be issued after invoicing and on payment of the appropriate premium for the original licence. Licences and invoices will be made out to the nearest dollar.

46. This option will be offered to tenderers after the end of the 3-month payment period and in time to allow for appropriate adjustments to be made to the amount of licence available for tender in the next year.

47. Continuity licences will be available for a period of 1 year after expiry of the original tender licence starting with the next tender licence period. Invoices will be for payment within 3 months of the licence starting date. Non payment will result in barring. However, it should be noted that:

(a) Licences which have been less than 75 percent used will not qualify. A declaration of actual and intended licence usage may be required.

(b) Continuity licence purchased for the second year will not qualify for the third year.

(c) Tender licence assigned to another party will not qualify for continuity.

Extension of Licence

48. Tender licences will not be extended beyond their expiry date except in the circumstances outlined below. In cases where goods have been ordered in time to arrive before the licence expires but are delayed for reasons outside the importer's control (e.g., delay of ships) licences can be extended for 60 days beyond the expiry date by an endorsement of the licence by a Customs Licensing Officer. Requests for such extensions of licences must explain the reasons for the delay, provide evidence that the goods were ordered in time to arrive before the licence expires, and specify that they will arrive within the 60-day extension period. Applications for such extensions must be made before the licence expires.

Assignment of Licence

49. When a licence has been paid for entirely it is deemed to be the property of the importer. It may then be assigned to one or more other parties. Payment may be made by personal or company cheque, but the whole amount due has to be made at one time. Parties to an assignment must signify their agreement to the assignment in the appropriate form which can be obtained from any office of the department.

50. The assignment will not be granted where the receiving party is already barred from tendering because of non-payment. Assignment may not be granted where the Customs Department raises valid objections to the transaction. The assignment may be refused where it is, in the view of the Department of Trade and Industry, likely to be contrary to the objectives of tendering.
LICENCE USAGE

51. As tendering aims to provide increased opportunities for importers, to foster competition and to provide information relevant to the measurement of protection for domestic producers, tender licence-holders are expected to make full use of their licences.

52. If it is established that any tender licence-holder may be frustrating the aims of tendering by substantially under-using tender licence the company and possibly subsidiaries and associates will be barred from tendering for a 2-year period. The use of less than 75 percent of licence would generally be regarded as substantial under-utilisation.

SALES TAX AND DUTY

53. The goods imported will be subject to the appropriate rate of duty and sales tax where applicable. The assessment of sales tax payable on goods imported under tender licences includes the amount of tender bid. Enquiries should be made with the Collector of Customs.

RECEIVERSHIP/LIQUIDATION/BANKRUPTCY

54. During the 3-month payment period if the successful tenderer should go into bankruptcy, receivership, liquidation or is commenced

55. Where payment for the premiums is not received before the 3-month payment period expires, paragraphs 32 and 36 of the Guide apply to their full extent. Where a company in receivership or Liquidator (as the case may be) may pay or cause to be paid the premium and;

(a) Uplift the licence and use it in accordance with its conditions and this Guide; or

(b) Assign the licence to another party in accordance with paragraphs 49 and 50 of the Guide.

56. If during the 3-month payment period the successful tenderer's business is the subject of a takeover or merger the tender for which gave a different entity the contingent interest in the unredeemed licence, the successful tenderer shall immediately notify the Registrar in writing accordingly.

57. An assignment of the licence to the different entity will be granted where a prompt notice is received in terms of paragraph 56 and the criteria as set out in paragraphs 49 and 50 of the Guide are satisfied. Non payment of the premium will be recorded against all participants in the takeover and merger for the purposes of paragraphs 32 and 36 of this Guide.

TAKEOVER/MERGER OF BUSINESS

58. Where goods are made exempt or subject to licence on demand or are included in standard policy provisions during the period of validity of a licence, a part refund may be allowed where the whole item code is affected. Tenderers should apply in writing to the Registrar. The balance of premiums not yet paid may be waived.

59. Where the goods in a tender number are only partially affected by exemption etc., importers should produce import entries to show the c.i.f. value of goods now freely available which have been imported against the licence. A proportionate refund of the calculated balance of the premium will be made according to the value of the affected goods already imported. Premiums on licences not yet redeemed may be waived up to the 90 percent balance or in part depending on the production of satisfactory evidence that affected goods of a certain value were intended to be imported. Where a part refund is involved the value of the licence may be accordingly reduced.

RECLASSIFICATION OF GOODS

60. Where goods are reclassified by the Customs Department after the issue of a licence, the licence may be endorsed by the Collector of Customs to allow the importation of the goods originally tendered. The importer should produce evidence to show that the goods have normally been imported under some other tariff item. This provision does not cover the case of a wrong classification by the importer.

SHORTFALL OF LICENCE

61. Additional tender licence cannot be issued to cover shortfalls in licence value. Imports in excess of the value of licences held will be regarded as goods arrived in terms of the section "Importation of Goods without Licence or Permit" in Annex III of the Import Licensing Schedule.

LOST OR DESTROYED LIENCES

62. If a licence is lost or destroyed, the appropriate declaration should be made with the Collector of Customs. The value of any balance on the licence should be certified where possible by the Collector. The declaration should then be forwarded to the Registrar. The onus is on the tenderer to notify the Registrar promptly.

PILLAGED GOODS

63. Details of the value of pillaged goods, insurance documents, and marked-off licences should be submitted to the Customs Department for a write-back of licence to be considered.

GOODS EXPORTED

64. Where goods brought in under tender licence are subsequently exported, an application should be lodged under normal licensing procedures for a replacement licence for the c.i.f. value of goods concerned. The application should be supported by documentary evidence of the export transaction.

NOTES TO THE ACCOUNTS

1. Statement of Accounting Policies—
   The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of results and financial position have been followed in the preparation of these financial statements.
   —the measurement base adopted is that of historical cost
   —accrual accounting is used to match expenses and revenues
   The following particular accounting policies which significantly affect the measurement of the Bank's profit and financial position have been applied on a basis consistent with previous years.

   **Depreciation**—Depreciable fixed assets are depreciated on a straight line basis at rates estimated to write off the cost, less residual value, over the useful life of each class of asset. The principal rates in use are:
   - Buildings: 1 percent and 2½ percent
   - Office equipment, fixtures and fittings: 10 percent and 20 percent
   - Computer equipment: 12½ percent

   **New Zealand Government Stock**—
   New Zealand Government stock is recorded at par value less discount on acquisition which is amortised over the term of the investment on a straight line basis.
   The stock is regarded as long-term investment and under normal circumstances is held to maturity and redeemed at face value. Periodically the stock is sold to improve interest yield. The realisable value of the stock fluctuates with movement in the rate of interest and it is customary for such fluctuations to be disregarded in the accounts of the long-term institutional investor.

2. Term Investment Accounts—

3. Taxation—
The charge for income tax is the amount of tax liability in respect of the accounting profit for the year.
The liability for deferred taxation arises from items of income and expenditure being included in taxation calculations in periods different from those in which they are dealt with in the financial accounts. The significant timing differences relate to depreciation and accrued income.

AUDITORS' REPORT TO THE TRUSTEES OF TARANAKI SAVINGS BANK

We have obtained all the information and explanations that we have required. In our opinion proper accounting records have been kept by the Bank so far as appears from our examination of those records.

In our opinion, according to the best of our information and the explanations given to us and as shown by the said records, the financial statements are properly drawn up so as to give, using the historical cost method, a true and fair view of the state of the Bank’s affairs as at 31 March 1985 and the results of its business and the changes in financial position for the year ended on that date.
