The Local Government Commission (Validation of Determination Re Hamilton City) Order 1986

PAUL REEVES, Governor-General
ORDER IN COUNCIL
At Wellington this 2nd day of September 1986

PRESENT:

THE RIGHT HON. G. W. R. PALMER PRESIDING IN COUNCIL

Whereas the Local Government Commission is required by section 56b of the Local Government Act 1974 to determine, before the 1st day of January in the year in which a triennial general election of members of local authorities is to be held, the number of wards and their boundaries, and the number of members to be elected by the electors of each ward, in the case of every territorial authority whose district has a population of 70,000 or more:
And whereas a triennial general election is to be held in the year 1986:
And whereas the Commission made a determination in respect of Hamilton City on the 16th day of December 1985:
And whereas the Hamilton City Council appealed to the High Court against that determination:
And whereas, in a judgment given on the 18th day of July 1986, the High Court remitted the matter to the Commission for the Commission to make a further determination:
And whereas the Commission made a further determination in respect of Hamilton City on the 6th day of August 1986:
And whereas that determination was not made before the date required by section 56b of the Local Government Act 1974:
Now, therefore, pursuant to section 719 of the Local Government Act 1974, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, hereby makes the following order.

ORDER

1. Title and commencement—(1) This order may be cited as the Local Government Commission (Validation of Determination Re Hamilton City) Order 1986.
(2) This order shall come into force on the day after the date of its publication in the Gazette.

2. Validation—The determination by the Local Government Commission in respect of Hamilton City relating to the number of wards and their boundaries, and the number of members to be elected by the electors of each ward, made on the 6th day of August 1986 is hereby declared to be and always to have been as valid as it would be if it had been made within the time required by section 56b of the Local Government Act 1974.

IN THE MATTER of the Charitable Trusts Act 1957, and IN THE MATTER of a certain charitable trust declared by the will of GERALD EGERTON WARBURTON, late of 150 The Terrace, Wellington, agent deceased in favour of NELSON COLLEGE:

Notice is hereby given that Nelson College has applied to the High Court at Nelson pursuant to the provisions of the Charitable Trusts Act 1957, part III for approval of a scheme relative to a certain charitable trust declared by the will of GERALD EGERTON WARBURTON, late of 150 The Terrace, Wellington, agent deceased.

The scheme proposes that instead of applying the legacy to the purpose expressed by the donor namely, the provision of a coach for back play and place kicking in the game of rugby football among the scholars at the college, the funds be used towards the cost of the erection of the new gymnasium at Nelson College. The grounds of the application are that the trusts declared by the will of the testator are impractical or inexpedient.

The application and scheme and report of the Attorney-General have been filed in the High Court at Nelson and are open for inspection by the public without any fee or charge.

It is proposed that the application be heard by the Court on the 3rd day of November 1986. Any person desiring to oppose the scheme is required to give written notice of his intention to do so to the Registrar of the High Court at Nelson and to the applicant, care of Fell & Harley, Solicitors, Hardy Street, Nelson and the Attorney-General, care of The Solicitor-General, Crown Law Office, Wellington not less than 7 clear days before that date.

Dated at Nelson this 27th day of August 1986.

### Statement of Accounting Policies:

#### General Accounting Policies:

The measurement base adopted in the preparation of these Financial Statements is that of historical cost modified by the revaluation of land and buildings. Reliance has been placed on the fact that the bank is a going concern. Accrual accounting is used in the matching of expenses and revenue.

#### Particular Accounting Policies:

(a) **Recognition of Investment Income**—Interest on investments is accrued to balance date on a daily basis at the appropriate rate of interest.

(b) **Depreciation**—The cost or revalued amount of fixed assets (excluding land) is allocated over their economic lives on the straight line basis. The economic lives of the major classes are:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Economic Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Buildings</td>
<td>50-100 years</td>
</tr>
<tr>
<td>Computer and office equipment</td>
<td>7-10 years</td>
</tr>
<tr>
<td>Furniture and fittings</td>
<td>10 years</td>
</tr>
<tr>
<td>Motor vehicles</td>
<td>5 years</td>
</tr>
</tbody>
</table>

(c) **Investments**—Investments are shown at cost with the exception of government securities and associate company investment.

(i) Government securities are normally held to maturity and redeemed at their face value. Due provision is made for the difference between cost and face value by the amortisation of the discount or premium on purchase over the term of the security on a straight line basis.

The realisable value of fixed interest securities fluctuates with movements in market yields and it is customary for such fluctuations to be disregarded in the recording of the results of the long term institutional investor. (ii) The bank's investment in Trusteebank Computer Ltd, an associate company, has been treated on an equity basis.

(d) **Fixed Assets**—Land and buildings are revalued annually and are recorded at a value which is 90 percent of independent registered valuation. Changes in valuations are transferred to the Property Revaluation Reserve.

