**Before the Broadcasting Tribunal**

In the matter of the Broadcasting Act 1976, and in the matter of applications for commercial FM sound radio warrants for Nelson by: (1) FIFESHIRED FM BROADCASTERS LTD. and (2) BROADCASTING CORPORATION OF NEW ZEALAND and in the matter of an application for an amendment to warrant AM-2YTC to establish an FM relay station at Grampian Hills:

**Chairman:** B. H. Slane.

**Member:** Robert Boyd-Bell.

**Hearing:** At Nelson 17, 18 and 19 March 1986.

**Counsel:** B. G. Impey for Fifeshire FM Broadcasters Ltd., J. J. McGrath and G. R. Roe for Broadcasting Corporation of New Zealand, B. H. Giles for Independent Broadcasters Association Inc.

**Decision**

Dated the 18th day of June 1987

Fifeshire FM Broadcasters Ltd. filed an application for a warrant in 1984. The same year the tribunal published a provisional schedule for the further development of commercial FM broadcasting services. While the order was tentative, Nelson was listed as a priority.

In 1985 the tribunal called for applications for commercial FM warrants to provide a service to the area served by television transmissions from the Grampian Hills. Applications were received from the Fifeshire company (superseding the earlier application) and the Broadcasting Corporation of New Zealand.

**Existing Services in the Area**

Nelson presently receives a commercial service from 2ZN operated by Radio New Zealand of the Broadcasting Corporation of New Zealand ("the corporation"). The 2ZN programme is relayed to Golden Bay by relay station 2ZT. The National Programme service from 2YC is also provided by the corporation except on Saturday and Sunday evenings when the Open Concert Programme is rebroadcast. 2XL is a relay station of 3XG Christchurch broadcasting the programme of Radio Rhema. 2YA and 2YC transmissions from Wellington are received but the signal is not adequate.

**The Application**

Fifeshire FM Broadcasters Ltd. ("Fifeshire") proposed an alternative commercial service directed primarily to the 15-39 years age group within the population of 62,000.

The applicant would have a capital of 800,000 ordinary shares of $1 each.

The $1 shares would be held as follows:

750,000

Fifeshire Music Co. Ltd. 50,000 options exercisable within 5 years

800,000

$100,000

The chairman of the company would be Garth Butler, former managing director of TNL Group Ltd., a Nelson-based major New Zealand company, and director of several other listed companies.

Other directors would be D. R. Lucas, managing director of R. Lucas & Co. Ltd., G. M. Lawley, sales executive, M. G. Neale a sharebroker and D. A. Gold, managing director of Capital City Radio Ltd.

K. D. Ihaia was proposed as general manager and sales manager. D. A. Gold would act as a consultant to the station. A programme manager would be appointed on the grant of the warrant.

The company estimated initial costs of technical equipment at $375,970 and the antenna system at $37,766. With studio costs the total cost of the establishment of the station would be $625,151.

Revenue in year 1 was estimated at $501,500 retail and $88,500 agency/national, a total of $590,000. After commissions, levies and royalties the net revenue would be $493,830. Expenditure would be $452,000, plus depreciation of $77,510 giving total expenditure of $529,510. The loss for the first year would be $35,680.

After allowing for inflation, estimated revenue was increased in the second year by more than the rate of inflation and the result would be a smaller loss. A small profit in the third year would rise to $69,470 in the fourth year.

The advertising rates proposed were $25 for a 30-second spot in the breakfast period, 6 a.m. to 10 a.m., $18 for the rest of the day to 7 p.m. and $12 from 7 p.m. to 1 a.m. It was estimated that in the first zone 4.07 minutes per hour would be sold and for the rest of the day 2.32 minutes per hour would be sold.

The station proposed a self-imposed limit of 8 minutes advertising per hour.

Fifeshire estimated a pre-operating negative cash flow of $91,000, decreasing in year 1 to $49,000 and in year 2 to $3,000. By year 3 it was expected to have a positive accumulated cash flow of $77,000 rising in year 4 to $203,000 and in year 5 to $333,000.

