

Transport Licensing Authority Sitting

PURSUANT to the Transport Act 1962 as amended by the Transport Amendment Act No. 2, 1983, the No. 6 Transport District Licensing Authority (W. O'Brien), gives notice of the receipt of the following applications and will hold a public sitting to receive evidence or representations, whether submitted in writing or presented in person for or against the granting of them in the No. 2 Court Room, 10 Market Place, Wanganui, commencing on Wednesday, 4 November 1987 at 11 a.m.

Applicants must be present or represented. All documents for alteration must be handed in at the sitting.

A6/87/104 Arama Whanarere and Kura Whanarere, Wanganui. Transfer Taxicab Service Licence No. 10043 from Mary Meregue Phillips and Keith Eliot Phillips, Wanganui. One Public Hire Cab Authority, Wanganui.

Dated at Wellington this 12th day of October 1987.

J. MOIR, Secretary.

No. 6 Transport District Licensing Authority.

The Standards Act 1965—Amendments to Overseas Specifications Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the under-mentioned amendments to overseas specifications are being considered for endorsement as suitable for use in New Zealand.

Number and Title of Specification	Amendment No./AMD (Price Incl. GST)
BS 806:1986 Specification for design and construction of ferrous piping installations for and in connection with land boilers. (First updating of BS 806:1986)	2/5660
BS 1309:1974 Methods of sampling and chemical testing of leather	2/5378 (\$18.48)
BS 1571:— Specification for testing positive displacement compressors and exhausters— Part 2:1975 Simplified acceptance tests for air compressors and exhausters.	3/5576 (\$6.16)
BS 1740:— Wrought steel pipe fittings (screwed BS 21 R-series thread)— Part 1:1971 Metric units.	2/5517 (\$6.16)
BS 3074:1983 Specification for nickel and nickel alloys: seamless tube	1/4491 (Gratis)
BS 3799:1974 Specification for steel pipe fittings, screwed and socket-welding for the petroleum industry.	2/5476 (\$30.80)
BS 4656:— Specification for the accuracy of machine tools and methods of test— Part 8:1974 Internal cylindrical grinding machines with horizontal spindle. Part 9:1974 External cylindrical grinding machines with reciprocating table.	2/5518 (\$6.16)
BS 4683:— Electrical apparatus for explosive atmospheres— Part 2:1971 The construction and testing of flameproof enclosures of electrical apparatus	1/5371 (\$18.48)
BS 4730:1985 Specification for UK 7-bit coded character set.	1/5372 (\$18.48)
BS 5044:1973 Specification for contrast aid paints used in magnetic particle flaw detection	1/4275 (\$18.48)
BS 5163:1986 Specification for predominantly key-operated cast iron gate valves for waterworks purposes	2/5570 (\$6.16)
BS 5346:1976 ISO metric trapezoidal screw threads.	1/5436 (Gratis)
BS 5351:1986 Specification for steel ball valves for the petroleum, petrochemical and allied industries.	2/5430 (\$6.16)
BS 6007:1983 Specification for rubber insulated cables for electric power and lighting	3/5507 (Gratis)
	1/5621 (\$6.16)
	1/5527 (\$6.16)
	1/5219 (\$30.80)

All persons who may be affected by these amendments and who desire to comment thereon, may obtain copies from the Standards Association of New Zealand, Wellington Trade Centre, 181-187 Victoria Street (or Private Bag), Wellington.

The closing date for the receipt of comment is 15 December 1987.

Dated at Wellington this 12th day of October 1987.

DENYS R. M. PINFOLD,

Director, Standards Association of New Zealand.

(S.A. 114/2/1)

The Standards Act 1965—Draft New Zealand Standard Specifications Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft New Zealand standard specifications are being circulated.

Number and Title of Specification

DZ 6216 Plugs and socket outlets. \$11.00 (incl. GST).

This draft specification applies to plugs and socket-outlets intended for use at extra-low, low or medium voltages, for household or similar purposes. The specification does not apply to: appliance couplers for household and similar general purposes; plugs and socket-outlets for installation wiring; or plugs, socket-outlets and couplers for general industrial application.

The draft is one of a series of four Standards that will replace NZS 198:1967 and NZS 2147:1967. The other three drafts are:

DZ 6217 Cord extension sockets.

DZ 6218 Plug socket adaptors.

DZ 6219 Electrical portable outlet devices.

All four drafts are based on Australian Standards and most of the differences between the New Zealand and Australian Standards are minor. However, as flat-pin socket-outlets in New Zealand are rated at 10A, all references to the 15A and 20A plug and socket-outlet systems used in Australia have been omitted.

DZ 6216 includes ergonomic requirements for plugs to enable users to get a firm grip for easy withdrawal, but does not cater for the requirements of handicapped users of plugs, sockets outlets and related accessories.

DZ 6217 Cord extension sockets. \$11.00 (incl. GST).

This draft applies to cord extension sockets intended for use at extra-low, low and medium voltages. It does not apply to cord extension sockets which are enclosed within an appliance in such a way that they are not exposed to personal contact, or which are intended for use solely where they will be so enclosed.

DZ 6218 Plug socket adaptors. \$7.48 (incl. GST).

This draft applies to plug socket adaptors intended for use at low or extra-low voltage.

DZ 6219 Electrical portable outlet devices. \$7.48 (incl. GST).

This draft applies to electrical portable outlet devices, primarily intended for household and similar use at low voltage and which are connected to the supply by either a flexible cord and a plug complying with 6.1 or an appliance inlet socket complying with 5.1 (b).

The draft does not apply to cord extension sets, portable current-operated (core balance) earth-leakage devices, plug socket adaptors, e.g., 'double adaptors', which are covered by DZ 6218, electric inspection handlamps, portable switching or control devices or separate devices for the storage of flexible cords or cord extension sets, e.g., a cable tidy.

All persons who may be affected by these publications and who desire to comment thereon, may obtain copies at the price shown, from the Standards Association of New Zealand, Wellington Trade Centre, 181-187 Victoria Street (or Private Bag), Wellington.

NOTE—Payment must accompany all requests for drafts.

The closing date for the receipt of comment is 15 January 1988.

Dated at Wellington this 12th day of October 1987.

DENYS R. M. PINFOLD,

Director, Standards Association of New Zealand.

(S.A. 114/2/8)

The Standards Act 1965—Overseas Specifications Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the under-mentioned overseas specifications are being considered for endorsement as suitable for use in New Zealand.

Number and Title of Specification

American Petroleum Institute

API 650:1984 (Seventh edition. Revision 1.) Welded steel tanks for oil storage. Price on request.

American Society of Testing and Materials

ASTM D120:1984 Specification for rubber insulating gloves. \$13.20.

ASTM D390:1986 Specification for coal-tar creosote for the preservative treatment of piles, poles, and timbers for marine, land, and fresh water use. \$13.20.
