Belt sanding machines (other than portable), with a belt with not exceeding 160mm Moodworking machinery: viz: Automaking machinery: viz: Automaking machines: Noodworking machines: Bandaws with throat capacity not exceeding 330mm Clinular breakdown saws Circular aw benches, hand-fed, including Duilders' treadle saw benches, with blade diameter not exceeding 300mm Cut-off saws, pendulum type with motor not exceeding 3.75 kW (5 h.p.) and with blade diameter not exceeding 500mm (2016.) Docking saws Doverailing machines with single spindle and manual feed Drilloffer 22.2mm (Sin, p) Docking saws Post paelers Precision veneer trisming saws Post paelers Precision veneer trisming saws Automakines, single spindle trenching machines with a blade diameter not exceeding 300mm Splitting saws Nood dobarking machines, not exceeding Splitting saws Nood dobarking machines, single spindle Weap profile with a blade diameter not exceeding 300mm Splitting saws Nood dobarking machines, single spindle Weap profile splitting saws Nood dobarking machines, single spindle Weap profile splitting saws Nood dobarking machines, source had not exceeding 102mm (doin.) diameter Honing machines, source had not exceeding 102mm (doin.) diameter than machines filing with in blade Weap profile splitting saws Nood dobarking machines, Roser head not exceeding 1020mm (doin.) diameter Honing machines, source had not exceeding 1020mm (doin.) diameter Honing wachines, Roser head not exceeding 1020mm (doin.) diameter Honing machines in all steel up to and including 420m. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Plastic granulators not exceeding 22.37kW (Go h.p.) cepacity Samco model LPIS vertical and hobbin sander Surface planers, Surgers of planers with blade the exclusion planers with blade disclusion planers with appacity						
<pre>with a beit width not exceeding 100mm Modorking machinery: viz: Automatic firewood sws Bandaws with throat capacity not exceeding 535mm (211n.) Box mailing machines Breast benches Clicitals restations sws Clicitals sws, pendulm type with motor not exceeding 3.7m W (5 h.p.) and with blade diameter not exceeding 500mm (201n.) Docting sws Dovetailing machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 2.2mm capacity in mild steel Log cut-off swing saws Post prelers Predial arm saws, overhead crosscut saws, and trenching machines with a blade diameter not exceeding 300mm Spiliting saws Tenoning machines, single spindle Weneer presses manually operated, single daylight, for cold pressing Wertical breakdown sws Wood debarking machines, Roser head not exceeding 1200m (601n.) diameter the nonkines failing within heading No. 84.49: EXCLUDING: Drill presses, bench or floor mounting column type, not exceeding 2.207W (30 h.p.) capacity Samco model LDIS vertical and steel up to and including 42mm. (Multi-purpose or composite machines incorporating this function fail within this exclusion) Plastic granulators not exceeding 22.37W (30 h.p.) capacity Samco model LDIS vertical and bobbit samder Thicknessers, with a capacity up to and including 300mm. (Multi-purpose or composite machines incorporating this function fail within this exclusion) Woodurning lathes, for operation with tools</pre>		• •				
<pre>Modeorking machinery viz: End-matching machinery viz: Autored sevs Bandsaws with throat capacity not exceeding 535mm (211n.) Box mailing machines Breast benches Circular aw benches, hand-feed, including builders' treadle saw benches, with blade dismeter not exceeding 300mm (201n.) Double of the state of the state of the state of the state circular aw benches, hand-feed, including builders' treadle saw benches, with blade dismeter not exceeding 300mm (201n.) Double of the state of the state of the state circular benches with single spindle and manual feed Drill presses, well mounting, radial type not exceeding 2.2.2mm capacity in mild steel Horizontal down boring machines, not exceeding 22mm capacity in mild steel Log cut-off wing saws Post peelers Precision veneer triming saws Radial arm saws, overhead crosscut saws, and trenching machines, single spindle dyslight, for cold pressing Wertical breakdown asss we careding 142mm (56in.) diameter not exceeding 200mm (56in.) diameter Horizon (56in.) diameter and ring type not coreceding 1020mm (56in.) diameter Horizon for hard carrificial plastic materials or other down at the state up to and including 42mm. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Modutional inthes, for operation with blade incorporating this function fall within this exclusion Multipurpose or composite machines incorporating this function fall within this exclusion Multipurpose or composite machines incorporating this function fall within this exclusion Multipurpose or composite machines incorporating thes, for operation with blade in corporating thes, for operation with blade in corporating thes, for operation with blade in corporating thes, for operation with tools</pre>		•				
End-matching machines Nondowrking machinesy: viz: Automatic firewood saws Bandaws with throat capacity not exceeding 330mm (211n.) Box nailing machines Breast benches Circular breakdown saws Circular saw benches, including Uniler's treadle saw benches, Uniter's treadle saw benches, Docting saws Dovetailing machines, indis teel Log cut-off swing saws Treadle saws Treadle saws Treadle saws Treadle saws Treadle saws Treadle saws Nood debarking machines, single apindle Weneer presses manually operater and ring type not exceeding 1020mm (60in.) diameter Wood debarking machines, Roser head not exceeding 1020mm (60in.) diameter Wood debarking machines, Roser head not exceeding 1020mm (60in.) diameter Nood debarking machines, Roser head not exceeding 1020mm (40in.) diameter Wood debarking machines, Roser head not exceeding 1020mm (40in.) diameter Nood debarking machines, Roser head not exceeding 1020mm (40in.) diameter Nood debarking machines in mild steel up to and including 420mm. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Plastic granulators not exceeding 22.37kM (30 h.p.) capacity Samco model LPI5 verticel and bobbin samder Biotenporating the function fall within this exclusion) Moduring lathes, for operation with tools		C C				
Automatic Tirewood saws Bendassw with throat capacity not exceeding 335mm (211n.) Box nalling machines Breast benches Circular breakdown saws Circular saw benches, hand-feed, including builders' treadels asw benches, with blade diameter not exceeding 300mm Cut-off saws, pendulum type with motor not exceeding 3.75 kW (5 h.p.) and with blade diameter not exceeding 500mm (201n.) Docking saws Dovetalling machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 22.2mm capacity in mild steel Horizontal dowel boring machines, not exceeding Zamm capacity in mild steel Dorizontal dowel boring machines, not exceeding Zamm capacity in mild steel Dorizontal dowel boring machines, not exceeding Zamm capacity in mild steel Dorizontal dowel boring machines, not exceeding Zamm capacity in mild steel Dorizontal dowel so worked crosscut saws, and trenching machines, single spindle Veneer presses manually operated, single dylight. for cold pressing Vertical breakdown saws Mod debarking machines, Rosser head not exceeding 1425mm (55in.) diameter and ring type not exceeding 120mm (55in.) diameter and ring type not exceeding 120mm (55in.) diameter and ring type honite (vulcanite), hard artificial plastic Doriz plasting machines, hard artificial plastic Dill presses, bench or floor mounting column type, not exceeding capacities in mild steel up to and including 42mm. (Walti-purpose or composite machines interpring this function fall within this interpring this function fall within this exclusion) Moduturing lates, for operation with tools						
Bandsaws with threat capacity not exceeding 3535mm (21in.) Box malling machines Breast benches Circular saw benches, mand-feed, including builders' treadle saw benches, with blade diameter not exceeding 300mm (20in.) Docting saws Dovetailing machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 2.37 Must a comparison of exceeding 20mm capacity in mid steel Horizontal dowel boring machines, not exceeding 20mm capacity in mid steel Log cut-off swing saws Post peelers Precision veneer trimming saws Radial arm saws, overhead crosscut saws, and trenching machines, with a blade diameter not exceeding 12.2 mm (56in.) diameter not exceeding 12.0 mm (56in.) diameter not exceeding 12.0 mm (56in.) diameter and ring