The applicant said it had sufficient resources to arrange financing through a combination of debt finance and equity investment.

Fifeshire planned to present the station to a somewhat younger audience than the existing AM stations for it was in that age group that the most significant growth was first achieved in FM radio listenership. The target audience would be 15-39 years, with a primary audience skew towards 18-34 expected.

This was based on the assessment that 2ZN Nelson provided an information based community programme targeted to a 25-54 year age group and the National Programme provided news, current affairs and music targeted mainly to a 50-year-plus audience. 2XL Radio Rhema provided gospel-oriented music and features for a minority audience.

The station proposed to take a news service from Independent Radio News Service and Independent Radio Sports, both based in Wellington. Local news would be broadcast at 7, 8 and 9 a.m., 12 noon and 1 p.m. on weekdays.
The corporation proposed the establishment of a ZM station to carry a network ZM-FM programme from Wellington with a locally originated programme between 6 a.m. and 10 a.m. and the ability to trigger pre-packaged local inserts by inaudible coding during other parts of the day.

The corporation's proposal involved technical equipment costs of $269,200. This was made up of establishment costs of transmission equipment and annual rental in respect of the antenna system of $138,000, with $131,200 required for fixed and portable studio technical equipment and other equipment.

Radio New Zealand had budgeted for national advertising in the first year of $84,270 and local advertising of $282,120 bringing total income to $366,390. Marginal costs incurred for the station would be $354,567 producing an estimated surplus of $11,823. That surplus would increase to $91,351 in the second year and $144,442 in the third.

The BCNZ proposed an advertising rate of $10 for a 30-second spot in the breakfast session, $6 from 10 a.m. to 4 p.m., $8 from 4 p.m. to 7 p.m. and $3 from 7 p.m. to midnight.

The BCNZ said the new station would be a contemporary music station with a defined target audience aged 15–29 years to complement the existing and proposed services provided by Radio New Zealand in the area.

The corporation also applied for an amendment to the 2YC AM warrant to introduce a FM stereo relay station for Nelson. That is dealt with separately from the commercial application in this decision.

**Issues**

The detailed considerations which led us to our conclusion are set out under the headings drawn from section 80. It is appropriate here to summarise the major issues put to us by both applicants.

It was accepted by both parties that the market in the Nelson area is not at present large enough to absorb 2 new stations. It was also common ground that there was a gap in the scope of existing services provided by radio in Nelson, although the definition of that gap differed.

The corporation's proposal was to introduce a metropolitan music programme with some local content, directed to a 15-29 age group. While it must be acknowledged that a narrow format might better fill a third level of service after an established Radio New Zealand in the area, we do not find it to be a priority when there is room for only 2 commercial services viable, we do not find it to be a priority when there is room for only 2 commercial services.

Fifeshire's is a competitive application which would overlap much more with ZZN and of course would be fighting for its market share as a competitor of the corporation. It would introduce competition into the market place.

Fifeshire's proposal was locally originated, had a great deal of merit, and we considered the programming proposals more desirable than those of the corporation.

It can be desirable to have programming which does not fit neatly into 2 non-competitive slots but rather provides some considerable overlap, thus giving a real second choice to a number of listeners. While it must be acknowledged that a narrow format might better suit those at the lower end of the target age group, a choice for those at the other end of the same age group more than compensates for the dilution of the ZM-FM music to encompass a wider range.

The tribunal has put considerable weight in its deliberations and conclusion on the desirability of competition between separate entities.

**Section 80**

In considering the applications for warrants, the tribunal, before determining whether or not to grant the applications, has had regard to the following matters, so far as they are applicable (matters are dealt with under particular headings for the convenient grouping of material, although they may also be relevant under other headings or in relation to more general issues):

(a) The extent to which the proposed service is desirable in the public interest.

The Fifeshire application was put forward on the basis that it too would provide programmes complementary to those provided by Radio Nelson (ZZN) with its talk and community based information and music service, through a more musically orientated format appealing to 15-39 year olds. It was also argued that real competition between the 2 stations arising from their separate ownership would improve radio services generally. There would be alternative international, national and local news, and advertisements would be diverse by the competition.

The corporation argued that the potential popularity of the ZM format with its target age groups in Nelson had been established by the evidence of Mr Celmins, programme co-ordinator for ZM/FM, and that there was a need to meet the existing service demand for music, for those at the other end of the same age group more than compensates which at present lacked a radio service. The corporation argued, and it was generally acknowledged, that the younger audience was more likely to switch to FM and, as the ZM format particularly appealed to the under 25 audience, the ZM/FM application would help bring that change about.

The corporation contended that granting the Fifeshire application instead of the ZM application would mean there would be greater overlap in the 15-29 age group. The young end of the potential ZM audience (15–18) would not find Fifeshire a satisfactory alternative musically and a ZM service may well be their choice over Fifeshire.

The contrary view which the tribunal adopted in Allowance of Fifeshire's proposed station initially the target audience should not be quite as tightly allocated as that. A new station in this situation with a wider demographic appeal, while less satisfying perhaps to those in the younger age group, does provide an alternative service to those at the older end (30–39) of its target audience who will find both the existing AM and the new ZM stations acceptable.

In a provincial centre we do not think that aspect should be lost sight of, particularly as it is possible (by what is called "day-parting") to move the programming up or down within the target age group according to the likely audience at the time of day. Thus providing at night a service closer to that offered by ZM but in the daytime providing a wider range of music to a wider audience.

ZZN carries a significant information and spoken content. Many of the non-music needs of the listeners 25–39 will be met by that service but for music they may prefer the younger (but not too young) style proposed by Fifeshire. ZM's contemporary hit radio format would satisfy fewer of them and would find less favour in the 29–44 age group. It would also mean that a narrower range of people would gain some satisfaction from the introduction of music broadcast in the FM mode.

The second aspect that we considered important was the local origination of Fifeshire's proposed station initially for 19 hours per day. We believe that this is a benefit to the local community. In this respect although the simplified local identity and other local programming can give the appearance of local identification by the injection of lifestyle and other local programming elements by remote control it is a substitute for a full local service rather than the establishment of it.

While ZM would doubtless provide local programming during peak hours (from 6 a.m. to 10 a.m.), its important benefit is to be a metropolitan contemporary hit radio sound to the audience. While we believe this may be desirable provided that other commercial services are viable, we do not find it to be a priority when there is room for only 2. Indeed we did not find it by any criteria the first preference after ZZN for this area.

As a specialist service with a tight format it seems to fill a third level of service after an established Radio New Zealand community station and a competing independent operation.

We referred to this role in the Manawatu decision (decision No. 14/85): "Mr Dunlop said that Radio New Zealand has accepted that it was probable that all communities with a population about 40000 would eventually have 2 local stations and population centres about 25000–40000 would have 1. He said the ZM service as the third service taking advantage of lower costs from networking which could accommodate it in the market."
The effect which the establishment of the station to which the application relates may have on broadcasting services provided by the corporation is a matter which must be considered.

Initially the corporation's case was put to use on the basis that the economic effect on Z2N of granting the application of Fifeshire would be very serious. In evidence however, head of marketing for Radio New Zealand, accepted that the latest figures provided by Fifeshire pointed to there being room in the market for 1 more station, and that it was reasonable to assume that the market consequential on the establishment of an additional station would be of the order of 20 percent to 30 percent. It was therefore the view of both parties that there was room for 1 extra commercial station.

The tribunal was told that the ratio of population to commercial stations in the Nelson market would be 1 of the lowest in New Zealand if a private warrant was granted. While such a station would be comparable to Palmerston North with 3 stations, it would be higher than Palmerston North with its present 4 commercial stations.

The total advertising dollars spent per head of population were ahead of those other centres which suggested a well developed radio market, according to the corporation. However Mr Gold challenged some of the conclusions drawn from those figures, including the retail turnover per capita, in which Nelson's ratio is lower than some other centres.

According to the corporation evidence, the impact on Z2N if Radio Fifeshire were to gain the sole warrant would be $57,600 assuming 20 percent growth in the market. There would be no effect if there were 25 percent growth.

We do not intend to embark on a detailed economic analysis of the Nelson market since the parties virtually accepted there should be only one new warrant granted. Although the tribunal considers there is more growth likely than the corporation estimated, it would stretch the resources of all concerned to attempt the introduction of 2 new commercial services now.

The tribunal found that the Fifeshire application's merits clearly outweighed the disadvantages arising from the effect on Z2N and the corporation. We then examined whether a second warrant should be granted.

We concluded that it would not be practicable to grant a second warrant to Z2M/FM at this stage.

In particular, to do so would appear to put the corporation in a less than satisfactory financial position since the cost of the second station would be borne to a considerable extent by the corporation, thus reducing its ability to support and extend its non-commercial YC/FM programme.

Furthermore, to issue a third commercial warrant, it would have been necessary to reduce the advertising minutes per week to such an extent as to make the proposition unattractive to the corporation. The corporation clearly considers the delivery of a young people's popular music programme as a public service only if it can be a supplement from commercial revenue.

The YM programme cannot, therefore, by the corporation's own policy be seen as a public service element of the corporation's activities as contemplated by section 80 (c). If it were, the effect of the non grant, the lack of a ZM/FM service, is minor.

The needs of New Zealand or the locality or localities proposed to be served, in respect of broadcasting services—

One of the benefits put forward for the ZM/FM application is that the "tandem" YM/FM service would be established at the same time. Evidence of the importance of the Concert Programme to this area was given to the tribunal.

However we conclude that the tribunal should not come to a decision to provide a clearly less desirable service to the listeners of this area, some four-fifths of whom are commercial radio listeners, in order to bring benefits to an audience of 3 percent to 5 percent who are potential listeners to the Concert Programme.

We believe such an arrangement could be entered into and the Corporation ought to look positively at ways of achieving the object of bringing the Concert Programme to Nelson.

The financial and commercial ability of the applicant to carry on the proposed service—

The application of Fifeshire was a strong one with strong local shareholding, the support of Radio Windy and its managing director Mr Gold, with Mr Ihaia, a Maori broadcaster, holding 66.6 percent of the shares, bringing what we consider to be reasonable management potential. The financial proposals are sound and the application well planned and prepared. The evidence supported the availability to the revenue projected.

The corporation's proposal was also well prepared and supported in evidence, the financial projections providing surplus figures—which have to be distinguished from profit—of $1,823, $91,351 and $144,442 in the first 3 years respectively.
The corporation alleged that the Fifeshire application was weak in terms of management talent, and Mr Ihaia's business experience was limited, and that Mr Gold, a non-executive director and consultant, lives in Wellington.

This criticism has to be taken within the context of the fact that the corporation itself "lives" (i.e., has its head office) in Wellington and provides advice at long distance for local managers. We are unaware of who would be appointed manager of a ZM/FM station so we are not comparing Mr Ihaia with a proposed management appointed by the corporation. We would expect however that the person appointed by the corporation would be competent. We believe with the guidance of Mr Gold and other directors Mr Ihaia is capable of establishing and commencing the operation of the station. It is accepted that a programme director would be appointed.

(f) The likelihood of the applicant carrying on the proposed service satisfactorily—

We believe that both applicants would be likely to carry on their proposed services satisfactorily.

We are impressed with the board of directors of Fifeshire, the stability and business experience of those behind the application, and the availability of consultancy and directorial talent.

We are also impressed with Mr Ihaia as a broadcaster.

(g) The results of any survey available to the tribunal—

The corporation's position was that the available survey material was neutral, Fifeshire claimed that both the McNair and Radio New Zealand surveys confirmed the demand for the service proposed by Fifeshire. After a taste of a short-term broadcasting authorisation granted to Fifeshire Music Co. Ltd. the "favourite station" classification of ZZN by listeners had dropped by 37 percent from 78 percent, with very high listenerships to the Fifeshire station by people aged between 15 and 29 years, and a 30 percent listenership amongst those aged 30 to 39.

Radio New Zealand claimed that this merely indicated that young people were least happy with the ZZN format, and that older people remained loyal to Radio Nelson.