(e) **Taxation**—Provision is made for taxation after taking advantage of all deductions available under current taxation legislation.

The liability method of accounting for the taxation effect of timing differences between the treatment of certain items for accounting purposes and their treatment for taxation has been adopted by the bank.

The major timing differences relate to depreciation and the recognition of investment income.

(f) **Changes in Accounting Policies**—There have been no significant changes in accounting policies.

### Notes to the Financial Statements

(1) **Associate Company**—The bank's investment in Trusteebank Computer Limited has been shown in the accounts according to the standard accounting practice adopted by the New Zealand Society of Accountants for an associate company.

AUDITORS' REPORT

We examined the accompanying balance sheet, revenue statement, and statement of changes in financial position of Trusteebank Bay of Plenty and have obtained all the information and explanations we have required.

We are of the opinion that the balance sheet and accounts give on an historical cost basis, adjusted by revaluation of certain assets, a true and fair view of the state of affairs of Trusteebank Bay of Plenty as at 31 March 1986 and of the results of its business and of the changes in its financial position for the year ended on that date.

1. Statement of Accounting Policies:

General Accounting Policies:

The measurement base adopted in the preparation of these Financial Statements is that of historical cost modified by the revaluation of land and buildings. Reliance has been placed on the fact that the bank is a going concern. Accrual accounting is used in the matching of expenses and revenue.

Particular Accounting Policies:

Recognition of Income:

Investment Income:

Interest on investments is accrued to balance date on a daily basis at the appropriate rate of interest.

Personal Loan Interest:

The bank's policy is to add interest to the advance at the commencement of the loan. The "rule of 78" method of accounting for personal loan income is used to apportion the income between accounting periods. (The effect of this method is that income earned over the term of the personal loan agreement represents a level rate of return on the declining balance of the unrecovered advance).

Depreciation:

The cost or revalued amount of fixed assets excluding land less estimated residual value is allocated over their economic lives on the straight line basis. The range of economic lives of the major classes are:

- Buildings: 100 years
- Computer and offices equipment: 4 to 10 years
- Furniture and fittings: 10 years
- Motor vehicles: 5 years

Investments:

Investments are shown at cost with the exception of Government and local authority securities.

Government and local authority securities are normally held to maturity and redeemed at their face value.

Due provision is made for the difference between cost and face value by the amortisation of the discount or premium of purchase, over the term of the security on a purchase yield basis.

The realisable value of fixed market securities fluctuates with movements in market yields and it is customary for such fluctuations to be disregarded in the recording of the results of the long term institutional investor.

Fixed Assets:

Land and buildings are revalued annually and are recorded at a value which is 90 percent of the independent registered valuation. Changes in valuations are transferred direct to the reserve fund.

Taxation:

Provision is made for taxation after taking advantage of all deductions available under current taxation legislation.

The liability method of accounting for the taxation effect of timing differences between the treatment of certain items for accounting purposes and their treatment for taxation has been adopted by the Bank.

The major timing differences relate to depreciation and the recognition of investment income.

Changes in Accounting Policies:

1.1 Amortisation of Discounts on Government Securities:

The method of amortising discounts on Government securities has been changed from straight line to the purchase yield method as is commonly used by other Trusteebanks. The effect of this change in accounting policy is to reduce this year's profit by $63,771 and cause a prior period adjustment to last year's profit of $17,394 after adjusting for deferred tax.

1.2 Valuation of Fixed Assets:

Land and buildings have been revalued as at 31 March 1986 and are recorded at a value which is 90 percent of the independent registered valuation. Previously land and buildings were shown at cost less accumulated depreciation. The effect of this change in accounting policy has been to increase the book value of land and buildings by $64,934 and create an asset revaluation reserve of $64,934. There is no effect on the current year's depreciation charge.

Prior Period Adjustments:

The provision for deferred taxation as at 31 March 1985 has been restated to provide for the increase in the deferred taxation liability arising from the increase in the taxation rate of profits from 45 cents to 48 cents.

The change to the purchase yield method of accounting for discounts on Government stocks has given rise to an adjustment to the 1985 amortisation of discounts adjusted for deferred taxation.

Prior period adjustment comprises:

AUDITORS’ REPORT TO THE TRUSTEES OF TRUSTEEBANK SOUTH CANTERBURY

We have obtained all the information and explanations that we have required. In our opinion, proper accounting records have been kept by the Bank so far as appears from our examination of those records.

In our opinion, the financial statements give, using the historical cost method modified by the revaluation of land and buildings, a true and fair view of the financial position of the Bank as at 31 March 1986 and the results of its operations and the source and application of funds for the year ending on that date.

Dunedin, 10 June 1986.