type motic exceeding 100mm (50in.) diameter and ring type motic exceeding 100mm (56in.) diameter and ring type aboints (vulcanite), hard artificial plastic machines, bench of floor mounting subcits other treating or of rowering wood, cork, bone. Booints (vulcanite), hard artificial plastic machines with a blade steel up to and including dama. (Multi-propose or composite machines incorporating this function fall within this exclusion) Plastic granulators not exceeding 12.37MM (30 h.p.) capacity Same on coll plays this function fall within this exclusion) Plastic granulators not exceeding 2.37MM (30 h.p.) capacity Same on coll plays the colleging fall within this exclusion) Plastic granulators not exceeding 2.37MM (30 h.p.) capacity Same on colleging 12.37MM (30 h.p.) capacity up to and including 300mm Thicknessers, with a capacity up to and including 300mm Noduturning lates, f						
<pre>335mm (2)in.) Box nalling machines Breast benches Circular breakdown saws Circular saw benches, hand-feed, including builders' treadle saw benches, with blade diameter not exceeding 300mm (201n.) Docking aws Dovctalling machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 22.2mm capacity in mild steel Horizontal dowel boring machines, not exceeding 23mm capacity in mild steel Log cut-off swing performance, not exceeding 23mm capacity in mild steel Log cut-off swing ass Precision and once for the steel spindle and trenching machines, single spindle Spiltting saws Doverses on verhead crosscut saws, and trenching machines, single spindle Veneer presses manually operated, single Spiltting saws Tenoning machines, single spindle Veneer of do pressing Vertical breakdown saws Mood debarking machines, Rosser head not exceeding 1425mm (55in.) diameter and ring type not exceeding 120mm (55in.) diameter and ring type not exceeding capacities in mild steel up to and including 42mm. (Malti-purpose or composite machines interprets hard cartificial plastic Drill presses, bench or floor mounting column type, not exceeding 2.37kM (30 h.p.) capacity Samce model LPDS vertical and bobbin sander Surface planers, buzzers or jointers with blade not exceeding 300mm Thicknessers, with a capacity up to and including 330mm. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Moduturing lates, for operation with tools</pre>						
Box natiling machines Breast benches Circular saw benches, wint blade diameter not exceeding 300mn Cut-off saws, pendulum type with motor not exceeding 3.75 KU (5 h.p.) and with blade diameter not exceeding 300mn (201n.) Doctailing machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 2.25 mm capacity in mild steel Horizontal dowel boring machines, not exceeding 220mm capacity in mild steel Log cut-off swing saws Post peelers Precision vencer triming saws Radial arm saws, overhead crosscut saws, and trenching machines, single spindle Vencer presses manually operated, single distribution vencer triming saws Radial arm saws, overhead crosscut saws, and trenching machines, single spindle Vencer presses manually operated, single distribution, diameter and ring type not exceeding 1250mm (50in.) diameter Received and 1050mm (40in.) diameter to exceeding capacities in mild steel type, not exceeding capacities in mild steel type, not exceeding capacities in mild steel up to and including 420mm. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Plastic granulators not exceeding 22.37kW (30 h.p.) capacity Samco model LPS vertical and bobbin sander Surface planers, buzzers or jointers with blade not exceeding 310mm Thicknessers, with a capacity up to and including 330me. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Woodturning lathes, for operation with tools						