Fifeshire claimed that a substantial proportion of those aged 15 to 44 found Fifeshire appealed to them.

The corporation claimed however that the Fifeshire short-term broadcast was not linked in evidence satisfactorily with the proposals made by Fifeshire. In this respect Fifeshire acknowledged no significant changes in programming.

Overall the tribunal found that the survey evidence justified the need for a station for a younger audience, but also supported the wider range of programming offered by Fifeshire.

(h) The requirement that frequencies be best utilised in the public interest

There were no matters requiring to be taken into account under this heading.

(i) The desirability of avoiding monopolies in the ownership or control of news media—

The corporation's news service would be provided through both ZN and ZM with additional material being gathered for the ZM station.

Capital City Radio's 119 200 shares comprise 14.9 percent of a capital of 800 000 shares. If only 750 000 shares are issued and the options do not carry a right to vote, the 119 200 shares would comprise 15.9 percent.

We assume this was not intended as no application for consent to a prescribed interest was said to be involved, and that it is intended to maintain a shareholding under 15 percent.

We did not consider that, in view of the restrictions in the Broadcasting Regulations, there was any objection that could be taken to such a shareholding which falls short of a prescribed interest. The programming, sales and promotions assistance of that station and of Mr Gold has been noted. The assistance will have to fall short of exercising control in terms of regulation 18.

The extent of cross media ownership proposed was considered by the tribunal. Through R. Lucas & Sons Ltd., proprietor of the Nelson Evening Mail, the local newspaper proposed a 40 percent interest, reducing to 37.5 percent in the event of Fifeshire Music Co. Ltd. exercising its 50 000 options within 5 years.

Capital City Radio's proposed interest of 14.9 percent would give a total news media company interest of 54.9 percent initially, potentially reducing to 52.4 percent within 5 years.

The tribunal noted that some of the minor shareholders proposed were also closely associated with the Nelson Evening Mail.

In decision 7/85 regarding the Christchurch FM radio warrant applicants, the tribunal referred to the desirability of media involvement in local FM radio stations, imposing a condition "that the news media ownership limit be 30 percent but consent to the 2 named companies having a 40 percent interest each, for so long as:

1. They do not take shares in each other (either directly or indirectly)
2. The ownership of those 2 companies does not change to the extent that any shareholder which is a news company (as will be defined in the warrant) gains a prescribed interest in the warrant."

It is Government policy that applications by newspaper companies for commercial FM warrants should be considered on their merits, as was recommended by the tribunal in its 1981 FM Report.

The tribunal has had regard to the proud record of the Nelson Evening Mail as a family company serving the area for more than 120 years, and the evidence given by D. R. Lucas.

Mr Lucas volunteered to accept a condition guaranteeing editorial independence for Radio Fifeshire along similar terms to that imposed in the warrant of Radio Waikato. The tribunal will impose a condition requiring that deed to be filed.

The tribunal will also impose a condition along the lines of that in the Capital City FM warrant.

The corporation would without the grant of Fifeshire's application, have a monopoly of radio services in the area, except for the Radio Rhema relay station. The tribunal gave some weight to that.

The tribunal considered it is desirable that a separate news service be provided and gave some, but not great, weight to this point.

(j) The hours during which the applicant proposes to broadcast programmes—

ZM/FM would broadcast continuously.

Initially and for 3 years Fifeshire would broadcast continuously, except between 1 a.m. and 6 a.m. 5 mornings a week. After 3 years it would broadcast continuously 7 days a week.

The shorter hours during the establishment of the station for a market that is not a very stable. The disadvantage is more than outweighed by the local origination for the 19 hours weekdays and 24 hours in weekends.

This aspect of the proposed service is also relevant to section 80 (d)—the needs of the locality. We believe that there is a benefit, subtle but nevertheless real, in an extensive local origination for provincial cities.

Radio New Zealand networks ZZN for about half its hours and provides the National Programme by network. Radio Rhema provides a Christchurch based programme on relay.

ZM/FM would be networked (with "inserts") for most of the weekdays and the weekends.

