The above Schedule has been drafted under various sub-headings to enable easier recognition of valve types and to reflect Tariff Industry Assistance policy introduced in January 1986. The decision has been taken to dispense with 'Brand Name' and 'End Use' criteria and move solely to a generic-based format. Any person wishing to lodge an objection to the withdrawal of 'Brand Name' or 'End Use' concessions should provide a suitable wording within the above Schedule framework.

Concessions for OTHER THAN 'Brand Name' or 'End Use' have been amalgamated and the above Schedule is the proposed 'Variation'. Interested parties should verify that current concessions being utilised by them are in fact covered. Concessions issued since 1 January 1987 are not included in the above Schedule. Concession Holders should analyse the various sub-heading groups in the Schedule and forward to the 'Valve Concession Review' details as to group and wording to cover their existing concession.

NOTE: Brand Names or End Use are not acceptable.

Persons wishing to lodge an objection to the withdrawal or variation of any decision covered under the above should do so in writing on or before 15 September 1987.

Submissions should be addressed to - 'The Valve Concession Review', Comptroller of Customs, Private Bag, Wellington, and must include reference to the concession code under which the goods in question are currently approved.

Dated at Wellington this 23rd day of July 1987.
