The Standards Act 1965—Draft New Zealand Standard Specifications Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft New Zealand standard specifications are being circulated.

Number and Title of Specification

This draft Standard sets out the requirements for low fire danger fabrics. Such fabrics are suitable for use in children's night clothes. Fabrics which comply with this Standard because of their fibre content, weight and other factors do not easily ignite, and burn slowly.

The Standard is a revision of NZS 8704:1977, and is one of the series covering requirements for children's night clothes having low fire danger. Others in the series being prepared are:
DZ 8705 (See below)
DZ 8712 Textile fabrics—Burning behaviour—Determination of ease of ignition of vertically oriented specimens.
DZ 8713 Textile fabrics—Burning behaviour—Measurement of flame spread properties of vertically oriented specimens.
DZ 8714 Textile fabrics—Burning behaviour—Determination of surface burning properties.

These Standards have been aligned where possible with Australian Standards, so that, in the interests of trans-Tasman trade, fabrics or garments that comply with the New Zealand Standards will also comply with the Australian Standards.

The earlier editions of these Standards were prepared to co-ordinate with the Safety of Children's Night Clothes Act. The replacement of this Act by regulations under the Fair Trading Act has resulted in some of the requirements originally included in the legislation being incorporated in the new Standards.

DZ 8705 Specification for children's night clothes having low fire danger. §4.40

This draft Standard specifies requirements for children's night clothes having low fire danger. It covers:
(a) Night clothes made from fabrics of the low fire danger type (Part 2)
(b) Night clothes styled to reduce fire danger (Part 3)
(c) Labelling of night clothes and of envelopes containing paper patterns for retail sale (Part 4)

The draft is a revision of NZS 8705:1977. Previous editions of this Standard have covered only nightwear offered for retail sale. However, a fire hazard can also arise through the use of unsuitable fabrics by home sewers. The Standard addresses this hazard by requiring the envelopes of paper patterns to carry a warning about the danger of using flammable fabrics.

All persons who may be affected by these publications and who desire to comment thereon, may obtain copies at the price shown, from the Standards Association of New Zealand, Wellington Trade Centre, 181-187 Victoria Street (or Private Bag), Wellington.
Note—Payment must accompany all requests for drafts. The closing date for the receipt of comment is 12 December 1986.
Dated at Wellington this 19th day of September 1986.
DENYS R. M. PINFOLD, Director, Standards Association of New Zealand.

The relevant rates for the 1986–87 period effective 1/7/86 are:

| Normal 68 cents plus 20% of importation | 1/10/86 to 30/6/87 |