(k) The extent of advertising matter which the applicant proposes to broadcast—

Fifeshire proposed a self-imposed limit of 8 minutes advertising per hour. As it will be a sole FM operator, the tribunal would impose a condition imposing that limitation.

The corporation proposed no fixed limited.

(l) The proposed rates and charges to be made in respect of advertising programmes—

No issues arose as to the various rates and charges being made.

(m) Such matters as may be necessary for the purpose of imposing conditions under section 71A of this Act—

The tribunal did give consideration as to how it should approach the issue of the Concert Programme extension.

As stated elsewhere, an amendment to permit a relay station will be granted to the corporation but the indication was that it may not be taken up without a ZM/FM warrant grant.
For that reason the tribunal decided it would be appropriate to make it a condition of this warrant that the applicant take all steps necessary to establish a relay station for the YC Concert Programme within 3 years of commencing broadcast, subject to programme reticulation being made available at the expense of the corporation to the transmitter site. If the corporation for whatever reason declines to make such services available to Fifeshire, the condition will lapse. We accept that this is a considerable burden on Fifeshire, but one it was prepared to undertake in the light of the present situation. The corporation may well see it as its duty, having regard to the financial outcome which now results, to make a greater effort itself to provide this programme service to the area. In the short term we believe that the corporation will be prepared to provide this service now than if the ZM application had been granted. But we concede that this may not be the case in the long term.

We also considered the question of a limitation on advertising minutes. The tribunal believes that where there is one FM station operating in a market, it should be prepared to accept a condition of 8 minutes per clock hour. Such a condition will be inserted in the warrant.

(a) All relevant evidence or representations received by the Tribunal at the hearing—

We have had particular regard for the submissions made by the Nelson School of Music and others who seek the YC/FM programme.

(o) Such other matters as may be prescribed in regulations in that behalf—

Regulation 15A of the Broadcasting Regulations requires the tribunal to have regard to the policy of the Government under which a frequency modulation broadcasting service is to be developed as an integral part of sound radio broadcasting in New Zealand. The tribunal is required to have regard to the policy of the Government as required by section 68 of the Broadcasting Act 1976.

The tribunal has had regard to the policy set out in the 1981 notice to the Minister of Broadcasting which, except in one irrelevant respect, remains in force. Also we have had regard to the further statement of Government policy in the notice of 14 August 1985 to the tribunal. The tribunal is given notice in paragraph (1) of this notice direct that you, the Broadcasting Corporation of New Zealand, shall—

(c) Whenever you are authorised to establish a commercial FM broadcasting station, seek to establish at that location, before its establishment or contemporaneously with its establishment, where practicable and where authorised by the tribunal, a FM broadcasting relay station or a FM broadcasting relay station for the broadcasting of the Concert Programme:

We therefore acknowledge the corporation’s obligation under the policy that the ZM programme be broadcast from FM stations in such a manner that the programme becomes available progressively throughout New Zealand in conjunction with the extension of the Concert Programme.

The weight that should be given to such statements was set out by Holland J. in BCNZ and FM Radio Enterprises Ltd, v Metropolitan FM Broadcasting Ltd, and Others M 363 and 364/82 High Court, Wellington Registered at pages 13 and 14 where, in criticising the Tribunal’s statement that:

"While the Tribunal must have regard to the criteria laid down in section 80, it must equally have regard to Government policy under section 68", His Honour said.

"The use of the word ‘equally’ is unfortunate. The tribunal must have regard to the provisions of section 68 and section 80, but section 80 prescribes the matters which the tribunal must take into account when considering an application for a warrant. A direction from a Minister cannot defeat the requirements of an Act of Parliament nor can it be equated with those requirements. The existence of Government policy is not to be balanced against the criteria in section 80 if it is in conflict with the criteria in section 80. If the Government wishes to change the criteria laid down in section 80 it must do so by Act of Parliament and not by Ministerial direction under section 68.

