

VI CER GUIDELINE 'R' RATIONALISATION/COMPLEMENTATION POLICY LICENCES

Guideline 'R' of the Guidelines for the Allocation of Manufacturers' Exclusive Australian Licences is considered to be an important element of ANZCERTA because it provides the basis for using the Agreement to progress the development of efficient export-orientated industries in New Zealand. By providing import licences (Rationalisation/Manufacturers' Exclusive Australian Licences - R/MEALs) to companies involved in significant product rationalisation and/or product complementation proposals, Guideline 'R' enables manufacturers to place themselves in a better position to compete and trade successfully in the New Zealand/Australia free trade area. Full details of the Guideline 'R' provisions are given on p.218-29 of the Import Licensing Schedule.

The following is a list of all the Guideline 'R' (R/MEAL) licences issued to date (1 July 1983 - 31 January 1986) by item code:
