

AUDITOR'S REPORT TO THE TRUSTEES OF TRUSTEEBANK WAIKATO

WE have obtained all the information and explanations that we have required. In our opinion proper accounting records have been kept by the bank so far as appears from our examination of those records.

In our opinion, according to the best of our information and the explanations given to us and as shown by the said records, the Financial Statements are properly drawn up so as to give, using the historical cost method modified by the revaluation of certain assets, a true and fair view of the state of the Bank's affairs as at 31 March 1986 and the results of its business and the changes in financial position for the year ended on that date.

Details are given on the frequency of poisoning, the toxins, and the clinical signs that result when these plants are eaten or touched. Invaluable for veterinarians, hospital casualty officers, botanists, farm advisers, farmers, and parents. Well illustrated with 16 colour and 36 line drawings by Nancy M. Adams. Includes glossary, references, and index.

TOWARDS A STRATEGY FOR NEW ZEALAND AGRICULTURE

Rowland Woods, Ken Graham and Peter Rankin

224 pp. 1984. \$24.95 plus \$3.75 p & p

For 100 years, agriculture has been the driving force of the New Zealand economy. It is tempting to assume that this will always be the case, but it is important to realise that the future of New Zealand agriculture is not certain. It is, in fact, effected by economic, political and cultural events and trends. This report addresses the agricultural problems facing New Zealand farmers and business people. It sets out guidelines for future planning, and offers advice for agricultural management.

INDUCED ABORTION IN NEW ZEALAND 1976-1983

Prepared for the Abortion Supervisory Committee by Janet Sceats

224 pp. 1985. \$9.95 plus \$1.50 p & p

This is the first major national study of abortion in New Zealand. It examines the trends in abortion, the effects of legislation, and the movement of women to Australia to obtain abortions. Demographic information and the relationships between abortion and the declining birth rate, births outside marriage, and teenage pregnancies are analysed. The findings of a 1983 survey of abortion patients are also examined. The experiences of these women and the medical system they have to pass through are thoroughly documented in this book.