In our decision 16/84, known as the YC-FM decision, we said:

"We take the point that we should not give equal weight to the ministerial direction on its own, and we do not give equal weight to it with the other factors under section 80. In some respects and in some aspects of the application the Government policy carries considerable weight. This is particularly so in relation to the extension of services to provincial areas and the extension of hours. In others we have not been convinced that it is a factor which should outweigh other considerations.

It is necessary to note, because it has been overlooked in the past, the regulation 15A (SR 1981/295) requires that the tribunal have regard to the policy of the Government under which a FM broadcasting service is to be developed as an integral part of sound radio broadcasting in New Zealand. That policy becomes a section 80 consideration.

We therefore do have regard to and give weight to Government policy on FM broadcasting both under section 80 and under section 68.

There is a ministerial notice to the corporation, also dated 14 August 1985 setting out the policy referred to in the notice to the tribunal. Paragraph 3 reads:

"(3) In pursuance of the general policy set out in clause (1) of this notice direct that you, the Broadcasting Corporation of New Zealand, shall—

(e) Whenever you are authorised to establish a commercial FM broadcasting station, seek to establish at that location, before its establishment or contemporaneously with its establishment, where practicable and where authorised by the tribunal, a FM broadcasting relay station or a FM broadcasting relay station for the broadcasting of the Concert Programme:

We therefore acknowledge the corporation’s obligation under the policy that the ZM programme be broadcast from FM stations in such a manner that the programme becomes available progressively throughout New Zealand in conjunction with the extension of the Concert Programme. We have commented on aspects of that policy before most recently in decision 4/87, and do not consider it necessary to repeat those comments here.

Having had regard to the ministerial notices and the policies set out therein and to the regulations and having given them appropriate weight in relation to section 80 considerations we have decided in all the circumstances of these applications to grant the Fifeshire application and not to grant the ZM/FM application.

This is not to rule out the possibility of the establishment of such a station at a later date, or indeed at a not too distant date, should the corporation be prepared to accept some restriction on its advertising revenue from that station. But it appears unlikely that such a station can be established in this area in the near future without a serious impact on the corporation’s 2ZN. The corporation may be prepared to sustain that effect and incur the additional costs because of its desire to bring the ZM programme service to the area. At that stage we would have regard to effect on the private competitor and we cannot prejudge that situation now.

Application for Concert Programme

The corporation applied for an amendment to the 2YC warrant to add a relay station at Grampian Hills to broadcast the Concert Programme in stereo FM. The application was not opposed.

There was opposition, notably from the IBA and Fifeshire to linking the establishment of the relay to the grant of a ZM/FM warrant: the tandem approach.

Evidence in support was given by H. A. Young, manager of the Concert Programme and Richard Rainey on behalf of the Nelson School of Music.

Miss Young produced evidence of the demand for the service and described the area as one which is particularly culturally aware.

We do not need to traverse section 80 criteria since the application is not opposed and is in accordance with Government policy.

R. G. Davis in his evidence generally for the corporation traversed the tandem policy and the reasons for the application. M. J. P. Dunlop also gave evidence on the policy aspects.

A case was clearly made out for the application to be granted.

It is not clear at this stage however whether the corporation will, in the light of the Tribunal’s decision, wish to proceed with the establishment of the Concert Programme in Nelson.

In our decision 82/86 we are appropriate in the circumstances for the tribunal to indicate its willingness to see the YC programme established by granting the application which is an application to amend the 2YC warrant by the addition of a relay station, and we grant that application accordingly.

It is clearly in the public interest for the service to be extended but if the corporation is unable to take up the opportunity
to do so immediately, it may be prepared to enter into negotiations with Fifeshire for that purpose.

In deciding its future course the corporation may well take account of the unusual delay in the tribunal completing this decision which has given the corporation a continuation of its commercial radio monopoly. The delay was not due to any such consideration but the resulting windfall for the corporation may enable it to advance the establishment of the FM Concert Programme.

We are sure the corporation will examine the situation positively.

Decision

The corporation’s ZM-FM application is declined. The Fifeshire application is granted.