Circular saw benches, hand-feed, including builders' treadle saw benches, with blade dismeter not exceeding 300mm (201n.) Docting saws Dovetailing machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 3.75 mm Capacity in mild steel Horizontal dowel boring machines, not exceeding Zomm capacity in mild steel Log cut-off swing saws Post pelers Post pelers Post pelers Post pelers Post pelers Post pelers String machines, single spindle dismeter not exceeding 120 swing 300mm Splitting saws Tenoning machines, single spindle Venery presses manually operated, single daylight, for cold pressing Vertial breakdown saws Wood debarking machines, Rosser head not exceeding 1020mm (501n.) dismeter than machines [501.000 scients] discut splitting saws Wood debarking machines, Rosser head not exceeding 1020mm (501n.) dismeter than machines falling within heading No. 84.49: EXCLUDING: Drill presses, bench or floor mounting column type, not exceeding 2020mm (501n.) dismeter than machines falling within this ecclusion) Plastic granulators not exceeding 22.37kW (30 h.p.) capacity Same one delify splitting the splitting the sourface planers, buzzers or jointers with blade not exceeding 300mm Thicknessers, with a capacity up to and including 330mm. (Multi-purpose or composite machines incorporating 10mm Thicknessers, with a capacity up to and including 330mm. (Multi-purpose or composite machines incorporating this function fall within this ecclusion)						
Circular saw benches, hand-feed, including builders' treadle saw benches, with blade diameter not exceeding 300mm Cut-off saws, pendulum type with motor not exceeding 3.75 kW (5 h.p.) and with blade diameter not exceeding 500mm (201n.) Docking saws Dovetailing mechines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 22.2mm capacity in mild steel Horizontal down boring mcchines, not exceeding 25mm capacity in mild steel Log cut-off saws, overhead crosscut saws, and trenching machines with a blade diameter not exceeding 380mm Splitting saws Tenoning machines, single spindle Veneer presses manually operated, single daylight, for cold pressing Verical breakdown saws Wood debarking machines, Rosser head not exceeding 1420mm (561n.) diameter Not exceeding 1020mm (501n.) diameter the coll for working wood, cork, hone, wood debarking machines, Rosser head not materials or other hard carving materials, other than machines failing within heading No. 84.49: EXCLUDING: Drill presses, bench or floor mounting column type, not exceeding 22.37kM (30 h.p.) capacity Surface planers, buzzers or jointers with blade not exceeding 310mm Thicknessers, with a capacity up to and including 330mm. (Multi-purpose or composite machines incorporating 105 writel and bobbin sander Surface planers, buzzers or jointers with blade not exceeding 310mm Thicknessers, with a capacity up to and including 330mm. (Multi-purpose or composite machines incorporating this function fall within this exclusion)						
builders' treadle saw benches, with blade diameter not exceeding 300mm Cut-off saws, pendulum type with motor not exceeding 3.75 W(5 h,p.) and with blade diameter not exceeding 500mm (201.) Docking saws Dovetailing machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 2.22 mm capacity in mild steel Horizontal dowel boring machines, not exceeding 25mm capacity in mild steel Log cut-off swing saws Post peelers Precision vencer trimming saws Radial arm saws, overhead crossout saws, and trenching machines with a blade diameter not exceeding 360mm Splitting saws Vertical breakers, single spindle Vencer presses manually operated, single daylight, for cold pressing Vertical breakers Wood debarking machines, Rosser head not exceeding 1420mm (561.) diameter Muchine-tools for working wood, cork, bone. exceeding 1420mm (561.) diameter than machines falling within heading No. 84.49: EXCLUDING: Drill presses, bench or floor mounting column type, not exceeding fallow attrictical plastic materials or other hard carving materials, other than machines falling within heading No. 84.49: EXCLUDING: Drill presses, bench or floor mounting column type, not exceeding fallow thin this exclusion) Plastic granulators not exceeding 22.37kW (30 h.p.) capacity Samco model LFS vertical and bobbin sander Surface planers, buzzers or jointers with blade not exceeding 300mm Thicknessers, with a capacity up to and including 330m (Multi-purpose or composite machines incorporating latis (for in fall within this exclusion) Thicknessers, with a capacity up to and including 330m (Multi-purpose or composite machines incorporating latis (for or fall within this exclusion) Woodturning lathes, for operation with tools						
