Notice of Intention to Hold Inquiry into Operation of Licence

To: David Spencer Russ (referred to below as “the licensee”)
And to: the Secretary for Transport
And to: the New Zealand Railways Corporation

Take notice that pursuant to section 141 of the Transport Act 1962 the Licensing Authority for the 8, 9, 10 and 11 Transport Districts will hold a public inquiry into the manner of operation of service conducted under licence No. 3854 to determine whether it is in the public interest that all or any of the licences held by the licensee should be revoked, suspended or varied.

The reason why the inquiry is to be conducted is that the Authority has been informed by Jennifer Gail Mcilroy, an Investigating Officer for the Secretary for Transport that the licensee has been convicted of offences against sections 109 (1) and (2) and 113B of the Transport Act 1962 and the provisions of Road User Charges Act 1977 and the Authority considers it expedient to conduct an inquiry because of the seriousness of the nature and number of the said alleged offences for which the licensee has been convicted.

The public inquiry will be held at 10.45 a.m. on the 12th day of November 1986 at the District Court, Bridge Street, Nelson.

The licensee and the Secretary for Transport and the New Zealand Railways Corporation are entitled to appear and to be heard at this public inquiry, and may be represented by a lawyer or other agent. Any of those persons or bodies may seek further information regarding the inquiry from the undersigned.

Chairman: B. H. Slane.

Member: Ann E. Wilson, Robert Boyd-Bell.

Appearance: A. J. Simpson for the New Zealand Public Service Association Inc.

Hearing: Auckland, 5 August 1986.

INTERIM DECISION

The applications made arise out of a decision of the Broadcasting Tribunal (Decision No. 5/86) in which Hauraki Enterprises Ltd. ("Hauraki") and Brierley Investments Ltd. ("Brierley") sought the Tribunal's consent pursuant to regulation 20(4)(b) of the Broadcasting Regulations 1977 to Hauraki Enterprises Ltd. and Brierley Investments Ltd. having prescribed interests in the radio warrants for Radio Hauraki ("IXA") and Radio I ("IXI").

Consent is now sought to hold prescribed interests as set out:

Hauraki: Capital City Radio Ltd., Radio I Ltd.

We do not intend to repeat the circumstances set out in that decision.

Brierley has investments directly and indirectly in several warrant holders:

Hauraki is 59 percent directly owned by Brierley.

Capital City Radio Ltd. is 16 percent directly owned by Brierley.

In addition New Zealand News Ltd. owns 15 percent and Hauraki 30 percent.

Hauraki owns 61.2 percent of Radio I Holdings Ltd.

Brierley owns 28 percent of Radio Avon Ltd.

A previous holding in Foveaux Radio by Radio Avon Ltd. was subsequently disposed of, as was Avon's interest in Radio Otago.

In addition, we were informed that Brierley has nominal shareholdings in most public listed companies, including warrant holders which are public listed companies.

Nevertheless, in July Brierley advised the Tribunal that it had sold its shares in Foveaux Radio and Radio Otago. Subsequently the Tribunal was advised that New Zealand News had disposed of its doubtful media licences in Hawke's Bay FM Ltd.

In support of the application, Mr Bryers called evidence from Mr J. A. McCready, managing director of Hauraki Enterprises Ltd. and Mr C. J. Thompson, an employee of Brierley and a director of both Hauraki Enterprises Ltd. and Capital City Radio Ltd.

We do not find it necessary to traverse the evidence. The Tribunal has a good deal of information about the background relating to the various interests in private radio stations in New Zealand. It has also heard the cross-examination by and submissions from Messrs Anderson and Simpson. Mr Sorrell for Stereo FM Ltd. did not oppose the applications in principle.

The Tribunal has decided to consent to the acquisition of the prescribed interests on the basis of conditions or undertakings to be given by the applicants.

The Tribunal is satisfied that the interest proposed to be held in the three centres are those of the subject of these applications, provided they do not become 100 percent owned, will on balance provide more advantages to the development of private radio in New Zealand and the development of broadcasting generally, than would the refusal of those consents.

Although we have made reference before to the way in which such acquisitions were made and held without applications for consent, the Tribunal has now made its position clear. Any party who faces the Tribunal in future without having sought consents in doubtful cases can expect a severe view to be taken of the situation.

We have noted that there was no opposition from within the private radio industry although the broadcasting industry is known as one with a variety of views. The position of the PSA, that the strengthening of private radio industry by some common ownership would lead to dull programming, rang a little hollow considering the Tribunal's knowledge of the number of radio stations owned and operated by one owner, the Broadcasting Corporation of New Zealand.

The Tribunal does not consider the present levels of ownership objectionable but any further increase in the levels of ownership in these or other stations by Brierley interests should require the consent of the Tribunal.

