### Electrical Wiring Regulations 1976

#### Notice of Prohibition—Brass Portable Table Top Lamp Fittings

##### *With Stepped Touch Type Dimmer Control*

Pursuant to regulation 8 of the Electrical Wiring Regulations 1976, notice is hereby given that the Brass Portable Table Top Lamp Fittings described below, in my opinion constitutes or may constitute an electrical hazard and are unsuitable for use in New Zealand.

*Description:* Brass Portable Table Top Lamp Fittings; (3 models small, medium and large) with stepped touch dimmer control, Edison screw type lampholders and brass outlined petal shaped decorative glass lamp shades. One model has tinted glass sectional shade.

*Markings:* Made in Taiwan or (R O C Taiwan) on base.

The fittings contain a touch-on switch model GE10 made by the Teng Peng Co Ltd., Taiwan.

Some Known Faults of the Fittings are:

- (a) They are not earthed or double insulated.
- (b) They have exposed live parts accessible to the touch.
- (c) They have incorporated within the fitting a stepped touch type dimmer. This dimmer would not comply with an appropriate standard.

The method of operation of the dimming device invites the user to touch any part of the metal fitting that, is not earthed or double insulated and, under fault conditions could be alive.

- (d) The fittings are constructed in a manner that would not comply with an appropriate standard as required by the Electrical Wiring Regulations 1976.

Dated at Wellington this 2nd day of June 1989.

I. B. ANDERSON, Acting Secretary of Energy.
