**36.3 Regional Services**

**When to Use**
- To construct a rate where freight is transported intra-regionally between two “country centres” adjacent to the same “Main Centre”.
- To establish a rate for consignments moving solely between a “Country Centre” and an adjacent “Main Centre”.

**How to Use**
- Identify main centre nearest where you believe country centre(s) lie.
- Check that the centre(s) is/are listed under that main centre.
- Write down the zone(s) applicable. The zone prices are shown at the foot of every main centre price chart.

Note: Total charges less than or equal to Zone D do NOT apply.