There was one element which caused us considerable concern. This is the fact that a Brierley subsidiary is New Zealand News Ltd., the publisher of newspapers in Auckland and Christchurch as well as in other centres. Although the interest of New Zealand News in Capital City Radio was acquired before Brierley invested in New Zealand News, we must regard the companies as very closely associated.

We therefore consider it undesirable that the interest in the Avon station should exceed 30 percent, which is the maximum permitted under the news media condition applicable to that warrant.

We also consider there should be no increase or change in news media ownership without the consent of the Tribunal in Radio I, Radio Hauraki or Radio Windy. The levels are already high following the Tribunal's consent to Radio Otago having an interest in Radio Hauraki, which, we saw as some balancing of the news media influence by Brierley in Auckland.

The warrant holders must be willing to consent to a news media restriction in the same terms as the Radio Avon warrant but with the Tribunal consenting to in excess of 30 percent to meet the specific ownership position now.

There is no indication that there has at any time been any Brierley interference in editorial decisions or indeed for that matter in basic daily programming matters.

The impression we clearly have is of a more professional approach between the owners and their directors and management. We find that the introduction of independent radio news and sports services have strengthened the stations.

The Tribunal will hear submissions from counsel as to how best the conditions which the Tribunal wishes to effect should be imposed, whether they be by undertaking or otherwise.

The warrants in respect to Radio Hauraki and Radio I will have to be amended to impose a news media ownership condition.

The Tribunal will also require the deeds offered securing editorial independence of news and current affairs programmes.

For that reason this decision has been made an interim one; the final decision will embody detailed conditions.

On that basis, the Tribunal is prepared to approve the applications made by the directors of Brierley Investments Ltd. and Hauraki Enterprises Ltd.

Signed for the Tribunal: R. BOYD-BELL, Member.
Following initial consideration, the Tribunal sought further justification or greater detail of the specific events proposed to be covered.

On 3 September advice was received that the studio location had been shifted from the Grafton Oaks Motel to the Museum of Transport and Technology at Western Springs.

The applicant stated that:

"This change has been made so as to combine the Country Music Month of October with country promotions and displays within M.O.T.A.T. for that period, also to feature the technology of radio with the display of an operational T.V. Studio soon to be opened.

Every Sunday during the month of October it has been planned to put on live displays of country music featuring the artists from the 10 member clubs of the Auckland Country Music Awards.

The event of the Junior/Intermediate Country Music Entertainer of the Year Awards takes place at the Mt Roskill Grammar School Hall on Saturday, 4 October, and winners from the various country music awards throughout the country compete for the overall titles. It is also hoped to broadcast this event either live (if facilities allow) or to record the event and broadcast it from our studios at M.O.T.A.T." (emphasis added).

On 8 September the Tribunal gave further consideration to the application and determined to advise the applicant that it was not prepared to authorise the 28-day period of broadcast sought although it would be prepared to consider an amended application for a shorter term of a few days relating to a specific event or events.

The applicant responded by letter received on 17 September, reinforcing its amended application for the full period of 28 days.

The applicant submitted that there had been no objection filed, the specific purpose was "Country Music Month", special displays and promotions had been planned in conjunction with M.O.T.A.T., equipment had been hired and financial donations received.

The applicant also submitted that the Tribunal was unaware of the costs involved in organising a short-term broadcast, that previous authorisations granted were for similar "specific purposes" including 2 of 17 days duration and approvals were received in good time before commencement date.

The applicant sought reconsideration of the original 28-day application or alternatively of a minimum period of 17 days from Saturday, 11 October 1986 to Monday, 27 October 1986.

The applicant also requested reasons for the Tribunal's decision.

The Tribunal has further considered the application. It notes that a number of short-term authorisations have been granted for country music broadcasts over recent years. In many cases some of the same persons have been associated with such broadcasts—Mr Ramfield, Mr Mitchell and Mr Page in particular.

The authorisations so granted include:

25-28 October 1984, Tauranga Country Music Club
21-28 October 1985, Tauranga Country Music Club
27 May–3 June 1985, Auckland Country Music Awards
21 September–29 September 1985, New Zealand Country Music Association
18–27 January 1986, Northland Regional Association of Country Music Clubs
15–31 March 1986, Auckland Country Music Awards

All the above authorisations included coverage of specific events, referring to the Tauranga Country Music "Star Awards", the Auckland Country Music Awards (including a live broadcast of the final Town Hall concert), the Northland Regional Awards, the Auckland Country Music Regional Awards and the Sixth Annual Country Music Awards.

The present application originally included coverage of the "Junior/Intermediate Country Music Entertainer of the Year Award" at the Mt Roskill Grammar School on Saturday, 4 October, to be broadcast either live or by recording for subsequent broadcast.

The alternative 17-day period now requested should the Tribunal decline a 28-day authorisation excludes the date of this event.

