The Standards Act 1965—Overseas Specifications Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the under-mentioned overseas specifications are being considered for declaration as New Zealand Standards.

Number and Title of Specification

ISO 3767:— Tractors, machinery for agriculture and forestry, powered lawn and garden equipment—Symbols for operator controls and other displays—

Part 1:1982 Common symbols.

(Including Addendum 1:1985) \$64.50

Part 2:1982 Symbols for agricultural tractors and machinery.

(Including Addendum 1:1985) \$60.00

This International Standard establishes common symbols for use on all types of agricultural and forestry tractors and machinery. These common symbols are divided into two groups:

Group 1: Symbols for operator controls

Group 2: Symbols other than for operator controls

Part 2 is specific to agricultural tractors and machines.

ISO 3767:1979 was adopted in New Zealand as NZS 5104:1981 and it is now proposed that ISO 3767:Parts 1 and 2:1982 should be declared as NZS 5104:Parts 1 and 2:1986.

All persons who may be affected by these specifications and who desire to comment thereon, may obtain copies from the Standards Association of New Zealand, Wellington Trade Centre, 181-187 Victoria Street (or Private Bag), Wellington, at the price shown.

The closing date for the receipt of comment is 10 October 1986.

The Standards Act 1965—Draft New Zealand Standard Specifications Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft New Zealand standard specifications are being circulated.

Number and Title of Specification

DZ 5827 Industrial overalls

Part 1 Specification for industrial overalls for general purposes.
\$10.00

This draft Standard covers industrial overalls for general purposes. These garments are not designed as protection against specific hazards but are primarily for the purpose of keeping the wearers' clothes clean. Aspects of sizing, make-up, and materials of industrial combination overalls (coveralls), bib overalls, three-quarter overall coats (dust coats), smocks, and overall trousers made from woven fabric are covered. With the exception of smocks, sizings are based on men's measurements but the garments have in practice been found appropriate for wear by women.

Part 2 Specification for industrial overalls for special purposes.
\$10.00

This draft Standard covers industrial overalls for special purposes i.e. for protection against the following specific types of hazard or combination of hazards: flame and radiant heat, molten metal (including glass) splash, welding and chemical spills. The Standard will give guidance to the most suitable materials to be worn when working in situations involving the above hazards, the design, method of construction and maintenance and methods of test of the protective qualities of the garment. This Standard describes methods of protection against hazardous vapours and their effects on the skin. The Standard does not cover garments designed for use in coldstores. A separate Standard is being prepared for high visibility overalls for use by road workers and others.

Part 3/AA Draft Amendment A to AS 2375:1980 Guide to the selection, care and use of clothing for protection against heat and fire. Gratis.

This amendment will place on record the declaration of AS 2375:1980 as a New Zealand Standard.

All persons who may be affected by these publications and who desire to comment thereon, may obtain copies at the price shown, from the Standards Association of New Zealand, Wellington Trade Centre, 181-187 Victoria Street (or Private Bag), Wellington.

NOTE—Payment must accompany all requests for drafts.

The closing date for the receipt of comment is 30 November 1986.