The following conditions will apply:

1. The coverage objectives will be defined on the basis of the technical evidence.
2. The grant will lapse if not taken up within 12 months or such further period as the tribunal may approve.
3. The usual advertising condition.
4. The maximum advertising per clock hour will be 8 minutes.
5. The usual condition as to adherence to content and format.
6. The usual condition as to technical standards.
7. News media ownership will be limited to 30 percent.
8. The tribunal will consent to R. Lucas & Sons Ltd’s interest of 40 percent (reducing to 37.5 percent if the options are taken up) and Capital City Radio Ltd.’s interest of 14.9 percent for so long as:
   1. Neither takes shares in the other either directly or indirectly;
   2. The ownership of either of those 2 companies does not change to the extent that any shareholder which is a news company (as will be defined in the warrant) gains a prescribed interest in the warrant.
9. The usual provision on networking.
10. The transmitter will be co-sited with the television facility at Grampian Hills.
11. The warrant holder will take all steps necessary (including any application to this tribunal) to establish a non-commercial FM station at Grampian Hills for the sole purpose of relaying the Concert Programme of Radio New Zealand subject to the corporation indicating its willingness:
   (a) to provide the programme at Grampian Hills,
   (b) to allow co-siting at the expense of the warrant holder, within a period of 3 years of the date of commencement of broadcasting.
12. The hours will be applied for. Within 3 years of commencing broadcasting the hours will be increased from 19 to 24 in week days.
13. A deed of editorial independence from R Lucas & Sons Ltd. in a form approved by the tribunal.
14. The articles of association of the applicant will have to comply with the tribunal’s requirements under the Broadcasting Regulations. If any prospectus is issued any references to the warrant or to the tribunal must first be approved by the tribunal.

The corporation’s application to amend the 2YC-AM warrant is granted on the following conditions:

1. The grant will lapse if the relay station is not ready to broadcast within 2 years of the date of this decision;
2. The coverage objectives will be defined in accordance with the technical information.

Signed for the tribunal:

B. H. SLANE, Chairman.

This is one of a series of monographs prepared by Elsdon Best, who spent many years in close contact with the Maoris of the Urewera, and has prepared studies based on wide knowledge and insight. This particular monograph studies the Maori systems of astrology and natural astrolatry, plus other natural phenomena. It has been reprinted without any changes because, though first published in 1922, it still provides the student and general reader with good source material.

MAORI DIVISION OF TIME

Elsdon Best

52 pp. 1986 reprint $6.55 plus $2.20 p & p

This monograph, reprinted without revision, provides a record of the Maori division of time as well as references to other Polynesian systems. The Maori year is divided into 365 days; the nights of the moon are examined. The names of seasons, terms employed to denote time and miscellaneous notes are also included, making this a fascinating and comprehensive source document.

FISHING METHODS AND DEVICES OF THE MAORI

Elsdon Best

264 pp. 1986 reprint $32.95 plus $5.50 p & p

This book is one of a series of bulletins prepared by Elsdon Best and reprinted without revision. This bulletin remains the only comprehensive account of most aspects of Maori fishing. The emphasis is upon inland and estuarine techniques, as these are the techniques Best was able to observe most closely. The detailed fishing methods are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances, and fishing lore. This comprehensive book provides a wealth of information for the student and general reader.

SPIRITUAL AND MENTAL CONCEPTS OF THE MAORI

Elsdon Best

57 pp 1986 reprint $6.55 plus $2.20 p & p

This monograph, reprinted without revision, analyses the different concepts held by the Maori about the spirit and the mind. The material is very valuable and the concepts discussed in this particular monograph provide a deep insight into the Maori beliefs and customs.

TOWARDS A STRATEGY FOR NEW ZEALAND AGRICULTURE
Rowland Woods, Ken Graham and Peter Rankin
$27.44 plus $5.50 p & p
For 100 years, agriculture has been the driving force of the New Zealand economy. It is tempting to assume that this will always be the case, but it is important to realise that the future of New Zealand agriculture is not certain. It is, in fact, affected by economic, politi­cal and cultural events and trends. This report addresses the agri­cultural problems facing New Zealand farmers and business people. It sets out guidelines for future planning, and offers advice for agri­cultural management.