It is evident that the applicant and the principal persons associated with it are well aware of the Tribunal's general preference for event related short-term authorisations. The coverage of such events has been a significant factor in the granting of previous applications.

The applicant has not previously sought, nor been granted, an authorisation longer than 17 days surrounding such a specific event. The Tribunal does have before it an application for a period of 56 days covering the period 13 December 1986 to 6 February 1987 from the Rodney County Broadcasting Company. The Tribunal has not yet determined that application but is aware that it involves many of the same persons as principals. Some formal opposition has been expressed by an existing warrant holder.

The Tribunal is not impressed by assertions that it is unaware of the costs involved in organising a short-term broadcast, as it considers some 60 or more such applications every year.

Each application is required to include a budget estimate and each successful applicant is required to file audited accounts within 4 months of the conclusion of the broadcast.

The present applicant has apparently not yet filed audited accounts for 2 previous authorisations this year, despite a reminder from the Registrar.

The Tribunal is advised that financial surpluses totalling some $5,000 have been generated from the authorisations for which accounts have been filed.

The Tribunal has some concern that the applicant appears to have solicited funds in support of the proposed broadcast from donors of whom the applicant itself states: "many of these are unknown and not able to be personally contacted". The public should not be mislead by an applicant for a short-term authorisation.

Regarding the association with M.O.T.A.T., the Tribunal has previously been prepared to approve a series of short-term authorisations for non-commercial radio broadcasts from such museums on weekends and public holidays—for example, the Tauranga District Museum.

Having regard to all the circumstances the Tribunal is not prepared to approve the authorisation as applied for.

An authorisation may be issued for a maximum period of 10 days in the month of October, with the specific dates to be determined by the applicant. These dates may include each weekend during October in order for the applicant to honour its commitment to M.O.T.A.T.

The Tribunal will require the broadcast to include coverage of the "Junior/Intermediate Country Music Entertainer of the Year Award" as originally requested. Details of this coverage should be advised when accounts are filed. The Tribunal will also require audited accounts for all authorisations to be filed before it determines the application in the name of the Rodney County Broadcasting Company.

NOTES TO THE FINANCIAL STATEMENTS FOR YEAR ENDED 31 MARCH 1986

1. General Accounting Policies

The measurement base adopted in the preparation of these financial statements is that of historical cost modified by the revaluation of land and buildings. Reliance has been placed on the fact that the Bank is a going concern. Accrual accounting is used in the matching of expenses and revenues.

2. Particular Accounting Policies

Particular accounting policies used which significantly affect the measurement of the Bank's profit and its financial position, are set out below:

(a) Recognition of Income
Interest on investments is accrued to balance date on a daily basis at the appropriate rate of interest.

(b) Depreciation
The cost or revalued amount of fixed assets (excluding land) less estimated residual value is allocated over their economic lives on the straight line basis. The range of economic lives of the major classes are:
- Buildings: 40-100 years
- Computer and office equipment: 5-10 years
- Furniture and fittings: 10-15 years
- Other fixed assets: 3-15 years

(c) Taxation
Provision is made for taxation after taking advantage of all deductions available under current taxation legislation.

The liability method of accounting for the taxation effect of timing differences between the treatment of certain items for accounting purposes and their treatment for taxation has been adopted by the bank.

The major timing differences relate to depreciation and the recognition of investment income.

(d) Investments
Investments are shown at cost with the exception of Government and local authorities securities. Government and local authorities securities are normally held to maturity and redeemed at their face value.

Due provision is made for the difference between cost and face value by the amortisation of the discount or premium on purchase, over the term of the security on a straight line basis.

The realisable value of fixed interest securities fluctuates with movement in market yields and it is customary for such fluctuations to be disregarded in the recording of the results of the long term institutional investor.

(e) Conversion of Foreign Currencies
Figures in the accounts are expressed in New Zealand currency. Rates used in conversion are those ruling at balance date.

3. Changes in Accounting Policies

(a) Amortisation of Government and Local Authorities Securities
In accordance with accepted accrual conventions the Bank has adopted a straight line method of amortising any discount or premium on purchase over the term of the security.

The effect is to increase the 1986 profit before taxation by $1,441,000.

(b) Revaluation of Land and Buildings
Land and buildings have been written up to 90 percent of their value at 31 March 1986 as determined by independent registered valuation.

There have been no other material changes in accounting policies.

AUDITORS' REPORT

We have audited the books and accounts of the Bank for the year ended 31 March 1986 in accordance with generally accepted auditing standards, and have carried out such procedures as we considered necessary.

In our opinion, the financial accounts, together with the notes thereon, are properly drawn up so as to give, using the historical cost method, modified by the revaluation of land and buildings, a true and fair view of the financial affairs of the Bank as at 31 March 1986 and the results of its operations and changes in financial position for the year ended on that date, in accordance with section 43 (2) of the Trustee Banks Act 1983.
