

II CER Ex-NAFTA Schedule A Licences Allocated by the New Zealand Government

In terms of Article 5, paragraph 18 of ANZCERT, exclusive access for goods under Schedule A of NAFTA has been maintained additional to the ANZCERT access formula.

Under Article 20, paragraph 2 of ANZCERT, allocations of access are determined by New Zealand where NAFTA Schedule A access was not fully allocated or where only one Australian exporter was interested in the market for the 1982-83 import licensing period.

For these Ex-NAFTA Schedule A product categories, New Zealand allocates the licence to the previous licence-holders. Although these licences are normally issued to previous licence-holders, their reissue in subsequent years could be dependent upon usage. As noted in I above, the New Zealand Government will take over the allocation of all CER Ex-NAFTA Schedule A licences for the 1985-86 import licensing period.

Where access levels have not been fully taken up, the balance is available on request. Interested importers should apply in writing to "The Executive Officer, General Industries 2, Department of Trade and Industry, Private Bag, Wellington".
