The Local Water Conservation (Pomahaka River and Tributaries and Lower Clutha River) Notice 1989

1. Title and commencement—(1) This notice may be cited as the Local Water Conservation (Pomahaka River and Tributaries and Lower Clutha River) Notice 1989.
(2) This notice shall come into force on the 14th day after the date of its notification in the Gazette.

2. Interpretation—In this notice, unless the context otherwise requires:

"Natural Water" means natural water as defined in the Act.

"Protected Waters" means—
(a) the waters of the Pomahaka River from its sources to its confluence with the Clutha River (approximate map reference NZMS260 G45:447453), and
(b) the waters of all rivers and streams contributing to the Pomahaka River; and
(c) the waters of the Lower Clutha River from its confluence with the Pomahaka River to the sea at the mouths of the Matau and Koau Branches.

"Upper tributaries" means the Pomahaka River and all its tributary rivers and streams upstream from Switzers Bridge (approximate map reference NZMS260 G45:098817).

"Waipahi River" means the Waipahi River from its source to its confluence with the Pomahaka River (approximate map reference NZMS260 G45:194520).

3. Regionally significant features—(1) It is hereby declared that the protected waters include and provide for regionally significant recreational and fisheries feature in respect of the Pomahaka River and its tributaries, and in particular, that:
(a) the upper tributaries provide for:
—(a) a regionally significant recreational fishery (trophy fishing of brown trout).
—(b) a regionally significant fish habitat (brown trout spawning and rearing).
(b) the Pomahaka River from Switzers Bridge to its confluence with the Clutha River provides for a regionally significant recreational fishery (brown trout)
(c) the Waipahi River provides for a regionally significant recreational fishery (brown trout fly fishing).

(2) It is further hereby declared that the Lower Clutha River provides for a regionally significant recreational fishery in the Pomahaka River and its tributaries by providing passage for...
migratory brown trout to and from the Pomahaka River and its tributaries and the sea.

4. Right to dam not to be granted—Because of the regionally significant features declared in clause 3 of this notice, no water right shall be granted under section 21 of the Act, and no general authorisation shall be made under section 22 of the Act, for the damming of any part of the protected waters or for any action which may significantly impede the passage of fish through any part of the protected waters:

Provided that rights may be granted or general authorisations made for damming for stockwater supply purposes.

5. Water rights (General)—(1) because of the regionally significant features declared in clause 3 of this notice, no water right shall be granted under section 21 of the Act, and no general authorisation shall be made under section 22 of the Act, if the effect of any such right or general authorisation would be to have or contribute to a significant detrimental effect on the regionally significant recreational and fisheries features as declared in clause 3 of this notice.

(2) Nothing in this notice shall prevent the renewal in substantially the same terms and conditions of any or all of the water rights or general authorisations affecting any part of the protected waters, current at the date of commencement of this notice.

(3) Nothing in this notice shall prevent the granting of any or all of the applications specified in the schedule to this notice for rights in renewal in substantially the same terms and conditions as the rights affecting the protected waters to which the said applications relate, that have expired before the date of commencement of this notice.

6. Limit of notice—Nothing in this notice shall be construed as limiting the effect of the second proviso to section 21 (1) of the Act relating to the taking or use of natural water for domestic needs, for the needs of animals, and for or in connection with firefighting purposes.

Explanatory Note
This note is not part of the draft notice but is intended to indicate the effect of clause 5 (1).

Clause 5 (1) is intended to apply to applications for water rights and to general authorisations which may affect any of the protected waters. It is expected that in respect of the lower Clutha River, this clause will be relevant and applicable only to applications for rights to discharge, and not to applications for rights to take natural water from these protected waters. This is because of the virtually complete unlikelihood of any applications to take having or contributing to a significant detriment effect on the recreational and fisheries values declared in clause 3.