diameter not exceeding 360mm Cut-off savs. pendulum type with motor not exceeding 3.75 kW (6 h.p.) and with blade diameter not exceeding 500mm (201n.) Docking savs Doversiling machines with single spindle and manual feed Drill presses. wall mourting, radial type not exceeding 22.2mm capacity in mild steel Horizontal dowel boring machines, not exceeding 25mm capacity in mild steel Log cut-off swing saws Port peelers Precision veneer trimming saws Radial arm savs, overhead crosscut saws, and trenching machines with a blade diameter not exceeding 300mm Splitting saws Tenoning machines, single spindle Veneer presses manually operated, single daylight, for cold pressing Vertical breakdown saws Wood debarking machines, Rosser head not exceeding 1420mm (56in.) diameter M4.47.000 REQUESTED APPROVAL Machine-tools for working wood, cork, bone, ebonite (vulcanite), hard artificial plastic materials or other hard carving materials, other than machines falling within heading No. 84.49: EXCLUDING: Drill presses, bench or floor mounting column type, not exceeding 22.37kM (30 h.p.) capacity Samc ondel LPS vertical and bobbin sander Surface planers, burzers or jointers with blade not exceeding 300m Thicknessers, with a capacity up to and including 330m. (Multi-purpose or composite machines incorporating 125 vertical and bobbin sander Surface planers, buzzers or jointers with blade not exceeding 310m Thicknessers, with a capacity up to and including 330m. (Multi-purpose or composite machines incorporating latis function fall within this exclusion) Woodturning lathes, for operation with tools						
Cut-off saws, pendlum type with motor not exceeding 3.75 W (5 h.p.) and with blade diameter not exceeding 500mm (2010.) Docking saws Dovetailing machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 22.3mm capacity in mild steel Horizontal dowel boring machines, not exceeding 25mm capacity in mild steel Log cut-off swing saws Post peelers Precision veneer trimming saws Radial arm saws, overhead crosscut saws, and trenching machines with a blade diameter not exceeding 360mm Splitting saws Tenoning machines, single spindle Veneer presses manually operated, single daylight, for cold pressing Vertical breakdown saws Wood debarking machines, Rosser head not exceeding 1420mm (361n.) diameter to exceeding 1420mm (361n.) diameter than machines falling within heading No. 84.49: EXQUESTED APROVAL Drill presses, bench or floor mounting column type, not exceeding capacities in mild steel Drill presses, bench or floor mounting column type, not exceeding capacities in mild steel up to and including 42mm. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Plastic granulators not exceeding 21.37kM (30 h.p.) capacity Samo odel LPIS vertical and hobbin sander Surface planers, buzzers or jointers with blade not exceeding 310mm Thicknessers, with a capacity up to and including 330mm. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Woodturning lathes, for operation with tools						
<pre>diameter not exceeding 500mm (20in.) Docking saws Doveralling machines with single spindle and manual feed Drill presses, wall mounting, radial type not exceeding 22.2mm capacity in mild steel Horizontal dowel boring machines, not exceeding 20mm capacity in mild steel Log cut-off swing saws Post peelers Precision veneer trimming saws Radial arm saws, overhead crosscut saws, and trenching machines with a blade diameter not exceeding 360mm Splitting saws Tenoning machines, single spindle Veneer presses manual yoperated, single daylight. for cold pressing Vertical breakdown saws Wood debarking machines, Rosser head not exceeding 1425mm (56in.) diameter Not exceeding 1020mm (40in.) diameter REQUESTED APROVAL REQUESTED APROVAL REQUESTED APROVAL Nachine-tools for working wood, cork, bone. ebonite (vulcanite), hard artificial plastic materials or other hard carving materials, other than machines falling within heading No. 84.49: EXCLUDING: Drill presses, bench or floor mounting column type, not exceeding 21.37kM (30 h.p.) capacity Samco model LPIS vertical and bobbin sander Surface planers, buzzers or jointers with blade not exceeding 310mm Thicknessers, with a capacity up to and including 330mm. (Multi-purpose or composite machines incorporating this function fall within this exclusion) Nodturning lathes, for operation with tools</pre>		-
